EDUCATIONAL IMPACT STATEMENT

CITY OF AUSTIN CODE AMENDMENT

Prepared for the City of Austin

Austin Independent School District

CODE AMENDMENT NAME: UNO Affordability

CASE #: C20-2012-011

☐ POTENTIAL IMPACT ON SCHOOL(S)

☒ NO IMPACT ON SCHOOL(S)

CODE AMENDMENT SUMMARY

Amend Section 25-2-756 (Height) of the Austin City Code to change the household income threshold for median family income within the University Neighborhood Overlay (UNO). The proposed change would require more affordable units when an increase to the maximum height is requested for a multi-family residential use.

IMPACT ON SCHOOLS

Although the amendment would allow for more affordable units, the proposed code amendment change is not likely to have an impact on AISD schools due to the geographic area affected. Without more information about the number of additional affordable units in the area, it is difficult to determine what the potential additional AISD students would be.
