In 2001 the City exercised this right and downzoned the property to GR. As the terms of the covenant have been met, the covenant has effectively expired.
19. 755 Springdale Road, as more fully described in the Planning & Development Review Dept., file no. **C14-99-2061(RCT). Proposed Change:** The Applicant proposes terminating a restrictive covenant (RC) that was applied to the property in 1999, when the property was zoned to general commercial services-mixed use-conditional overlay (CS-MU-CO) combining district zoning. The RC stated that the owner of the property would not protest a "rollback" of the zoning of the property, which would return to family residence (SF-3) and limited industrial services (LI) zoning if the property ceased for ninety (90) consecutive days to contain one of the following land uses: construction sales and services, agricultural sales and services, building maintenance services, and plant nursery.

NOTICE OF PUBLIC HEARING
Bergstrom Expressway/US 183

The Texas Department of Transportation (TxDOT), in conjunction with the Federal Highway Administration and the Central Texas Regional Mobility Authority, will conduct a public hearing on Wednesday, November 19, 2014. The hearing will be held at the Delco Activity Center located at 4601 Pecan Brook Drive in Austin, Texas.

The purpose of the hearing is to present the planned improvements for US 183 from US 290 to SH 71 in the city of Austin, Travis County, Texas, and to receive public comment. Displays will be available for viewing at 6:00 p.m., and staff will be available to answer questions. The formal hearing will commence at 6:30 p.m.

Within the proposed project limits, US 183 is characterized as a four-lane divided roadway (two travel lanes in each direction). However, the number of travel lanes in each direction varies. The purpose of the project is to improve safety and mobility. There is a need to change travel movements on US 183 because of the increase in the surrounding population, the traffic volumes, and the vehicle crashes. The project being considered would have six tolled main lanes (three in each direction) and four to six non-tolled access road lanes (two to three in each direction), depending on existing conditions. Approximately 4 acres of additional right-of-way and 9 acres of easement would need to be acquired for the proposed improvements. The proposed project would not displace any residences or businesses.

Information about the TxDOT right-of-way acquisition process, as well as the tentative schedule for right-of-way acquisition and construction, may be obtained from http://www.Bergstrom-Expressway.com. Project information will be displayed at the hearing and may be reviewed prior to the hearing during normal business hours at the TxDOT Austin District Office located at 7901 North IH 35, at Ruiz Branch Library located at 1600 Grove Boulevard, and at the University Hills Branch Library located at 4721 Loyola Lane.

All interested citizens are invited to attend this public hearing. Verbal and written comments from the public regarding this project are requested. Written comments not submitted at the hearing may be submitted by mail to TxDOT Austin District Environmental Coordinator, P.O. Box 15426, Austin, Texas 78761-5426 or by fax (512) 832-7157. Comments must be received on or before Monday, December 1, 2014 in order to become part of the official hearing record.

The public hearing will be conducted in English. Persons interested in attending the hearing who have special communication or accommodation needs, or need an interpreter, are encouraged to contact Ms. Shelly Eason at TxDOT (512) 832-7001. Requests should be made at least seven days prior to the public hearing. Every reasonable effort will be made to accommodate these needs. If you have general questions or concerns regarding the proposed project, you may contact Ms. Eason at the above-referenced phone number.
