| Cats | 30 | |
| | | 43 |

## Details

With a precipitous decline in neonatal feline intakes during FY 2013 Qtr. 1, combined with a successful quarter for feline adoptions (919 cats were adopted in FY 2013 Qtr. 1, which is 204 more feline adoptions than FY 2012 Qtr. 1), the Center was able to more easily manage the amount of felines housed at the shelter and in foster homes.

The Center's rescue partners provided significant assistance during the quarter as well: 1,529 companion animals were transferred during the quarter. Canine transfers were higher in Qtr. 1 FY 2013 (673) than in the same quarter last year (538).

More canines were also returned home in Qtr 1. FY 2013 (764) than in Qtr 1. FY 2012 (716).

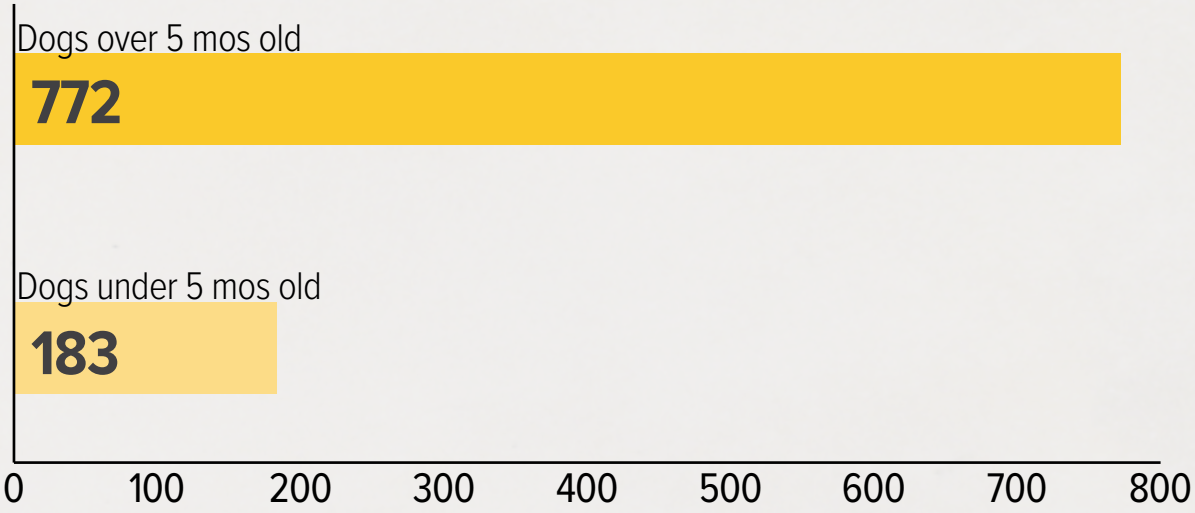
Collectively, these measures helped assure a live outcome rate of 91% for the quarter.

# Spay / Neuter Surgeries

## Dogs and Cats Spayed or Neutered Qtr. 1 FY 2013 (Oct - Dec 2012)

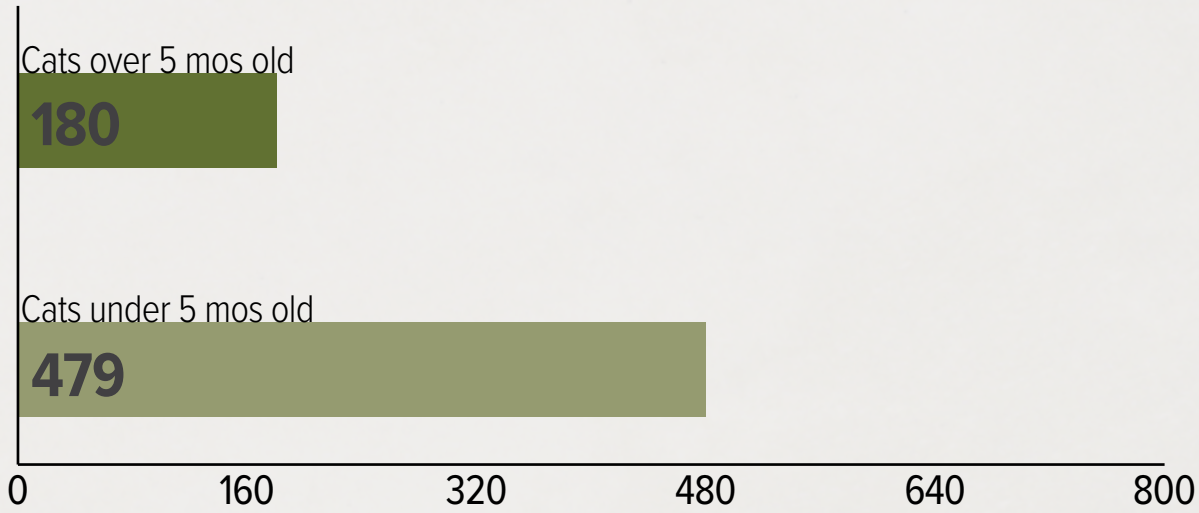
**Dogs**

**955**



**Cats**

**659**



# Achievements
