10 DISTRICTS. 4 MONTHS. WHO WILL WIN?

Almost half of everything in Austin's trash could have been recycled! We are throwing away $4.7 million in recyclables every year!

That's why Austin Resource Recovery has launched the AUSTIN RECYCLES GAMES.

WHAT ARE THE GAMES?

The Austin Recycles Games are a recycling competition among the 10 city council districts. The goal of the competition is to increase residential recycling and create awareness of barriers residents face.

The Austin Recycles Games will calculate pounds of recyclables collected per household in each district for the months of **December 2015** through **March 2016**.

WHAT DO WE WIN?

Districts can win in two categories:

1. most overall recycling
2. most improved

The winning districts will receive a beautification project for a library or public park and will be announced at the Earth Day event on **April 23, 2016**.

HOW CAN I PLAY?

The goal is for every curbside customer to recycle at least 60 pounds every month. If you have a blue City of Austin recycling cart you're already competing. Stop trashing so many recyclables; let's toss them all "*IN THE BIN FOR THE WIN!*"

Visit **AustinRecycles.com** to find out what district you are in and where your district ranks.

HOW TO RECYCLE

Place your carts 5 feet apart | Separar sus contenedores por 5 pies

Carts at the curb by 6:30 a.M. | Contenedores al bordillo para las 6:30 a.m.
