Qualifications

Please describe your relevant analytical skills.

I hold a Bachelors in Electrical Engineering from Cornell University and a Master's in Engineering (major in reliability and statistics) and an MBA. My engineering background and my MBA helps me analytically review data, ask questions for clarifications so that process and assess options. I understand statistics and can apply it to help make decisions.

Please describe your ability to be impartial.

I have voted for both Republicans and Democrats in City, State and National Elections. I have contributed funds to both Republican and Democratic candidates. I review candidates, issues and bond proposals on their merits and vote accordingly. I have lived in Austin since 1992, raised my two children here and have adopted it to be my home. My husband and I have grown to love the City of Austin and the State of Texas. I believe that a fair government representing all citizens is important and we need a diversity of thoughts to produce optimal outcomes for the benefit of a healthy, vibrant society.

Please describe your appreciation for the City of Austin's diverse demographics and geography.

I have lived in Austin since 1992, having previously lived in NYC , Boston and upstate NY. I have also lived in Tokyo, Japan, attending college there and worked in China with frequent travel to Hong Kong and Taiwan. When we moved to Austin, my husband and I were very impressed by how cosmopolitan and diverse this city was and in particular, how accepting and friendly my neighbors and my community were to my family. I am very proud that our city values diversity and cherishes different cultures and interests through all sorts of events and celebration. I especially appreciate how our city works to create an open and tolerant environment for all races, ethnicity, backgrounds, sexual orientations, and a mixture of professions (University, High Tech, State Government, Music, etc). Our city's interest in different cultures, activities, arts, and food helps make us one of the top cities in the country to live in.

Please provide any other information you wish to be considered during the selection of the most qualified applicants for the Commission.

I have been working in Marketing, Consulting and Sales and Development Engineering with IBM since 1989 when I started in NY and then transferred to Austin in 1992. I have been active in several Austin non-profit organizations. I work with several non-profits including my alumni group, the Cornell Club of Austin and the broader alumni organization, All-Ivy Plus to schedule social, networking and outreach events. I am on the board of directors for the the the LASA (Liberal Arts and Science Academy) High School Robotics Association and am active in the broader Austin Robotics community and outreach for STEM (Science Technology Engineering and Math) activities. I am also on the board of directors of Salon Concerts, an Austin arts non-profit with a 23 year history in Austin, supporting the enjoyment and study of classical chamber group music.

My husband and my family live by the Arboretum area in NW Austin. in 2006, we developed and invested in a unique contemporary rental condominium property in East Austin. This property was originally a dilapidated house when we bought the lot. We had the project designed by a local Austin architect and are quite proud of how the project turned out.
