## Barton Springs Bathhouse Rehabilitation

658	<b>Open</b> I love the rustic open air mid century feel of it. Back to a simpler time where you have just what you need to prepare to go swimming. No indoor refrigerated air because when you're wet it is cold! No fofofo frills. I love that feel of old austin like the shady grove when playing outdoors was easy, natural and normal. Don't change much. Preserve the former Austin vibe we have loved for decades and THAT is why people go dip in 68 degree water, nostalgia and this place is sooo unique. Please please keep it that way.	5/8/2018 7:07 PM

667	<b>Open</b> The freedom it provides to women to move within the area clothing optional. If you want to make it world class the provide a beautiful area for womem to lay out in the sun nude for an even tan, as this was such a thing without a second thought in years past and still is for the bold few today. Provide for the more modest woman as well. Please please do something about the entry way stinch and water collection into an elongated puddle that has been present niegh a decade. More mirror with shelf space and do not reduce the # of showers available powered via solar for hot water.	5/8/2018 6:38 PM

1065	<b>Architecture/Design</b> <b>Pool</b>	The historic architecture and appealing design of the open-air bathhouse. The beautiful rotunda space centering the building and orienting the visitor entrance experience. The wonderful first visual impression to pool visitors of the only original, natural part of the pool, namely the bluffs over the shallow end. The environmental education in the central building space could be extended to the original pool entrances so that the Splash/Sheffield Center receives more exposure to visitors, as well as the opportunities for environmental education in the original entrances once they are reopened and/or any of the current areas of the Splash/Sheffield Center if/when relocated.	4/25/2018 9:59 PM
1066	<b>Architecture/Design</b> <b>Pool</b>	The appealing historic architecture and design of the open-air bathhouse and the beautiful rotunda space centering the building and orienting visitors to enter through the central rotunda area of the bathhouse and to present a wonderful first visual impression to pool visitors of the only original, natural part of the pool, namely the bluffs over the shallow end. The environmental education opportunities afforded by adding the pool entrances to the existing entrance so that the Splash/Sheffield Center receive heightened exposure as more visitors enter through the original entrances, as well as the opportunities for environmental education in the original entrances once they are reopened and/or any of the current areas of the Splash/Sheffield Center if/when relocated. Keep the current entrance while also reopening the original men's and women's entrances through the rotunda to improve life-safety access, to reduce entrance waiting times, to expose more people to education programming at the bathhouse, and to enhance the initial entrance experience at Barton Springs. The women's dressing area should be reopened by relocating the current office space from the current location to the extent possible to reopen the original space.	4/25/2018 9:51 PM
1067	<b>Architecture/Design</b> <b>Pool</b>	The appealing historic architecture and design of the open-air bathhouse and the beautiful rotunda space centering the building and orienting visitors to enter through the central rotunda area of the bathhouse and to present a wonderful first visual impression to pool visitors of the only original, natural part of the pool, namely the bluffs over the shallow end. The environmental education opportunities afforded by adding the pool entrances to the existing entrance so that the Splash/Sheffield Center receive heightened exposure as more visitors enter through the original entrances, as well as the opportunities for environmental education in the original entrances once they are reopened and/or any of the current areas of the Splash/Sheffield Center if/when relocated. Keep the current entrance while also reopening the original men's and women's entrances through the rotunda to improve life-safety access, to reduce entrance waiting times, to expose more people to education programming at the bathhouse, and to enhance the initial entrance experience at Barton Springs. Make design improvements to the women's dressing area by relocating the current office space from the corner to the extent possible to reopen the original space, by increasing the flow and use to accommodate increasing demand, and to provide security improvements. Rehabilitate the bathhouse through a balanced combination of restoring the original 1947 design and construction of the dressing area facilities to preserve the existing character of the bathhouse while also providing modern, safe, hygienic, and accessible changing, shower, and toilet facilities, including improving pool access, repairing plumbing and mechanical systems, restoring the rotunda, restoring the dressing room stalls, canopies, and benches as needed, and moving any incompatible Sheffield Education Center uses outside of the floodplain to a more suitable and engaging location. Include showers and signage to encourage visitors, runners and cyclists to shower before entering the pool as a way to improve water quality and prevent zebra mussel infestation at pool. Elevate the profile and exposure of the Sheffield Education Center (and use of the restroom facilities) during the initial rehabilitation of the bathhouse by directing visitor entrance traffic through the reopened men's and women's entrances through the rotunda entries to the pool.	4/25/2018 2:57 PM

## Barton Springs Bathhouse Rehabilitation

63	<b>Minimal/No Changes</b>	I think the improvements to the plumbing are important, not only to protect water quality but people and the Barton Springs Salamander, but I do hope you try to keep the general look of the bathhouse the same.	5/31/2018 9:44 PM
64	<b>Access to Amenities</b>	Making sure it doesn't impact the pools usability!	5/31/2018 9:43 PM
65	<b>Costly</b>	Cost, of course	5/31/2018 9:16 PM
66	<b>parking/traffic</b>	Texans love to drive everywhere. With our population increasing, I do not want to see multilevel parking facilities in zilker Park. I also appreciate the sense of history at Barton springs and hope the original flavor can be maintained.	5/31/2018 9:03 PM
67	<b>Costly</b>	Spend a whole bunch of money to create some new ugly cost ineffective crap.	5/31/2018 9:01 PM

71	<b>Construction (duration)</b>	Construction interfering with normal use of the area during the restoration. Severe increase in cost.	5/31/2018 5:34 PM
72	<b>History/Architecture</b>	That it would look too modern and disrupt the natural beauty.	5/31/2018 5:23 PM
73	<b>Costly</b>	Cost overruns	5/31/2018 5:20 PM
74	<b>Costly</b> <b>History/Architecture</b>	Length of project, pool work quality, interruption of use and destruction of historic significance of WPA era reject.	5/31/2018 4:56 PM

## Barton Springs Bathhouse Rehabilitation

99	<b>Access to Amenities</b> <b>Construction (duration)</b> <b>History/Architecture</b> That you will create a place that is not as beautiful and inviting as the bathhouse is now. Do not want a lot of tile and closed in spaces. It needs to be wood and stone and metal like at Deep Eddy, with the roof open and not covered (yes! even in winter.) But the water pressure needs to be reasonable, which Deep Eddy is NOT. I'm also concerned the construction will take forever and that you will reduce the number of parking spaces both during the construction and after (permanently). Parking is already a nightmare for the regular swimmers, which I am one of. Bathhouse should be available only to swimmers - not to runners, bikers, hikers, train riders, etc. There should be a separate bathroom facility for those folks like there is now. If we have to share the bathhouse with everyone who uses the park it would be a disaster. There would be no privacy and comfort to change in the outdoors as there is now. We do NOT need ugly plastic shower curtains as you have at Deep Eddy. They are a health concern when they get dirty and they rip off the attachments and look nasty. YUCK.	5/31/2018 12:43 PM
100	<b>parking/traffic</b> I want the streamline moderne style restored as much as possible. Past "remodels" have really messed with it. Also, concerned about the parking lot. It's been there all my life-i'm 70- and seems like it's fine	5/31/2018 12:39 PM
101	We need more entrance clerks. The entry line reached all the way to Barton Springs Road on Saturday, May 26, 2018!	5/31/2018 12:34 PM
102	<b>History/Architecture</b> That it will take the "vibe" away	5/31/2018 12:27 PM
103	<b>Minimal/No Changes</b> None	5/31/2018 12:15 PM

106	<b>Access to Amenities</b> <b>Construction (duration)</b> access during construction	5/31/2018 11:47 AM
107	<b>Access to Amenities</b> <b>Costly</b> Too much money for too little return, money that should be spent protecting the water -- the springs. A light touch restoration/rehab is greatly preferred to an expensive redo. Also, people going for a swim should not be forced to walk through a building.	5/31/2018 11:36 AM
108	<b>Construction (duration)</b> Closers, construction debris	5/31/2018 11:28 AM
109	<b>parking/traffic</b> parking access, pedestrian patron traffic at the entrance	5/31/2018 11:09 AM
110	<b>History/Architecture</b> That it would change anything to reduce the classic design, spaciousness, and simplicity. This space needs preservation and restoration to its original state. It doesn't need modernizing, let alone a "tarting up" to prove what advanced architects we are compared to the designers of the 1947 structure.	5/31/2018 11:09 AM
111	<b>Access to Amenities</b> Possible excesses, like installing electric hand dryers, and the length of time of any plumbig construction. Keep it simple, a place to shower and change.	5/31/2018 11:04 AM
112	<b>Minimal/No Changes</b> It is not needed and will change the historical appetance and layout of original bathhouse. It's a project wanted and pushed by a small group of people who really don't care about the pool, the fbbsp.	5/31/2018 10:57 AM
113	<b>History/Architecture</b> If modernizing features will negatively impact the historic features. I like how casual it feels right now.	5/31/2018 10:34 AM

137	<b>History/Architecture</b>	Modernization might make it lose its unique character	5/31/2018 6:05 AM
138	<b>History/Architecture</b>	I am gravely concerned that the same architects that worked on Deep Eddy work on Barton Springs. Those architects butchered the ladies dressing room at Deep Eddy with the concrete and metal, the lack of a bench/small shelf in showers, long walk between bench and showers - across wasted space - between benches and showers, poor quality plumbing fixtures that leak and are often broken, no shelving near sinks for placing soap, makeup bags, electric plugs that often don't work. Looks like the plumbing used was residential quality, not for heavy use.	5/31/2018 4:49 AM
139	<b>parking/traffic</b>	Limited parking, noise access to bathroom	5/31/2018 4:47 AM
140	<b>Construction (duration)</b>	That it will be totally closed during rehb	5/31/2018 1:50 AM
141	<b>History/Architecture</b>	Everything gets torn down and completely changed at once, like too many spots in Austin. There's a middle ground Instead of being extreme. That there will way too much emphasis on trendy "technology" and the important stuff like good showers, a good atmosphere , will be over looked/forgotten	5/31/2018 1:13 AM
142	<b>History/Architecture</b>	We will loose the vintage charm and character with construction. I want it to be restored with some subtle updates to the facility and are not noticeable. Updated look and feel but still the same.	5/31/2018 12:06 AM

144	<b>Costly</b>	That it will cost a lot of money and isn't really needed.	5/30/2018 10:40 PM
145	<b>History/Architecture</b>	That it will change things too much.. i think you can leave the existing layout but update the materials, finishes, plumbing, etc. Austin is already changing so much, it would be nice to hold on to something and leave it the way it always was!! 9but make it nicer/cleaner/newer)	5/30/2018 10:26 PM
146	<b>History/Architecture</b>	That it will be made markedly different for theoretical or philosophical reasons and not address the few practical opportunities for improvements, such as detailed in #1 above.	5/30/2018 10:20 PM

153	<b>Costly</b>	it will cost a lot of money and increase fees at the pool	5/30/2018 9:37 PM
154	<b>History/Architecture</b>	Loosing the original character, loosing the open air element	5/30/2018 9:35 PM
155	<b>Access to Amenities</b>	it will alter the character of the bathhouse, which is perfect for the site. It will alter the ambiance of the dressing rooms, which is casual and open and communal.	5/30/2018 9:32 PM
156	<b>Access to Amenities</b> <b>History/Architecture</b>	I hope the improvements don't get rid of the coolest things about the bathhouse...that it feels like an interesting hybrid of indoor and outdoor, but mostly outdoor. Also feels very communal.	5/30/2018 9:30 PM

## Barton Springs Bathhouse Rehabilitation

164	<b>Costly</b> The expense and how much more I would have to pay in taxes for this project. Also, how long the renovation will take.	5/30/2018 8:23 PM
165	<b>Construction (duration)</b> This project has taken far too long. I am concerned that the purity of vision of the project will be obscured by complacency. The project requires a high level of balancing between practical needs, fostering of community, and expressions of grandeur.	5/30/2018 8:22 PM
166	<b>History/Architecture</b> I would like you to maintain the charm but update it	5/30/2018 8:16 PM
167	<b>Access to Amenities</b> Not enough dressing or shower stalls and not getting better air flow/circulation through he changing area.	5/30/2018 8:16 PM
168	<b>History/Architecture</b> I would be disappointed if it was changed and "modernized."	5/30/2018 7:58 PM
169	<b>History/Architecture</b> The possibility of tearing down historical structures and not keeping it the same as it has been for years	5/30/2018 7:58 PM
170	<b>History/Architecture</b> That it will lose it's natural and old-fashioned feeling. I personally don't think it needs renovation. I've been swimming there for over 50 years.	5/30/2018 7:54 PM

180	<b>Minimal/No Changes</b> None	5/30/2018 6:45 PM
181	<b>History/Architecture</b> That it gets trended up with architectural moves we'll be ashamed of in ten years. The pool building is from a great era of public architecture, both modest and monumental.	5/30/2018 6:39 PM
182	<b>Costly</b> Use the money to fund better education for our children. Use the money to provide help for the thousands- yes, thousands of homeless people in this city. Use the money to help the mentally ill obtain jobs suited for them. Use the money for helping our planet!	5/30/2018 6:30 PM
183	<b>History/Architecture</b> "over architecting", destroying the nature positive vibe, making it too trendy	5/30/2018 6:29 PM

191	<b>History/Architecture</b> The new building my not fit in with the rest of the ambiance.	5/30/2018 5:37 PM
192	<b>Construction (duration)</b> I'm mostly concerned that the project will make the facility unavailable for a long time.	5/30/2018 5:35 PM
193	<b>History/Architecture</b> I am concerned that the architecture plans won't maintain the natural aspects. Also, the women's room was changed years ago to make too many little unused changing cubicles that diminish the open area.	5/30/2018 5:33 PM
194	<b>Access to Amenities</b> Loosing outdoor shower	5/30/2018 5:33 PM

199	<b>Costly</b> putting a roof over the men's dressing/shower area would ruin the feel of the place and lead to increased maintenance costs	5/30/2018 5:17 PM
200	<b>Access to Amenities</b> Provide for more privacy in the mens changing area	5/30/2018 5:14 PM
201	<b>Construction (duration)</b> <b>History/Architecture</b> That the pool will be closed for an extensive period and it will ruin the character of the place.	5/30/2018 5:13 PM

## Barton Springs Bathhouse Rehabilitation

202	<b>New renovations</b> I would update the plumbing but leave the space as it is: it's a jewel that does not need recutting.	5/30/2018 5:06 PM
203	<b>Access to Amenities</b> My concern is that they are not doing anything at present to improve the bath house	5/30/2018 5:02 PM
204	<b>parking/traffic</b> parking will be limited. Traffic to and from Barton Springs could become overly crowded.	5/30/2018 5:00 PM
205	<b>History/Architecture</b> making it too modern	5/30/2018 4:54 PM
206	<b>Access to Amenities</b> Changes to the integrity of the original design	5/30/2018 4:53 PM
207	<b>Access to Amenities</b> That the bath house will change from it's open air feel.	5/30/2018 4:51 PM
208	<b>Construction (duration)</b> The length of time the bathhouse will be closed during renovation	5/30/2018 4:48 PM
209	<b>Minimal/No Changes</b> Nothing	5/30/2018 4:48 PM
210	<b>Construction (duration)</b> That it will take too long and infringe on regular swimmers' access to the pool itself.	5/30/2018 4:43 PM
211	<b>History/Architecture</b> Screwing up what makes the facility unique	5/30/2018 4:37 PM
212	<b>Access to Amenities</b> That it will close access to bathrooms while I want to swim, and as a result people will start peeing in the pool.	5/30/2018 4:27 PM
213	<b>Costly</b> The cost of the rehab should not raise the cost of use of the facility. It must continue to be an affordable option for all Austin residents.	5/30/2018 4:26 PM
214	<b>History/Architecture</b> Taking away the historic appeal.	5/30/2018 4:24 PM
215	<b>History/Architecture</b> I guess I do not understand what exactly the project includes; but I want the original integrity to stand. I love the outdoor showers, but if there was more of a covered walkway for when it rains, that would be great.	5/30/2018 4:20 PM
216	<b>History/Architecture</b> It will lose its charm, retro design.	5/30/2018 4:19 PM
217	<b>History/Architecture</b> That its style will be changed.	5/30/2018 4:14 PM
218	<b>parking/traffic</b> it will take away from the park	5/30/2018 4:13 PM

221	<b>History/Architecture</b> Do not diminish natural spaces	5/30/2018 4:10 PM
222	<b>Construction (duration)</b> Duration	5/30/2018 4:05 PM
223	<b>History/Architecture</b> Architecturally, I think the original, open air rotunda layout is marvelous. I would be deeply disappointed if the character of that rotunda was altered to lose its well earned character.	5/30/2018 4:03 PM
224	<b>Access to Amenities</b> <b>History/Architecture</b> That it may impede in swimming. Also I think redo of bath house should include history of springs, including and highlighting segregation at springs. I'm concerned people don't know about that history.	5/30/2018 4:00 PM
225	<b>Minimal/No Changes</b> Barton Springs is already so awesome, any improvement would taint its preexisting natural beauty, which is what makes Barton Springs so great! The untouched natural glory of thur springs in the middle of a major city is exactly what gives it its magic.	5/30/2018 3:50 PM
226	<b>Environment</b> If we lose the open aired nature and the greenery, I might literally die of heart break. Nothing better than rinsing off after a good day at the springs under the sunshine.	5/30/2018 3:50 PM
227	<b>History/Architecture</b> The essence of character may be lost.	5/30/2018 3:50 PM
228	<b>parking/traffic</b> You will cut out available useable parking.	5/30/2018 3:44 PM
229	<b>Access to Amenities</b> Will there be other bathrooms available while construction pending?	5/30/2018 3:43 PM
230	<b>Costly</b> <b>History/Architecture</b> Expense and loss of character. Functional upgrades that protect against those would be great.	5/30/2018 3:32 PM
231	<b>Minimal/No Changes</b> no concerns	5/30/2018 3:32 PM
232	<b>History/Architecture</b> Please do not enclose it! The outdoor feeling is so lovely as are the roses and such.	5/30/2018 3:24 PM
233	<b>Access to Amenities</b> <b>Construction (duration)</b> No access during construction.	5/30/2018 3:20 PM
234	<b>History/Architecture</b> Less is more with the bath house. Could easily be too much.	5/30/2018 3:20 PM
235	<b>Minimal/No Changes</b> None.	5/30/2018 3:19 PM
236	<b>Access to Amenities</b> <b>Environment</b> I want to keep it open to the sky. I also love the plants. I want to see the character of the bathhouse preserved.	5/30/2018 3:18 PM
237	<b>History/Architecture</b> losing funky/keep Austin weird.	5/30/2018 3:17 PM
238	<b>Access to Amenities</b> Reduce space for "privacy"	5/30/2018 3:15 PM

## Barton Springs Bathhouse Rehabilitation

239	Minimal/No Changes	Please don't tear the bathhouse down and build something that is not in keeping with the existing stonework throughout the pool and park area.	5/30/2018 3:13 PM
240	History/Architecture	I am concerned that by changing them or updating the simplicity will be lost. I feel only mild cosmetic changes should be made, at a minimum. They are honestly perfect as they are.	5/30/2018 3:12 PM
241	Minimal/No Changes	Please keep true to the original structure. Any renovations should be made with an eye on returning the bathhouse to it's original look from when it was built.	5/30/2018 3:11 PM

## Barton Springs Bathhouse Rehabilitation

279	change		5/30/2018 2:15 PM
280	<b>History/Architecture</b>	Keeping the integrity & older charm of the building...so modernizing the facilities but the overall look shows that's it's been there for all of history.	5/30/2018 2:15 PM
281	<b>Minimal/No Changes</b>	No concerns. It needs to have better toilet facilities for the men's side.	5/30/2018 2:15 PM
282	<b>Minimal/No Changes</b>	not any	5/30/2018 2:15 PM
283	<b>History/Architecture</b>	that the exterior footprint might change	5/30/2018 2:09 PM
284	<b>History/Architecture</b>	That any of the original amazing construction be removed or completely redesigned.	5/30/2018 2:08 PM
285	<b>History/Architecture</b>	Eliminating reducing space size	5/30/2018 2:08 PM
286	<b>Access to Amenities</b>	keep open air concept	5/30/2018 2:05 PM
287	<b>parking/traffic</b>	"Reconfigure the parking lot" often means "decrease the available car parking"	5/30/2018 2:04 PM
288	<b>Access to Amenities</b>	Closures in showers	5/30/2018 2:02 PM
289	<b>parking/traffic</b>	Parking, it's bad enough, I'm afraid it'll be worse when it's in jeopardy.	5/30/2018 2:02 PM
290	<b>Access to Amenities</b>	<b>History/Architecture</b> that the update will be functional but sterile; that the character of the Bathhouse will be lost.	5/30/2018 2:02 PM
291	<b>Access to Amenities</b>	<b>History/Architecture</b> Maintaining the current look and feel of the Bathhouse, while modernizing the plumbing etc.	5/30/2018 1:59 PM
292	<b>Access to Amenities</b>	<b>Construction (duration)</b> Times in which construction will take place, whether the areas under construction will cause the bathhouse to close, and the decor of the changing rooms	5/30/2018 1:57 PM
293	<b>History/Architecture</b>	Historical Integrity	5/30/2018 1:56 PM
294	<b>History/Architecture</b>	Taking away its historical charm	5/30/2018 1:56 PM
295	<b>History/Architecture</b>	Destruction of the old construction. I wouldn't mind temporary walls and whatnot but keep the original. I wouldn't mind being inconvenienced to maintain the integrity of this rare old building.	5/30/2018 1:55 PM
296	<b>Minimal/No Changes</b>	Nothing	5/30/2018 1:55 PM
297	<b>Costly</b>	cost	5/30/2018 1:54 PM
298	<b>Maintenance</b>	Cleanliness	5/30/2018 1:53 PM
299	<b>Minimal/No Changes</b>	It is unnecessary. This is not a priority item. Please save this money for higher priority items, e.g. homeless infrastructure, school infrastructure, I-35 and other traffic areas.	5/30/2018 1:52 PM
300	<b>Costly</b>	That it is so costly that admission to the pool becomes too expensive	5/30/2018 1:50 PM
301		truth be told, if it was made to accommodate a much higher capacity of users/people (and to weather 70 years of use) which might in fact be appropriate, the charm and character will go away....and it will be an 8 storey building	5/30/2018 1:50 PM
302	<b>History/Architecture</b>	Keeping the historical features	5/30/2018 1:49 PM
303	<b>History/Architecture</b>	That it will move away from the hippie, low key vibe of the Springs/become too modern...	5/30/2018 1:49 PM
304	<b>New renovations</b>	That the renovated version wouldn't prioritize or include plants in the courtyard	5/30/2018 1:47 PM
305	<b>Construction (duration)</b>	delays	5/30/2018 1:47 PM
306	<b>Construction (duration)</b>	How long will it take? Most recent construction took over 1 yr and it's not quite clear what changed.	5/30/2018 1:46 PM
307	<b>Minimal/No Changes</b>	don't know	5/30/2018 1:46 PM
308	<b>Environment</b>	I don't want to lose the relaxed nature of it.	5/30/2018 1:45 PM
309	<b>History/Architecture</b>	architecture that doesn't fit with existing fabric and appreciate nature	5/30/2018 1:44 PM
310	<b>History/Architecture</b>	I am afraid that it would change the building to something boring and pretentious.	5/30/2018 1:43 PM
311	<b>History/Architecture</b>	It won't look timeless.	5/30/2018 1:42 PM
312	<b>New renovations</b>	as a disabled veteran, an accessible sink would be nice. I am worried that you will take away our open air ceiling.	5/30/2018 1:42 PM
313	<b>History/Architecture</b>	Making the showers and bathhouse like a gym. Preserve the beautiful natural feeling. And please renovate during the winter!!	5/30/2018 1:41 PM
314	<b>Costly</b>	Costs!!! The City of Aust in is a poor manager of public funds and resources. The City couldn't throw a Birthday Party for a three year old child for less than 4 million dollars! Yes you are that bad and everything you do is overpriced Ad. Builder I can build for half of what you pay in many cases. Your Building department needs to be out sourced!	5/30/2018 1:41 PM

317	History/Architecture	taking away the historical look of the bathhouse	5/30/2018 1:38 PM
318	History/Architecture	Historical preservation yet the ability to use this large space.	5/30/2018 1:38 PM
319	Minimal/No Changes	Trying to change it so much. We love it as it is!! Like the new library, we don't need all that zippity new beautification. It would be destroying what we are so attracted to .. funky & natural. Keep Austin Weird is our theme it seems.	5/30/2018 1:38 PM
320	Access to Amenities Environment	I hate to lose the garden vibe in the shower area. It's such a unique space. The bathrooms could be improved though. They're dark and often have small pools of standing water.	5/30/2018 1:37 PM
321	Minimal/No Changes	None	5/30/2018 1:37 PM
322	Access to Amenities	That the enclosed open air courtyard and clothing-optional atmosphere for sunbathing would be eliminated.	5/30/2018 1:37 PM

324	Minimal/No Changes	nothing	5/30/2018 1:35 PM

327	Construction (duration)	how long it will take to complete	5/30/2018 1:35 PM
328	parking/traffic	Damage to parks system	5/30/2018 1:33 PM

332	Access to Amenities	disruption in regular pool hours	5/30/2018 1:30 PM
333	History/Architecture	I hope the building's historical character will remain intact and I hope the courtyard area with the shower's on the women's side will not be replaced with more modern, dull and industrial showers	5/30/2018 1:29 PM
334	History/Architecture	That they will destroy the character	5/30/2018 1:29 PM
335	Minimal/No Changes	n/a	5/30/2018 1:28 PM

338	Access to Amenities	Making sure there are available showers while the renovation is happening	5/30/2018 1:28 PM
339	Access to Amenities	That the new bathhouse will be bland, whitewashed, and stereotypically modern. Modern plumbing, fresh tile would be great. But the historic layout, old-world atmosphere should not be overlooked and thrown out.	5/30/2018 1:27 PM
340	Construction (duration)	Length of project	5/30/2018 1:27 PM

344	Minimal/No Changes	None really it should be updated and modernized for the public.	5/30/2018 1:25 PM
345	History/Architecture	That it doesn't keep up with the "cool" essence of the pool, it's history and architecture.	5/30/2018 1:25 PM
346	Maintenance	Maintenance	5/30/2018 1:25 PM
347	Access to Amenities	Will they close up the roof (I hope they don't).	5/30/2018 1:24 PM

349	History/Architecture	I'm excited that the maintaining the history integrity is a priority.	5/30/2018 1:23 PM

406	parking/traffic	Parking	5/26/2018 7:32 AM
407	Minimal/No Changes	None	5/26/2018 7:16 AM
408	Access to Amenities	I'd be concerned that improvements would lead to admission fees being charged during the 5-8am hours. I love that I can swim for free - it's the only time that I go to the Springs! I also would be concerned that people would want too many amenities, or amenities that are too fancy. We don't need saunas, or towel service, or private indoor showers, or a roof!	5/25/2018 8:53 PM
409	parking/traffic	Parking, construction pollution	5/25/2018 3:38 PM
410	History/Architecture	That it might take away some of the character of the existing bathhouse	5/25/2018 2:35 PM

412	Access to Amenities	keeping my privacy	5/25/2018 2:56 AM
413	History/Architecture	Please do t make it an indoor space .. the beauty of the spring is the joy of nature and I would be sooo sad if I didn't feel the sun while taking a shower	5/24/2018 5:05 PM
414	History/Architecture	That it will destroy the current feel of the place	5/23/2018 3:23 PM
415	Environment	That the naturalness of the destination will be gotten rid of. Also I fear that the facilities might be upgraded but not to a level where they would be considered nice.	5/23/2018 1:32 PM
416	History/Architecture	Changing the character of this traditional icon.	5/23/2018 10:19 AM
417	Environment	Damage to environment. Modernization at the expense of feeling like you're in the middle of nowhere while in an urban center. Everything becoming too tourist centric and cutesy.	5/22/2018 11:58 PM
418	History/Architecture	preserve the character of the pool. no ugly plastic, no gross modern design. no wasted space on changing rooms	5/22/2018 6:23 PM
419	History/Architecture	I'm very concerned that this project would change the look and feel of the space, as well as the landscaping. The retro tiles and layout of the showers are so wonderful. Maintaining and reviving the historical beauty of the bathhouse is most important to me while keeping critical things like plumbing and accessibility foremost. As a life-long Austinite, I have long said that the women's bathhouse at Barton Springs is my favorite place in town.	5/22/2018 2:24 PM
420	Costly	Maintaining the updates, increase cost of day use	5/22/2018 1:06 PM
421	Maintenance	Cleanliness on a regular basis due to high use and not addressing the terribly long admission process (waits in excess of 45minutes)	5/22/2018 10:57 AM

424	Access to Amenities	closed off to nature	5/21/2018 9:11 AM

435	Access to Amenities	It will cause havoc to the swimmers and staff	5/20/2018 7:02 PM
436	Minimal/No Changes	None (you would change it entirely)	5/20/2018 6:58 PM
437	Minimal/No Changes	None whatsoever	5/20/2018 6:54 PM

446	<b>Construction (duration)</b>	if it takes too long	5/20/2018 4:27 AM
447	<b>parking/traffic</b>	Less parking places	5/19/2018 9:30 PM
448	<b>Minimal/No Changes</b>	None	5/19/2018 7:39 PM
449	<b>Access to Amenities</b> <b>Environment</b>	I am quite concerned that the renovations will make the dressing areas less open and natural.	5/19/2018 3:27 PM
450	<b>History/Architecture</b>	Will it preserve historic structure?	5/18/2018 10:48 PM
451	<b>parking/traffic</b>	I like the open courtyard but it is a little creepy these days to see naked people at this park, but eh, as long as people don't get creepy and there are places to change and pee with some privacy. I'd hate for the place to lose the oldness appeal. I like the little movie cave with kid friendly climbing and family education attractions. Please no high rise parking or cutting out trees.	5/18/2018 6:43 PM
452	<b>Costly</b>	Don't spend much of taxpayers' money! Do anything new fast!	5/18/2018 6:19 PM
453	<b>Access to Amenities</b>	That ya'll will put a roof in the bath house and I won't be able to get sun on my buns while I'm showering. Also that you might consider putting in individual shower stalls in the name of privacy. I think the open shower concept is a healthy thing for men and boys to experience. No shame in being naked	5/18/2018 5:28 PM
454	<b>History/Architecture</b>	I'm concerned that the original feel of the bathhouse might be altered. Improving plumbing sounds great, but changing the character of the place does not.	5/17/2018 4:12 PM
455	<b>Construction (duration)</b>	down time for the facilities	5/17/2018 12:31 PM
456		Concerned that some professional types want to make changes that are not wanted.	5/17/2018 12:21 PM
457	<b>Minimal/No Changes</b>	Other than a need for something to utilize while work is in progress, none - it is in need up updating.	5/17/2018 6:28 AM
458		That you'll dig up bones.	5/17/2018 1:25 AM
459	<b>History/Architecture</b>	That the charm will be lost, that what has lasted for decades will be replaced with materials of inferior quality. Why not just maintain what we have?	5/16/2018 4:54 PM
460	<b>History/Architecture</b>	That the natural look of the springs would be affected.	5/16/2018 4:20 PM
461	<b>History/Architecture</b>	I fear that the zeal of architects to Do Something (Anything) and to Make Their Mark may mar a rare old treasure forever.	5/16/2018 1:34 PM
462	<b>Maintenance</b>	All that is needed is new pipes and a few tiles. Closure of dressing rooms would be really inconvenient. Perhaps you could connect the outside restrooms ( near the old round ticket area ( now science display) to the inside old dressing rooms for convenience of the patrons	5/16/2018 12:38 PM
463	<b>History/Architecture</b>	It needs to be done and long overdue. I have concerns that the design would not last long enough for the next 70 years. How about aim for 50 yrs? Utility technologies advance a lot faster these days.	5/15/2018 10:18 PM
464	<b>Access to Amenities</b> <b>Construction (duration)</b>	Not having decent restrooms while construction is going on.	5/15/2018 9:37 PM
465	<b>History/Architecture</b>	losing the austin-feel of Barton springs	5/15/2018 2:24 PM
466	<b>Access to Amenities</b>	I'm concerned that the large space of the men's bathhouse will be divided up by erecting tall or short walls within it, and that its size may be diminished. Open-air showers are essential, just like my father and grandfathers used.	5/15/2018 1:55 PM
467	<b>History/Architecture</b>	That the historic nature and look and feel of the bath house will go away. but i understand the architects really do understand historic preservation	5/15/2018 11:11 AM
468		That it over develops the area	5/15/2018 10:55 AM
469		Sensitive people whining about how "things are going to change!!! Don't change it!!!!" It needs to change to protect salamanders, prevent runoff issues, and actually support the amount the people that come here in the summer.	5/15/2018 9:57 AM
470	<b>New renovations</b>	That the courtyard is removed.	5/14/2018 10:18 PM
471	<b>History/Architecture</b>	Loss of connection to the site (on all sides), loss of historically significant details, lack of daily usefulness in lieu of "trendy" or money making features	5/14/2018 6:46 PM
472	<b>Access to Amenities</b> <b>Construction (duration)</b>	Length of time the bathhouse will be closed	5/14/2018 2:32 PM
473	<b>History/Architecture</b>	New construction had the potential to feel cold and cookie cutter. It'd be great to maintain as much of the current aesthetic as possible while addressing the functional needs of the update.	5/14/2018 9:30 AM

## Barton Springs Bathhouse Rehabilitation

474	Access to Amenities Construction (duration)	Lack of dressing and bathroom space, construction debris runoff into springs	5/14/2018 8:51 AM
475	Access to Amenities Construction (duration)	Ability to enjoy the pool while renovations are ongoing. How long will it take?	5/14/2018 7:02 AM
476	Access to Amenities Construction (duration)	Not having bathrooms while construction is happening.	5/13/2018 6:53 PM
477	parking/traffic	I'm concerned that look and layout of the historic structure will not be returned to its original design. Further, as an older person, I concerned the parking out front will be eliminated, making it harder to get into and out of the pool.	5/13/2018 12:59 PM
478	History/Architecture	They'll ruin the historic look	5/13/2018 12:45 PM
479	Construction (duration) Environment	none, any improvement to barton springs will be welcome. Maybe that the increased construction would be bad for the environment in some way like increased runoff, use of chemicals, increased water waste, etc	5/13/2018 11:31 AM
480	History/Architecture	That it gets too modern	5/13/2018 10:55 AM
481	New renovations	long overdue	5/12/2018 7:03 PM
482	History/Architecture	Don't change the integrity of the space. It would be nice to get a facelift as long as it isnt a massive redo. Long time Austinites want to keep this a sacred space that doesnt become modernized.	5/12/2018 4:31 PM
483	parking/traffic	It will block parking and access	5/12/2018 11:36 AM

491	New renovations	I like the tiles and the sunbathing areas as well.	5/11/2018 3:53 PM
492	Access to Amenities	That there will be no bath house available during renovation, that the update won't match the experience of Barton Springs.	5/11/2018 1:44 PM
493	History/Architecture	loses it charm, impacts the quality of the Springs	5/11/2018 1:30 PM
494	History/Architecture	Losing the historic uniqueness in the name of progress as the city usually does with other renovation projects.	5/11/2018 11:45 AM
495	Access to Amenities Minimal/No Changes	Shutting down the bathhouse. It's fine the way it is.	5/11/2018 11:18 AM
496	Construction (duration)	timeline length	5/11/2018 11:16 AM
497	Access to Amenities	Might better direct folks to use the dressing rooms to dress and undress and save the bathroom stalls for its intended purpose. I think people new to BS don't realize there are dressing rooms. A better flow in, around and out will help.	5/11/2018 10:15 AM
498		I just want y'all to get started, and not be like so many planning efforts I've participated in, where years pass and not much happens. I want y'all to execute more than I want every decision to be vetted by the public. The playground and train area is so depressing landscape-wise. I feel like I participated in a charette about that a million years ago. I am excited at least that you rehabilitated the cottage, and the daylighting of Eliza particularly if you get rid of the chain link fence, and that you restored the lanterns on the rock pillars. Now keep going!!	5/11/2018 10:04 AM
499	Access to Amenities	temporary elimination of changing area and shower service during the renovation	5/11/2018 9:23 AM
500	Access to Amenities	I'd like to keep the poolside bathhouse separate from the museum bathrooms.	5/11/2018 8:50 AM

505	History/Architecture	The lack of southern Texas charm.	5/10/2018 9:01 PM

## Barton Springs Bathhouse Rehabilitation

506	<b>Access to Amenities</b>	I really dislike the shower curtains. They're gross. I've been swimming at Barton Springs for nearly 50 years, and the bathhouse was fine without shower curtains all that time.	5/10/2018 8:22 PM
507	<b>Access to Amenities</b>	Removes the sunbathing area and/or encloses the entire area.	5/10/2018 7:23 PM
508	<b>Minimal/No Changes</b>	None so far.	5/10/2018 6:47 PM

515	<b>Access to Amenities</b>	Don't close in the roof.	5/10/2018 12:49 PM
516	<b>History/Architecture</b>	Would love seeing upgrades, but would hate to see open, natural layout lost	5/10/2018 11:26 AM
517	<b>Access to Amenities</b>	<b>Construction (duration)</b> Project taking too long and not being able to use the dressing rooms. I'd like to keep the open feel to the bathhouse.	5/10/2018 11:02 AM
518	<b>Construction (duration)</b>	contractors not doing a good & thorough job	5/10/2018 10:56 AM
519	<b>parking/traffic</b>	I would like to see an accessible bathroom open during all park hours.	5/10/2018 10:43 AM
520	<b>Costly</b>	Cost to Austin tax payers	5/10/2018 10:30 AM
521	<b>Access to Amenities</b>	That they will enclose it.	5/10/2018 9:15 AM
522	<b>Access to Amenities</b>	Keeping it working without too much modernization Keeping expenses down	5/10/2018 9:11 AM
523	<b>Access to Amenities</b>	It would shut down the bathrooms to the public for an extended period.	5/10/2018 9:02 AM
524	<b>Construction (duration)</b>	Lack of access during construction Loss of unique character Potential corporate sponsorship	5/10/2018 6:58 AM
525	<b>History/Architecture</b>	They they will not preserve the bathhouse.	5/10/2018 6:46 AM
526		That you'll ruin Barton Springs and make things worse.	5/10/2018 3:27 AM
527	<b>Construction (duration)</b>	That the city won't listen to long time residents and just change the whole vibe of Barton Springs for the sake of newness, developers, and endless tourists.	5/9/2018 11:36 PM
528	<b>Access to Amenities</b>	Loss of the open air setting for women	5/9/2018 10:38 PM
529	<b>History/Architecture</b>	Don't mess up the vibe!	5/9/2018 10:37 PM
530	<b>History/Architecture</b>	That it will overly modernize the bathhouse and eliminate the current character	5/9/2018 10:31 PM
531	<b>New renovations</b>	The springs are being loved to death! It is already daunting to go there on a summer weekend. Don't know how, but we need some crowd control.	5/9/2018 10:15 PM
532	<b>Access to Amenities</b>	I want the space to retain its cool retro features but be a bathroom that I would want to use. I don't know how you create a nice pool bathroom but it would be great if it was clean, dry and functional	5/9/2018 10:00 PM
533	<b>History/Architecture</b>	I like the history and age of the bath houses, and I don't like waste. The state of the bathhouses seems fine and not in need of an upgrade.	5/9/2018 9:47 PM
534	<b>History/Architecture</b>	maintaining historical integrity yet being accessible to all.	5/9/2018 9:18 PM
535		To make it more accessible for people with reduced mobility	5/9/2018 8:57 PM
536	<b>Minimal/No Changes</b>	None.	5/9/2018 8:14 PM
537	<b>Access to Amenities</b>	that you'll add a roof	5/9/2018 7:30 PM
538	<b>History/Architecture</b>	Losing the community feel. Losing the natural simplicity.	5/9/2018 7:09 PM
539		Please don't spend a bunch of money making Austin into Dallas. Leave it alone. We love it. Austin is getting far too marketing-oriented, and it is killing what made Austin great. The cuteness and planning are driving away the interesting people. Give the money to artists and musicians who can no longer afford here somehow. Don't use it to turn Barton Springs into yet another in the trend of 'mixed-use' shopping mall-type look-alike buildings destroying our city's charm, soul, and accessibility.	5/9/2018 7:06 PM
540	<b>Minimal/No Changes</b>	None.	5/9/2018 6:51 PM
541	<b>Access to Amenities</b>	That you will do it during the summer. Why not start the work after the swimming season is over instead.	5/9/2018 6:04 PM
542	<b>History/Architecture</b>	Preserve historic materials or replace with identical new materials. Keep layout as in original.	5/9/2018 5:37 PM

## Barton Springs Bathhouse Rehabilitation

543	<b>History/Architecture</b> That more of the facility will have a roof overhead and it will not be as open. That the historical architecture will change.	5/9/2018 5:28 PM
544	<b>Access to Amenities</b> <b>Construction (duration)</b> That it might limit patrons' ability to enjoy their time at the pool (construction detritus, loud noises, dust, etc.)	5/9/2018 5:12 PM
545	<b>History/Architecture</b> worried it might undermine the somewhat wild feel of the current dressing rooms, which are charming in how simple they are.	5/9/2018 4:33 PM
546	<b>Environment</b> <b>History/Architecture</b> That we will lose the traditional feel of the bathhouse. That the plants might be removed.	5/9/2018 4:24 PM
547	<b>Access to Amenities</b> Lack of privacy, too much noise and activity	5/9/2018 4:12 PM
548	any sort of enclosing of the locker/change area	5/9/2018 3:54 PM
549	<b>Minimal/No Changes</b> N/A	5/9/2018 3:13 PM
550	<b>New renovations</b> Design will make it more enclosed Love the plants!	5/9/2018 3:04 PM
551	<b>Minimal/No Changes</b> Can't think of any	5/9/2018 2:47 PM
552	What will we lose?	5/9/2018 1:48 PM
553	<b>parking/traffic</b> that it's not improving traffic in Austin in general	5/9/2018 1:10 PM
554	<b>Access to Amenities</b> <b>History/Architecture</b> That the style will change. The bathhouse as a very mid-century feel and functions so well. Simple and beautiful as it blends in with nature.	5/9/2018 1:08 PM
555	<b>Construction (duration)</b> The changing area being closed for a long time	5/9/2018 12:54 PM
556	<b>History/Architecture</b> That it will lose its historical feel.	5/9/2018 12:48 PM
557	<b>History/Architecture</b> That it will destroy the historic appeal and nude bathing areas	5/9/2018 12:45 PM
558	<b>Construction (duration)</b> Possible closures. Can the work be done by partitioning off parts of the facility instead of complete closure?	5/9/2018 12:07 PM
559	<b>History/Architecture</b> That the Art Deco type design will be compromised. Need to stay true to the 40s design. Hope they will have attendants and not all automated. This is great for teens summer jobs with supervision to learn how to serve the public - lost art!	5/9/2018 12:01 PM
560	<b>History/Architecture</b> Would like the historical design respected, and would not want to lose the environmental education facility.	5/9/2018 12:00 PM
561	<b>History/Architecture</b> that it becomes a blah place	5/9/2018 11:59 AM
562	<b>History/Architecture</b> Destroying the charm	5/9/2018 11:30 AM
563	<b>Environment</b> Ecological impact, unavailable facilities during construction	5/9/2018 11:30 AM
564	<b>History/Architecture</b> That the building or character of the Springs would be diminished or demolished	5/9/2018 11:25 AM
565	<b>History/Architecture</b> That it would be too modern. That the roof would be closed in	5/9/2018 11:12 AM
566	<b>Construction (duration)</b> That it would drag on a long time, and disrupt the tranquility of the pool.	5/9/2018 10:56 AM
567	<b>Costly</b> Cost: that too much \$\$ will be spent on aesthetics and function will suffer or it'll cost more than is reasonable.	5/9/2018 10:33 AM
568	<b>parking/traffic</b> The word "first class" makes me and my friends nervous, and colors what might otherwise be a reasonable project. It's one thing to improve the Lady Bird Lake trail, for example, to increase access and improve functionality. For those of us who think the Barton Springs facilities have charm and are not at all deficient, I'm worried that this is a case where the whole community (and tourists) love Barton Springs, but it's somehow not good enough for new wealthy emigrants to Austin. For those of us who worry about Old Austin being erased, Barton Springs is the (or one of the) most valuable symbol of the City. It shouldn't feel like the Lamar pedestrian bridge, and it shouldn't feel like Highland ACC. If anything, it should feel like the Elisabet Ney House -- preserved and iconic -- and if any improvements are necessary, they should feel separate and unobtrusive. If this is a matter of failing infrastructure (plumbing that's bound to fail) or public safety, I'm fully on board. From the text at the top of this survey, things like "first class" and "critical" are vague and not specified, so I just don't know. I will say that the parking situation is insufficient, but as previously stated, improving it should be done with sensitivity - perhaps barely touching the immediately adjacent parking lot, rather providing more distant supplemental parking (even a shuttle bus from said parking, if needed).	5/9/2018 10:30 AM
569	<b>Costly</b> Upping price, or adding reservations would be bad	5/9/2018 9:48 AM
570	<b>Construction (duration)</b> I am concerned about the impact it will have on the availability of a place to change during construction.	5/9/2018 9:39 AM
571	<b>Access to Amenities</b> I'm chiefly concerned that the new bathhouses will be sterile, clinical, and not sustainable. This is an opportunity to reflect the values of Austin -- open, communal, natural, and environmentally conscious.	5/9/2018 9:30 AM
572	<b>Access to Amenities</b> That it might be used in a different direction	5/9/2018 9:28 AM
573	You remove what it is	5/9/2018 8:38 AM

## Barton Springs Bathhouse Rehabilitation

574	<b>History/Architecture</b> That they will ruin the original architectural highlights of the structure. Far too often, "improvements" destroy the beauty of the original structure. It would be nice if it was kept basically the same as it's always been, but with necessary updates. It really is perfect the way it is now.	5/9/2018 8:37 AM
575	<b>Construction (duration)</b> That it will begin and either won't finish or take a very long time to complete.	5/9/2018 8:35 AM
576	<b>Costly</b> Cost	5/9/2018 8:26 AM
577	<b>parking/traffic</b> access to the pool during construction. That money is spent wisely. That parking spaces are not lost in the end result.	5/9/2018 8:23 AM
578	<b>Construction (duration)</b> <b>Minimal/No Changes</b> I think the space needs improvements but I don't think they are necessarily in such bad shape that the bathhouse should be shut down for long periods of time.	5/9/2018 8:11 AM
579	<b>Construction (duration)</b> That it drag on forever and over-promise then under-deliver. Also -- it should not try to be all things to all people. Barton Springs can never accommodate everyone.	5/9/2018 8:08 AM
580	<b>Environment</b> Dont lose the grass inside	5/9/2018 8:07 AM
581	<b>Access to Amenities</b> The preservation of the welcoming, outdoorsy feeling of the interior of the bathhouse, the courtyard. The excessive institutionalization of a bathhouse renovated for handicapped and access requirements, and bureaucratic notions about sanitation would be a real shame. The existing bathhouse is nearly perfect in it's scale, light, and spirit of place.	5/9/2018 7:46 AM
582	<b>Minimal/No Changes</b> None	5/9/2018 7:43 AM
583	Adequate restroom/changing capacity during peaktimes	5/9/2018 7:33 AM
584	<b>History/Architecture</b> It will look ugly and disrupt the neighborhood	5/9/2018 7:17 AM
585	<b>New renovations</b> I think it's great to update it while retaining the character and spirit of the legacy.	5/9/2018 7:08 AM
586	<b>History/Architecture</b> Loss of authenticity, catering project to vocal neurotics, waste of taxpayer dollars	5/9/2018 7:07 AM
587	<b>History/Architecture</b> Keep it looking basically how it looks now, don't modernize it too much	5/9/2018 6:53 AM
588	<b>Access to Amenities</b> Disruption during construction.	5/9/2018 6:46 AM
589	<b>History/Architecture</b> It might look ugly	5/9/2018 6:23 AM
590	<b>Minimal/No Changes</b> None	5/9/2018 4:34 AM
591	<b>Environment</b> Care and consideration of the local ecology while construction is going on	5/9/2018 3:54 AM
592	<b>Access to Amenities</b> Please do this ASAP because there is only one shower that has adjustable warm water in the solar hot water shower is too hot and the other showers can be a little bit cool - after a swim in the spring I want nothing more than something to thaw me out a little bit	5/9/2018 1:14 AM
593	<b>History/Architecture</b> That the historic charm may be lost, and that trees may be damaged.	5/9/2018 1:00 AM
594	<b>Access to Amenities</b> closure of the pool	5/9/2018 12:45 AM
595	<b>History/Architecture</b> Taking away the historic feel.	5/9/2018 12:45 AM
596	<b>Access to Amenities</b> It might remove the character of the original bathhouse.	5/9/2018 12:38 AM
597	<b>Access to Amenities</b> That it will remove the open air components of the facility.	5/8/2018 11:50 PM
598	<b>History/Architecture</b> That it might lose that original feature and charm!	5/8/2018 11:47 PM
599	<b>History/Architecture</b> Want the historic charm to be preserved in the updates.	5/8/2018 11:29 PM

601	<b>Access to Amenities</b> That it will change the style of the bathhouse	5/8/2018 11:06 PM
602	<b>New renovations</b> Would love to see it restored similarly to Deep Eddy bath house.	5/8/2018 11:05 PM
603	<b>Construction (duration)</b> the long entry corridor to the womens is slippery and dark-- could open this up and make it brighter somehow	5/8/2018 10:51 PM
604	<b>Costly</b> Cost over run	5/8/2018 10:51 PM
605	<b>Maintenance</b> Want it easy to clean	5/8/2018 10:41 PM
606	<b>History/Architecture</b> Please don't turn it into a resort style bath house. Keep it simple.	5/8/2018 10:28 PM
607	<b>Access to Amenities</b> would hate to see it covered over with a roof	5/8/2018 10:02 PM
608	<b>History/Architecture</b> Don't kill the ambience.	5/8/2018 10:00 PM
609	<b>Access to Amenities</b> <b>Costly</b> Cost to taxpayers. Timing not to interfere with access to bathrooms when the summer season is open.	5/8/2018 9:58 PM

611	<b>Access to Amenities</b> That the bathrooms won't be enlarged and updated.	5/8/2018 9:32 PM

## Barton Springs Bathhouse Rehabilitation

612	I'm just glad somebody is going to do it.	5/8/2018 9:29 PM
613	<b>Costly</b> That it will be cheaply done.	5/8/2018 9:24 PM
614	<b>Environment</b> Don't get rid of the plants! Don't make it fancy!	5/8/2018 9:22 PM
615	<b>Minimal/No Changes</b> I would need to know more to have concerns	5/8/2018 9:20 PM
616	<b>Minimal/No Changes</b> None	5/8/2018 9:16 PM
617	<b>Costly</b> The amount of \$\$\$\$\$\$ spent needlessly. Just to make it "new" .... are we going to lose everything wonderful about Austin? Keep Austin Wierd	5/8/2018 9:09 PM
618	<b>Minimal/No Changes</b> It should not occur. No need for the cost or disruption. Leave the bathhouses as they are and just clean them!	5/8/2018 8:59 PM
619	<b>Minimal/No Changes</b> None	5/8/2018 8:53 PM
620	<b>Construction (duration)</b> Closure of facilities while using Barton Springs	5/8/2018 8:51 PM
621	<b>Construction (duration)</b> <b>History/Architecture</b> That it will change, be modernized, be closed for a long period of time.	5/8/2018 8:46 PM
622	<b>Access to Amenities</b> <b>Costly</b> Changing area/showers will be unavailable for a long time. Prices will increase.	5/8/2018 8:38 PM
623	I think it needs to be done, but hope it can be done during cooler months to lessen impacts to swimmers.	5/8/2018 8:32 PM
624	<b>Access to Amenities</b> The impact on ease of use of the facilities in general and pool. Changing the feel of the space is also a concern- I would like the heart of the bathhouse maintained as much as possible.	5/8/2018 8:30 PM
625	<b>parking/traffic</b> parking availability needs to be improved alot, parking costs \$5 for a 45 minute swim - this is too much! Please allow pay per hour with a more reasonable rate.	5/8/2018 8:15 PM
626	<b>History/Architecture</b> complete loss of vintage rare tiles and masonry. the best solution would retain some of this and blend it into modern updates	5/8/2018 8:10 PM
627	<b>New renovations</b> Please have separate LGBT changing rooms.	5/8/2018 8:05 PM
628	<b>History/Architecture</b> Scared they will scrape it and put in some godawful "midcentury" thing	5/8/2018 8:03 PM
629	<b>History/Architecture</b> It's going to lose its charm.	5/8/2018 7:56 PM
630	<b>Costly</b> Spending too much money for unnecessary upgrades	5/8/2018 7:54 PM
631	<b>Construction (duration)</b> How long it takes to do	5/8/2018 7:45 PM
632	interfere with using it	5/8/2018 7:44 PM
633	<b>parking/traffic</b> That full restoration of the changing areas will not occur. Thr city parks department has a disappointing track record of overspending and not fulfilling its plans and promises.	5/8/2018 7:43 PM
634	That the changing area will be more like a gym than a special mixture of building and nature	5/8/2018 7:21 PM
635	<b>Costly</b> cost	5/8/2018 7:18 PM
636	<b>Access to Amenities</b> That the public restrooms might be ignored while working on the changing rooms, etc. related to swimming.	5/8/2018 7:16 PM
637	<b>History/Architecture</b> That is will not fit with the style of the existing architecture.	5/8/2018 7:14 PM
638	<b>History/Architecture</b> not sure what it entails, losing the charm of BHSBH	5/8/2018 7:12 PM
639	<b>Costly</b> That it will be too expensive	5/8/2018 7:11 PM
640	<b>History/Architecture</b> Destroying the unique outside Austin feel to it.	5/8/2018 7:07 PM
641	<b>Minimal/No Changes</b> Would want the "feel" of the bathhouse to remain the same. Mostly open air lots of plants	5/8/2018 7:03 PM
642	<b>Access to Amenities</b> <b>History/Architecture</b> I love the historic feel and worry that a new bathhouse could lose the character	5/8/2018 6:54 PM
643	<b>History/Architecture</b> Not keeping the history and integrity of the original in mind	5/8/2018 6:51 PM
644	<b>parking/traffic</b> Dont add too much parking it will take away from the outdoor experience.	5/8/2018 6:49 PM
645	<b>Access to Amenities</b> <b>Construction (duration)</b> How long it might take. Changed to the already awesomeness that is the bathhouse.	5/8/2018 6:45 PM
646	<b>Costly</b> Way too much old time sentiments that will drag this out and waste money.	5/8/2018 6:45 PM
647	<b>History/Architecture</b> I like the educational walk-through about the aquifer. With so many new people here it is important for all Austinites to learn how an aquifer works and how to protect it. Most newcomers are completely unaware - even those who live on top of it!	5/8/2018 6:41 PM
648	<b>History/Architecture</b> Too much modernization of an unique Austin destination	5/8/2018 6:38 PM

## Barton Springs Bathhouse Rehabilitation

649	As any city/state/ect....like funded project it will be red taped to death, way over priced as result and the actual work done will pale in comparison to the price paid for it. Also no access while the work is being done because nothing says we planned like conducting the renovation in peak season. Although some avid late fall early winter swimmers may not agree the point is do not do this from March through October.	5/8/2018 6:38 PM
650	<b>Costly</b> That you go so over the top that you squeeze out the middle class. That you raise prices to over the cost and that the families of Austin can not afford to go to Barton Springs. You remove the free swim time	5/8/2018 6:35 PM
651	<b>Minimal/No Changes</b> None	5/8/2018 6:21 PM
652	<b>parking/traffic</b> Parking is terrible	5/8/2018 6:20 PM
653	That the hot loads and glory holes will be eliminated.	5/8/2018 6:19 PM
654	<b>History/Architecture</b> Concerned some of the original structure and materials will be replaced	5/8/2018 6:17 PM
655	<b>History/Architecture</b> too big and fancy taking away from the historical look and feel of the Springs.	5/8/2018 6:17 PM
656	<b>Access to Amenities</b> I don't think the bathhouse needs to be rehabilitated. It is beautiful, and functional. If anything, the tile in the showers could be replaced.	5/8/2018 6:16 PM
657	<b>Minimal/No Changes</b> None so far.	5/8/2018 6:07 PM
658	<b>Access to Amenities</b> not being able to access the changing rooms and the hot showers	5/8/2018 6:07 PM
659	<b>Minimal/No Changes</b> None	5/8/2018 6:05 PM
660	<b>Minimal/No Changes</b> I don't think I want to see any aesthetic changes, but I understand if plumbing/framing/etc requires updating.	5/8/2018 6:00 PM
661	<b>History/Architecture</b> preserving the historic look of the place	5/8/2018 5:56 PM
662	<b>Access to Amenities</b> <b>History/Architecture</b> That the feeling of the bathhouse would change and lose its charm and character	5/8/2018 5:53 PM
663	<b>Construction (duration)</b> That there would be a half asses job restoring it.	5/8/2018 5:45 PM
664	<b>Minimal/No Changes</b> none	5/8/2018 5:45 PM
665	<b>Access to Amenities</b> that the overall feel of the bathhouse and environs will change. It's unique in its style the way it is	5/8/2018 5:38 PM
666	<b>Access to Amenities</b> I like that the dressing rooms have a more historic Austin approach to privacy etc, and don't want to see the open nature of the gender-specific private spaces changed.	5/8/2018 5:36 PM
667	<b>History/Architecture</b> Its not that historic a building and I think you might be failing to upgrade it as much as you could due to concerns about preservation. I've used it all my life and while it is a nice functional changing room/bathroom, it could be so much more. How about some steam rooms, hot tubs and massage treatment areas? Make it a real spa like they have in Hot Springs!	5/8/2018 5:33 PM
668	Main thing is to increase lighting, particularly in the morning. Secondly, it would be nice to put a central locker system away from the change rooms. That is, put a locker system by the guard house. I have had my locker broken into before and the reason is because it is isolated. After one changes one could put their stuff in a locker, but if it is out in the open, someone is less likely to break into it.	5/8/2018 5:08 PM
669	<b>Construction (duration)</b> Closing facilities for too long	5/8/2018 5:03 PM
670	<b>parking/traffic</b> I do not want to destroy the timeless feeling of the WPA works project.....I do not want to get rid of parking. Updates are fine but IT IS ALSO my neighborhood pool and the soul of AUSTIN.	5/8/2018 4:57 PM
671	<b>Minimal/No Changes</b> It looks kind of cool how it is. Remodels are often cheaply done these days	5/8/2018 4:53 PM
672	<b>Access to Amenities</b> Disruption of the pool, disrespect of the era it was built	5/8/2018 4:45 PM
673	<b>Access to Amenities</b> That there won't be a temporary bath house for people to use	5/8/2018 4:44 PM
674	<b>Access to Amenities</b> That you will take away the openness. The renovation of Deep Eddy showers is a good renovation because you not only have open-air showers but also an open-air wheelchair accessible shower. Barton Springs does not currently have that. My wheelchair-using friend never uses the wheelchair shower at Barton Springs. She brings a thermos of water, sits on one of the back benches, and "showers" with her thermos water. The wheelchair shower at Deep Eddy is perfect.	5/8/2018 4:42 PM
675	<b>Costly</b> Over spending and time management	5/8/2018 4:42 PM
676	<b>Construction (duration)</b> that it makes it too enclosed	5/8/2018 4:34 PM
677	<b>History/Architecture</b> That it is not going to look like it fits with the landscape.	5/8/2018 4:31 PM
678	<b>New renovations</b> in a perfect world, your retrofit / modernize the existing structure. maybe add heat to the changing/shower area.	5/8/2018 4:29 PM
679	<b>History/Architecture</b> Taking Barton Springs away from it's natural beauty.	5/8/2018 4:29 PM
680	<b>Maintenance</b> Make it too "nice"... aka sterile.	5/8/2018 4:25 PM

## Barton Springs Bathhouse Rehabilitation

681	<b>History/Architecture</b>	Cheap renovation that takes away from the quality and history of the structure	5/8/2018 4:25 PM
682	<b>Construction (duration)</b>	The construction and how it will effect the traffic at the pool	5/8/2018 4:22 PM
683	<b>History/Architecture</b>	That it will take away from the retro feel and allowed more crowding	5/8/2018 4:18 PM
684	<b>Access to Amenities</b>	It's not clear what work is being done in preperation to take this survey. Survey is vague. It hasn't been an issue when I've used it, but I imagine planning to prevent vandalism or camping at bathroom should be considered.	5/8/2018 4:15 PM
685	<b>Costly</b>	will it cost a lot to refurbish?	5/8/2018 4:14 PM
686	<b>parking/traffic</b>	I'm concerned that green spaces and trees might be taken down to increase parking and I do not want that to happen.	5/8/2018 4:12 PM
687	<b>Maintenance</b>	Please update the restrooms, there is never any soap at the sinks and the toilet stalls are so tiny and if you are over 5 feet tall, you can see the women in the stalls next to you, it is very discomfiting.	5/8/2018 4:10 PM
688	<b>Costly</b>	Cost	5/8/2018 4:07 PM
689	<b>Access to Amenities</b>	Lack of access to facilities during project.	5/8/2018 4:01 PM
690	<b>Maintenance</b>	The plumbing and sewer situation needs the most help.	5/8/2018 4:01 PM
691	<b>History/Architecture</b>	I would hate to see the building lose its Moderne character in favor of some glitzy new design scheme. I'm generally concerned by over-development along Barton Springs Road, and would hate for this to fall victim to the bigger/shinier/fancier approach.	5/8/2018 3:59 PM
692	<b>Construction (duration)</b>	How long it will take given how long the recent salamander habitat project took. Given the construction required it will also detract from Barton Springs as an escape from busy city life.	5/8/2018 3:58 PM
693	<b>History/Architecture</b>	Making it too modern.	5/8/2018 3:57 PM
694		Installation of valet or VIP or electronics or anything that seeks to stratify access	5/8/2018 3:54 PM
695		This is exactly the kind of thing that is making Austin into Dallas II. There is nothing wrong with the structure.	5/8/2018 3:52 PM
696		U no take glory hole	5/8/2018 3:51 PM
697	<b>Access to Amenities</b>	Being inaccessible during construction	5/8/2018 3:51 PM
698	<b>New renovations</b>	That the facilitators are safe spaces for non-binary people	5/8/2018 3:42 PM
699		Security of people and things, function will be sacrificed for design/technology upgrades	5/8/2018 3:38 PM
700	<b>Access to Amenities</b>	That the term bathhouse be used in the more traditional European sense, with the addition of more showers, steam and dry saunas	5/8/2018 3:35 PM
701	<b>Minimal/No Changes</b>	None	5/8/2018 3:33 PM
702	<b>History/Architecture</b>	I want it to stay Retro-style	5/8/2018 3:32 PM
703		that it'll take forever	5/8/2018 3:29 PM
704		It seems fine just as it is.	5/8/2018 3:24 PM
705	<b>Minimal/No Changes</b>	None	5/8/2018 3:22 PM
706	<b>History/Architecture</b>	preserving the changing rooms	5/8/2018 3:13 PM
707	<b>History/Architecture</b>	Trying to redesign the look and appeal, atmosphere, and original ambiance to a current look or architectural trend!	5/8/2018 3:13 PM
708	<b>Access to Amenities</b>	<b>Environment</b> you will enclose the bathhouse and take out the palm trees	5/8/2018 3:12 PM
709	<b>Minimal/No Changes</b>	That it becomes too spa like with none of the original character. I like that it is open air. I like the funky shared showers. I like that some of the showers are cool and the others warm. I would like some new lockers and I would like to see some of the changing rooms in the back with a few simple doors like saloon doors so people do not change in the bathrooms. I would like better signage both in English, Spanish and in photos to let people know where the bathrooms are, where the changing areas are and where the showers are. Many of the people come to Barton's for the first time.	5/8/2018 3:12 PM
710	<b>History/Architecture</b>	Keeping a piece of the architectural history	5/8/2018 3:07 PM
711	<b>Costly</b>	that costs balloon	5/8/2018 3:06 PM
712		the amount of time involved to complete this project	5/8/2018 3:04 PM
713		Keep it as close to the original as possible, please don't make it too "new Austin"	5/8/2018 3:01 PM
714	<b>History/Architecture</b>	I would hate to lose the feel of the place, the airiness and the historic fee.	5/8/2018 2:57 PM
715	<b>parking/traffic</b>	Please don't do this "I am remaking Austin into an image of the city (in California) I used to live in." Or please don't do this: "I am remaking Austin into a 'hipster-defined' imaginary Disney-like theme park that no longer has any of the homegrown grassroots authentic charm that made Austin wonderful in the first place."	5/8/2018 2:55 PM

## Barton Springs Bathhouse Rehabilitation

716	That it may happen during the summer when it's the busiest	5/8/2018 2:52 PM
717	Loss of great green grass and outdoor space.	5/8/2018 2:51 PM
718	<b>History/Architecture</b> Lost character	5/8/2018 2:51 PM
719	<b>History/Architecture</b> that the architects won't respect the history while also making the floors cleaner and safer and increasing handicapped access.	5/8/2018 2:48 PM
720	<b>Costly</b> That the project will raise property taxes even more.	5/8/2018 2:48 PM
721	<b>Construction (duration)</b> It takes too long	5/8/2018 2:44 PM
722	Becomes to enclosed, and small	5/8/2018 2:42 PM
723	Spoiling natural features	5/8/2018 2:41 PM
724	<b>Access to Amenities</b> Keeping the "look" of the bathhouse as original as possible. Bathroom and trail access during the project	5/8/2018 2:40 PM
725	<b>History/Architecture</b> doing away with any or all of the old structure	5/8/2018 2:39 PM
726	<b>History/Architecture</b> It will ruin the architectural integrity of an excellent example of TX Art Deco public architecture	5/8/2018 2:38 PM
727	<b>Access to Amenities</b> That it takes away the specialness of the open air boathouse.	5/8/2018 2:37 PM
728	<b>Costly</b> Going way over budget and schedule. Anything the city touches is a disaster.	5/8/2018 2:37 PM
729	<b>Minimal/No Changes</b> None	5/8/2018 2:34 PM
730	<b>Access to Amenities</b> Will the pool and hillside theatre be disrupted during construction?	5/8/2018 2:33 PM
731	<b>Access to Amenities</b> Pool Closure	5/8/2018 2:27 PM
732	<b>History/Architecture</b> We are losing the charm that held us together at a town.	5/8/2018 2:27 PM
733	<b>History/Architecture</b> modernizing facility could remove the charm and historical significance of the Springs	5/8/2018 2:26 PM
734	<b>History/Architecture</b> Losing the historic ambiance of this treasure. We've lost too much Austin already.	5/8/2018 2:26 PM
735	<b>History/Architecture</b> That it will not preserve the historic elements and wonderful structure that makes for a relaxing experience. Please dont make it fancy, sterile, and unwelcoming.	5/8/2018 2:20 PM
736	<b>History/Architecture</b> Losing the charm	5/8/2018 2:19 PM
737	<b>History/Architecture</b> Keeping the character of the facility	5/8/2018 2:19 PM
738	<b>Costly</b> cost	5/8/2018 2:15 PM
739	<b>History/Architecture</b> That it will end up bland and modern like any changing area in any gym	5/8/2018 2:15 PM
740	<b>Environment</b> <b>History/Architecture</b> Pollution and damage to the springs. Losing the historic limestone look and feel. Gaining access to restrooms in non pool hours. Maintaining as much green space as possible.	5/8/2018 2:13 PM
741	<b>Minimal/No Changes</b> None	5/8/2018 2:12 PM
742	<b>Minimal/No Changes</b> None, good idea to renovate	5/8/2018 2:12 PM
743	<b>History/Architecture</b> That it doesn't retain the historic charm.	5/8/2018 2:06 PM
744	that the city will "update" it to look like everything else	5/8/2018 2:06 PM
745	<b>History/Architecture</b> Redoing it all and making it too modern	5/8/2018 2:06 PM
746	<b>History/Architecture</b> Any work in this area worries me because it's old and structural failure could harm the pool/Springs	5/8/2018 2:04 PM
747	overdevelopment; quality of improvements	5/8/2018 2:03 PM
748	<b>Access to Amenities</b> losing the character of the bathhouse	5/8/2018 2:00 PM
749	<b>Access to Amenities</b> <b>Costly</b> My concern is that it's a waste of money. The men's bathhouse area is great, why remodel it? Fixing a few toilets or improving plumbing would be fine, but I don't think it's worth remodeling it. I can't imagine a remodel worth the money. It's great just as it is. The entrance to the pool including the pay area is a disaster. I've seen lines that take 40 minutes to get in, while lifeguards stand around seemingly doing nothing. One person sits in the booth slowly collecting money while 100 people stand in line. I think the best improvement would be to add some capacity to the pay booth. Thanks!	5/8/2018 1:58 PM
750	<b>Costly</b> <b>Minimal/No Changes</b> None unless it gets way out of budget. My largest concern is that you go to an outside contractor and loose control of the budget. Please keep it inside city services but consider volunteers. Im sure 30 men out there can step in and get a lot done. Im one of them.	5/8/2018 1:58 PM
751	<b>History/Architecture</b> That it is going to not feel authentic anymore and be too state of the art and sterile feeling.	5/8/2018 1:58 PM

## Barton Springs Bathhouse Rehabilitation

752	<b>History/Architecture</b>	That it will be and look to modern. Thus not fitting in with the existing look and history of the Springs.	5/8/2018 1:58 PM
753	<b>Costly</b>	how much will it cost the taxpayers?	5/8/2018 1:55 PM
754	<b>History/Architecture</b>	Keeping the integrity of Barton springs	5/8/2018 1:55 PM
755	<b>History/Architecture</b>	Loss of history.	5/8/2018 1:49 PM
756	<b>History/Architecture</b>	That it would become modern or trendy	5/8/2018 1:49 PM
757	<b>Access to Amenities</b>	Bathrooms are the biggest priority and need to be cleaner / more functional and accessible. Aesthetically and functionally, would be great for the design to celebrate both historic and contemporary elements to acknowledge both the past and future.	5/8/2018 1:45 PM
758	<b>History/Architecture</b>	That it will lose the retro feel and look that defines Barton Springs	5/8/2018 1:44 PM
759	<b>Minimal/No Changes</b>	would not like to see major changes to the arrangement of the bathhouse	5/8/2018 1:44 PM
760	<b>parking/traffic</b>	I'm worried that these changes will reduce much-needed parking spaces	5/8/2018 1:35 PM
761	<b>History/Architecture</b>	I am concerned about preserving the integrity of the feel of the existing bath house. It feels like Austin to me.	5/8/2018 1:30 PM
762	<b>History/Architecture</b>	You'll lose the charm and historic flair by making it too modern.	5/8/2018 1:29 PM
763	<b>Costly</b>	It will cost a ton of money.	5/8/2018 1:28 PM
764	<b>Access to Amenities</b>	disruption to the pool usage during construction, messing up the exterior facade	5/8/2018 1:28 PM
765	<b>Maintenance</b>	That the experience will be sanitized, victim to the present climate of prudishness.	5/8/2018 1:27 PM
766	<b>Costly</b> <b>History/Architecture</b>	Might lose character. Stuffy in summer (if indoors). Add cost to visiting the springs.	5/8/2018 1:24 PM
767	<b>Access to Amenities</b>	If it will interrupt access to Barton Springs for swimmers	5/8/2018 1:20 PM
768	<b>Access to Amenities</b>	Inability to use the pool	5/8/2018 1:19 PM
769	<b>Access to Amenities</b>	Barton Springs is such a unique and special place. I would hate for the bathhouse to be revamped into something entirely new and indistinguishable from any other generic pool bathroom.	5/8/2018 1:18 PM
770	<b>History/Architecture</b>	The aspect of this space that might not be apparent to a casual visitor is that it has a history of being a shared space for women and young children - women sunbathing nude, others caring for their children. Girls and women feeling free and safe.	5/8/2018 1:16 PM
771	<b>History/Architecture</b>	Concerned the remodel will look too modern. Please choose details and tiles that are true to the era in which the house was built. Try to reuse where possible.	5/8/2018 1:14 PM
772	<b>Costly</b>	Expensive, disruptive, and unnecessary.	5/8/2018 1:10 PM
773	<b>Minimal/No Changes</b>	not really	5/8/2018 1:09 PM
774	<b>History/Architecture</b>	I hope that open-to-the-sky area remains! It feels like a special secret garden that is essential to the Austin experience.	5/8/2018 1:09 PM
775	<b>Access to Amenities</b>	That they put a roof on it. I like tha it's open air. It adds to the coolness factor in many ways.	5/8/2018 1:07 PM
776	<b>History/Architecture</b>	Some of the historical features will be destroyed.	5/8/2018 1:07 PM
777	<b>Access to Amenities</b>	That the original classic bathhouse and turn it into yet another douchy post-modern structure from L.A. We have enough of that already. Let Austin be Austin.	5/8/2018 1:06 PM
778	<b>Maintenance</b>	Pollution of the springs, prolonged closure of the springs, significant alteration to the existing structure	5/8/2018 1:04 PM
779	<b>Access to Amenities</b> <b>History/Architecture</b>	I'm concerned it might be redesigned to be too modern and sleek. I like how natural and classic the bathhouse feels.	5/8/2018 1:01 PM
780	<b>History/Architecture</b>	That it will change this character of this wonderful place. The words "first class facility" make me very uncomfortable. I feel comfortable with it as it is, but I may not after the renovation.	5/8/2018 12:59 PM
781	<b>Access to Amenities</b>	Please don't ruin this place, especially the shower courtyard! New materials definitely not always better. They do not withstand in quality or style. So preserve what you can and if accessibility is an issue (like the bathrooms) build alternatives that compliment the historic aspects. The women's toilet stalls definitely need work, they are VERY small, especially since the doors swing inward. But I do hope you can improve them without sacrificing the showers and courtyard.	5/8/2018 12:58 PM
782	<b>Minimal/No Changes</b>	none	5/8/2018 12:55 PM
783	<b>History/Architecture</b>	Losing the old school feel	5/8/2018 12:52 PM
784	<b>Access to Amenities</b> <b>Construction (duration)</b>	The length of time it may close the bathhouse	5/8/2018 12:48 PM
785	<b>Access to Amenities</b>	Keeping the space open	5/8/2018 12:47 PM

## Barton Springs Bathhouse Rehabilitation

786	History/Architecture	preserving the historical side while maintaining modern amenities	5/8/2018 12:45 PM
787	New renovations	wheelchair accessibility	5/8/2018 12:43 PM
788	Access to Amenities	Accessibility	5/8/2018 12:42 PM
789	History/Architecture	Looking to modern/suburban/California	5/8/2018 12:39 PM
790	Access to Amenities	Don't alter the open air quality please.	5/8/2018 12:38 PM
791	Costly History/Architecture	Spending money on unnecessary improvements, losing the old school feel, taking the bathhouse out of commission	5/8/2018 12:38 PM
792	History/Architecture	That the Historic and natural beauty and atmosphere will be killed.	5/8/2018 12:31 PM
793	History/Architecture	Preserve the old style.	5/8/2018 12:29 PM
794	History/Architecture	Losing the feel, and the integration into nature.	5/8/2018 12:29 PM
795	Construction (duration)	Incompetence and time it takes to finish	5/8/2018 12:27 PM
796		That once again the city will fritter away the money on a substandard job, or waste it on unnecessary items. Or, do more harm than good.	5/8/2018 12:26 PM
797	Access to Amenities	Lack of privacy	5/8/2018 12:25 PM
798	Access to Amenities	I wish we had a bathroom on the other side of the Springs as well; it's a long walk from the hill to the potty!	5/8/2018 12:24 PM
799	Access to Amenities	No enough showers	5/8/2018 12:24 PM
800	Construction (duration)	Not knowing when it starts and ends Not knowing what is being done	5/8/2018 12:22 PM
801	History/Architecture	That the character of the facilities would change too much.	5/8/2018 12:21 PM
802	History/Architecture	That we will lose the classic style and history	5/8/2018 12:21 PM
803	Construction (duration)	it will take too long...the place is a mess and way under utilized.	5/8/2018 12:19 PM
804	parking/traffic	parking is a major issue	5/8/2018 12:19 PM
805	Access to Amenities	Any closure of use of pool or that front entrance.	5/8/2018 12:18 PM
806	Environment	Environmental and aesthetic appropriateness.	5/8/2018 12:15 PM
807	History/Architecture	Keeping the historical integrity. It should still have same character as before. I love how you feel like you're walking into the past.	5/8/2018 12:15 PM
808	History/Architecture	Ruining historic ambience	5/8/2018 12:12 PM
809	Access to Amenities	Privacy	5/8/2018 12:10 PM
810	Construction (duration)	VERY concerned that this project will close in the spaces more and they will be dirtier, more damp, and moldier, like every other pool changing area. Most are so gross I won't even use them.	5/8/2018 12:09 PM
811	History/Architecture	Ugh. I don't want a "first class" fancy bath house any more than I want them to chlorine the pool. If we make it nice it will attract a different and larger crowd and change the whole unpretentious vibe it has. If it's not good enough for some people, they can go elsewhere.	5/8/2018 12:06 PM
812	Costly	to make it too spa like, expense	5/8/2018 12:05 PM
813	Construction (duration)	That it ends up being closed off from nature	5/8/2018 12:05 PM
814	Access to Amenities	Don't add a roof	5/8/2018 12:04 PM
815	History/Architecture	That it might change the above features and spoil the simple design of the original architects.	5/8/2018 12:02 PM
816	Access to Amenities	availability of space to change during construction	5/8/2018 12:02 PM
817	History/Architecture	That it will lose it's charm	5/8/2018 12:01 PM
818	History/Architecture	CHANGING THE HISTORIC AND KITCHY QUALITY	5/8/2018 12:01 PM
819	Costly	cost and cost to maintain/clean facilities	5/8/2018 12:00 PM
820	Access to Amenities	Use Deep Eddy bathhouse remodel as template	5/8/2018 12:00 PM
821	Access to Amenities	Decrease access	5/8/2018 11:57 AM
822	Access to Amenities	I would like there to be more privacy and cleaner toilets	5/8/2018 11:55 AM
823	Construction (duration)	How long is the project going to take? Will it disrupt or block access to Barton Springs?	5/8/2018 11:54 AM
824		Not having a space for kids to meet removing the exhibit space.	5/8/2018 11:52 AM
825	New renovations	Enough restrooms for the days that are extra crowded.	5/8/2018 11:52 AM
826	Construction (duration)	closure of the Springs for reno over modernization of original classic build	5/8/2018 11:52 AM
827	Construction (duration)	Downtime	5/8/2018 11:52 AM

## Barton Springs Bathhouse Rehabilitation

828	<b>Access to Amenities</b>	That the bathhouse will be substantially modified.	5/8/2018 11:51 AM
829	<b>History/Architecture</b>	Preserve the essence / spirit of the place, but don't get bogged down in preserving unimportant details. Make sure that there are gender neutral areas.	5/8/2018 11:51 AM
830	<b>Minimal/No Changes</b>	general dislike of change.	5/8/2018 11:51 AM
831	<b>Access to Amenities</b> <b>History/Architecture</b>	Losing the old stonework. Making it too bathroom-like, although an upgrade to the bathrooms would be so very welcome!	5/8/2018 11:50 AM
832	<b>Access to Amenities</b>	That the changing room will become an indoor, enclosed space. The current out-door but private, green shady changing room is just... fantastic. It's the #1 best part, most fun part of the structure! Also, please see if there is a way of doing it without having the thing complete closed for more than half a year. (Viz of the 30 years I've lived here, the Shoal Creek-Town-Lake trail has been closed for 25 of them. Please stop doing things like that)	5/8/2018 11:49 AM
833	<b>Minimal/No Changes</b>	Changing it too much..the bath house is still so beautiful	5/8/2018 11:49 AM
834	<b>Maintenance</b>	Sustainability	5/8/2018 11:47 AM
835	<b>parking/traffic</b>	that the update will take away from the natural beauty of the area and parking will be given top priority	5/8/2018 11:46 AM
836	<b>Construction (duration)</b>	Amount of time it will take	5/8/2018 11:44 AM
837	<b>History/Architecture</b>	Want to continue to educate on the history of Barton Springs. Don't want to over develop and over build. Want to maintain the bath house feel.	5/8/2018 11:42 AM
838	<b>Access to Amenities</b>	Need family bathrooms - I have a son with I/DD & autism & sometimes I have to take him to the ladies bathroom	5/8/2018 11:42 AM
839	<b>Access to Amenities</b>	I'm concerned the project will create a bathhouse that interferes with the natural beauty of the area.	5/8/2018 11:42 AM
840		Not big enough	5/8/2018 11:42 AM
841	<b>History/Architecture</b>	Please restore it to its original state - it has gotten too jumbled	5/8/2018 11:42 AM
842		The City continuing to waste money on inner city projects and neglect ongoing issues with other areas such as drainage problems that result in the flooding of tax paying citizens house. The taxes that go to fix a bathhouse instead of important infrastructure issues!	5/8/2018 11:40 AM
843	<b>History/Architecture</b>	That it ends up looking too modernized, industrialized. Or that the grass on the inside would be removed or that it would be capped with a roof. That would be heartbreaking.	5/8/2018 11:39 AM
844	<b>History/Architecture</b>	too modern, losing charme	5/8/2018 11:39 AM
845	<b>Access to Amenities</b>	That it will disrupt my favorite daily ritual.	5/8/2018 11:39 AM
846	<b>Environment</b>	I'm afraid it will look contemporary, sleek, cold, and put a barrier between me and the natural environment there. I love that the space is shared with birds, bugs, and plants, and I'd hate for that to change. I'm also concerned that any trees be hurt, or that the project will take a very long time to complete.	5/8/2018 11:38 AM
847	<b>History/Architecture</b>	That the architecture may be changed to fit/suit contemporary tastes (different color scheme, brick/tile design more streamlined and structural rearrangement to fit social mores concerning privacy)	5/8/2018 11:38 AM
848	<b>Access to Amenities</b>	I hope there is a male and female changing / bathroom areas.	5/8/2018 11:36 AM
849	<b>History/Architecture</b>	That the original footprint and integrity of the design will be destroyed.	5/8/2018 11:36 AM
850	<b>Construction (duration)</b>	Length of closure (although a winter closure wouldn't matter)	5/8/2018 11:33 AM
851	<b>Costly</b>	Ridiculous price for any updating. My taxes are high enough. Low income person	5/8/2018 11:33 AM
852	<b>Access to Amenities</b>	roofed area	5/8/2018 11:30 AM
853	<b>History/Architecture</b>	The loss of the traditional feel.	5/8/2018 11:29 AM
854	<b>History/Architecture</b>	Destroying or altering the historical structure.	5/8/2018 11:29 AM
855	<b>History/Architecture</b>	it will be very different than the current bath house	5/8/2018 11:26 AM
856		Continue	5/8/2018 11:26 AM
857	<b>Minimal/No Changes</b>	None	5/8/2018 11:25 AM
858	<b>History/Architecture</b>	Loosing the historical feel	5/8/2018 11:25 AM
859	<b>Access to Amenities</b> <b>Environment</b>	That it will modernize the bathhouse too much and destroy the peaceful historic environment	5/8/2018 11:24 AM
860	<b>History/Architecture</b>	I don't want it to lose it's charm.	5/8/2018 11:24 AM
861	<b>Costly</b>	Costs	5/8/2018 11:24 AM
862	<b>Construction (duration)</b> <b>Costly</b>	My concern is the time it takes as well us budget. I understand plumbing may need to be upgraded but the facilities can still stay simple inside.	5/8/2018 11:23 AM

## Barton Springs Bathhouse Rehabilitation

863	<b>Access to Amenities</b>	We want the bathrooms to remain open to the public and add changing rooms.	5/8/2018 11:23 AM
864	<b>New renovations</b>	Could you put a separate area for the women who are always there sun-bathing in the nude. Children go in with Mom and not a good sight..	5/8/2018 11:21 AM
865	<b>History/Architecture</b>	That the simple, original feel of Barton Springs will be list by the modernization. It's beauty is it's simplicity, and the openness and the feeling that people have been coming and using the same place for hundreds of years.	5/8/2018 11:20 AM
866	<b>Minimal/No Changes</b>	Possible change in the dressing room for more modern features.	5/8/2018 11:19 AM
867	<b>Construction (duration)</b>	Probably unavoidable, but the sound and visual ugliness during construction. I also worry it will take a long time.	5/8/2018 11:17 AM
868	<b>Access to Amenities</b>	Lack of access to restrooms and showers	5/8/2018 11:17 AM
869		Public facilities should be functional, easy to maintain and bare bones. Don't need another library fiasco.	5/8/2018 11:17 AM
870		overdesign	5/8/2018 11:15 AM
871	<b>Access to Amenities</b>	That you will remove the private sunbathing option.	5/8/2018 11:14 AM
872	<b>Access to Amenities</b>	I hope we don't lose that unique outdoorsy aspect to the bathroom/shower facility.	5/8/2018 11:14 AM
873	<b>History/Architecture</b>	It will be too "upscale" and will lose the Austin feel	5/8/2018 11:12 AM
874		That the space will be made more sterile, less inviting, is hate to see a roof put on	5/8/2018 11:12 AM
875	<b>History/Architecture</b>	That out will destroy our history	5/8/2018 11:12 AM
876	<b>Access to Amenities</b> <b>History/Architecture</b>	The bathhouse feels very historic and in alignment with the beautiful natural pool. I'm worried the rehab will modernize too much and remove the unique experience of this space. For instance, yes, update the bathrooms but don't get rid of the open air courtyard feel.	5/8/2018 11:11 AM
877	<b>Access to Amenities</b> <b>History/Architecture</b>	Please don't destroy the charm and character and simple vibe of the bathhouses. Parking lots and entrance, be my guest but the bathhouses are so unique. The open air layout is so magical. I am concerned y'all are going to make it "new and shiny" in tasteless way. Please stay way from stainless steel, chrome, plastic and use thought materials with whatever yall do. Preserve as much as possible!	5/8/2018 11:11 AM
878	<b>Access to Amenities</b>	Please keep the quaint feel and openness to the bathhouse. However, feel free to update the plumbing and improve the consistency of having hot water for showers.	5/8/2018 11:10 AM
879	<b>Access to Amenities</b>	Making the bathhouse accessible and ease of use for those with disabilities or parents with young children.	5/8/2018 11:10 AM
880	<b>Costly</b>	I have concerns that the changing area may be too cramped and not enough room.	5/8/2018 11:10 AM
881	<b>History/Architecture</b>	The loss of the natural space feel	5/8/2018 11:09 AM
882	<b>Access to Amenities</b>	That they put a roof up	5/8/2018 11:08 AM
883	<b>Access to Amenities</b>	Will bathhouse shut down completely for a while? Where will we change?	5/8/2018 11:08 AM
884	<b>Costly</b>	Cost	5/8/2018 11:08 AM
885	<b>Access to Amenities</b>	Do not close in with a roof! and keep/expand the grass!	5/8/2018 11:07 AM
886		Environmental integrity, best use of resources, best vision.	5/8/2018 11:07 AM
887	<b>History/Architecture</b>	Main concern is keeping the retro feel. I like the remodel at Deep Eddy as it still feels like a depression-area historic setting. Prefer Barton Springs historic feel (even if it is aging badly) than a state-of-the art facility that is sterile.	5/8/2018 11:07 AM
888	<b>Minimal/No Changes</b>	Very few. I would suggest adding some decent sized dressing room kiosks or such so that we can change and change our kids with some privacy.	5/8/2018 11:07 AM
889	<b>Access to Amenities</b>	That the bathhouse is redesigned to look like a gym locker room, with small changing areas and tight spaces.	5/8/2018 11:07 AM
890		inadequate funding	5/8/2018 11:06 AM
891	<b>Access to Amenities</b>	That it doesn't do enough to actually substantially improve the bathhouse.	5/8/2018 11:06 AM
892	<b>History/Architecture</b>	Changing the design.	5/8/2018 11:05 AM
893	<b>Access to Amenities</b>	That you'll not do it justice. That you'll compromise away the vision of restoring the original functionality. That the public bathrooms don't get upgraded. That you'll keep the makeshift structure in the ladies dressing room (added a few years ago)	5/8/2018 11:03 AM
894	<b>Access to Amenities</b>	Access during construction, loss of character	5/8/2018 11:03 AM
895	<b>Construction (duration)</b>	That there is so much effort put into this space when there are long-neglected party's of town still waiting for attention for very basic resources - like sidewalks, bike lanes, traffic calming.	5/8/2018 11:02 AM

## Barton Springs Bathhouse Rehabilitation

896	<b>History/Architecture</b>	It won't retain the beautiful sunlit inner courtyard.	5/8/2018 11:02 AM
897	<b>parking/traffic</b>	I think what would be really nice would be for the city to reduce reliance on porta potties for parks and for events. Can the bathrooms be accessible for ACL Fest and other events?	5/8/2018 11:02 AM
898	<b>Costly</b>	Additional tax impact	5/8/2018 11:02 AM
899	<b>Access to Amenities</b>	I must shower after my swim	5/8/2018 11:01 AM
900	<b>Construction (duration)</b>	More construction around the springs/lack of available parking during construction.	5/8/2018 11:01 AM
901	<b>Construction (duration)</b>	The duration and what will be available while the work is in progress	5/8/2018 11:01 AM
902	<b>Access to Amenities</b>	Any construction would make it harder to utilize parking or use the restroom during remodeling. Please do this during off peak season.	5/8/2018 11:01 AM
903	<b>History/Architecture</b>	That it is going to lose its historic character.	5/8/2018 11:01 AM
904	<b>parking/traffic</b>	Accessibility.Maintenance of the natural feel of the pool, public access and more than minimal ADA parking, handrails, etc for mobility impaired access.	5/8/2018 11:01 AM
905	<b>Access to Amenities</b>	that it would be more difficult to get to a restroom or remove the ability to change clothing in a spacious area	5/8/2018 11:00 AM
906	<b>Minimal/No Changes</b>	Don't know.	5/8/2018 10:59 AM
907	<b>Access to Amenities</b>	That the showers would be down and unavailable for those of us that swim in the morning before work.	5/8/2018 10:59 AM
908	<b>Access to Amenities</b>	Location. Having a bathroom available and nearby (especially for kiddos on the train or at the playground) is helpful.	5/8/2018 10:59 AM
909	<b>History/Architecture</b>	Just that it has the right look and feel. It should be forward looking yet also respectful to the historical aspects. Something like a Lake/Flato architecture...or the way the Lady Bird Johnson Wildflower center was done.	5/8/2018 10:59 AM
910	<b>History/Architecture</b>	Loss of the building character and charm.	5/8/2018 10:59 AM
911	<b>History/Architecture</b>	don't want the locker room/gardens to lose its historic feel	5/8/2018 10:59 AM
912	<b>Minimal/No Changes</b>	Not opposed to improvements, but should strive to keep the timeless, historical aspect of the facility; i.e., the personality	5/8/2018 10:58 AM
913	<b>Access to Amenities</b>	Plumbing issues in the bathroom area.	5/8/2018 10:57 AM
914	<b>Access to Amenities</b>	Congestion in parking, accommodations while under construction	5/8/2018 10:57 AM
915	<b>History/Architecture</b>	That it will become a generic facility and lose its character and the back to nature feel. I'm afraid that they'll put a roof on and remodel it so it doesn't look anything like it does now.,	5/8/2018 10:56 AM
916	<b>Access to Amenities</b>	Concerned updates / construction to the bathhouse could create an unwelcome environment for too long. Overall it is in great shape.	5/8/2018 10:56 AM
917	<b>Maintenance</b>	That it might not be funky anymore	5/8/2018 10:55 AM
918	<b>Costly</b>	Cost, making it too fancy	5/8/2018 10:55 AM
919	<b>Maintenance</b>	Try to make too fancy/ spend too much money. Want neat, clean, functional facility	5/8/2018 10:55 AM
920	<b>Construction (duration)</b>	Time it will be closed	5/8/2018 10:55 AM
921	<b>History/Architecture</b>	Over modernizing the aesthetic.	5/8/2018 10:54 AM
922	<b>Access to Amenities</b>	impact to facilities use during the construction	5/8/2018 10:53 AM
923	<b>Minimal/No Changes</b>	None	5/8/2018 10:53 AM
924	<b>parking/traffic</b>	having to pay for parking.	5/8/2018 10:53 AM
925	<b>Construction (duration)</b>	effect on ease of getting in and out; sanitary conditions; safety for women and children; lighting	5/8/2018 10:53 AM
926	<b>Access to Amenities</b> <b>New renovations</b>	I would want it to be beautiful, maintain the open air, and function really well- good plumbing and water pressure, plenty of hot water, private areas for changing clothes (hopefully without hanging plastic shower curtains that disintegrate and tear easily), good drainage so floors aren't covered with puddles of water. The space is a little awkward too, seems like it could be reconfigured to make better use	5/8/2018 10:53 AM
927	<b>History/Architecture</b>	You'll make it enclosed and it'll lose its outdoor rustic charm	5/8/2018 10:52 AM
928	<b>Costly</b>	Cost and not keeping it with "natural, outdoorsy" feel	5/8/2018 10:52 AM
929	<b>History/Architecture</b>	I love the charm of the bath house and would hate to see the overall design go too modern.	5/8/2018 10:52 AM
930		Why remodel? If there is something in disrepair, I can understand, but I don't see a need in a remodel.	5/8/2018 10:52 AM

## Barton Springs Bathhouse Rehabilitation

931	<b>Costly</b> Cost...waste of money (how much did you spend on reports & feasibility?) Someone should form a non-profit to raise the funds for the improvements. There are plenty of talented & qualified people in Austin that would love the opportunity to be involved in a project that will impact our community for years to come.	5/8/2018 10:51 AM
932	<b>History/Architecture</b> Losing original character of the building and layout	5/8/2018 10:50 AM
933	<b>History/Architecture</b> Lose the current architecture design.	5/8/2018 10:50 AM
934	<b>History/Architecture</b> Over modernizing and losing character	5/8/2018 10:50 AM
935	<b>Access to Amenities</b> 1. restricting bathroom/shower use in the morning 2. closing off the shower rooms	5/8/2018 10:50 AM
936	<b>Minimal/No Changes</b> None	5/8/2018 10:50 AM
937	<b>Costly</b> <b>Environment</b> Cost. Environmental impact on the springs.	5/8/2018 10:49 AM
938	<b>Minimal/No Changes</b> None.	5/8/2018 10:49 AM
939	Flood water bypass to reduce facility downtime	5/8/2018 10:49 AM
940	<b>Minimal/No Changes</b> dunno	5/8/2018 10:48 AM
941	<b>Minimal/No Changes</b> Shower access is preserved	5/8/2018 10:47 AM
942	<b>Minimal/No Changes</b> It will be a change and not an improvement	5/8/2018 10:47 AM
943	<b>Construction (duration)</b> There is always construction going on at Barton Spring pool. Just leave the place alone. Stop changing things!	5/8/2018 10:46 AM
944	<b>History/Architecture</b> Lose of older features	5/8/2018 10:46 AM
945	<b>Minimal/No Changes</b> I wouldn't want too much to change in the look/feel.	5/8/2018 10:46 AM
946	<b>Construction (duration)</b> No where to go to the bathroom while under construction	5/8/2018 10:45 AM
947	<b>Minimal/No Changes</b> No specific concerns.	5/8/2018 10:45 AM
948	<b>Maintenance</b> Pollution of the springs with debris. Access to the pool.	5/8/2018 10:44 AM
949	<b>History/Architecture</b> changing the historic nature of it	5/8/2018 10:44 AM
950	<b>Access to Amenities</b> I'm concerned the bathhouse would become sterile and less communal and natural with renovations.	5/8/2018 10:44 AM
951	<b>Access to Amenities</b> <b>History/Architecture</b> Hope it doesn't lose the original "vibe" of the bathhouse that I've enjoyed since I was a child.	5/8/2018 10:44 AM
952	<b>Maintenance</b> mosquitos are currently rampant - I am very concerned about mosquito born illnesses.	5/8/2018 10:43 AM
953	Overuse of the springs / population overload	5/8/2018 10:43 AM
954	<b>Construction (duration)</b> Limited access to Barton Springs pool during construction.	5/8/2018 10:43 AM
955	<b>Minimal/No Changes</b> None	5/8/2018 10:42 AM
956	<b>History/Architecture</b> losing the historical character	5/8/2018 10:41 AM
957	<b>Access to Amenities</b> <b>Environment</b> Destruction of the natural elements and openness.	5/8/2018 10:41 AM
958	That the entry to the pool will remain a congested "cattle shoot" that is not easily accessed by folks with mobility issues.	5/8/2018 10:41 AM
959	<b>Access to Amenities</b> <b>Costly</b> That it would raise my taxes in any way. And that it would shut down the bathhouse for a long period of time in warm weather months. I am VERY concerned that and enhanced bath area will attract the homeless as a place to hang out and bath. It is already an issue.	5/8/2018 10:40 AM
960	They seem to be going to be addressed in the proposals.	5/8/2018 10:40 AM
961	<b>Access to Amenities</b> I would hate for the project to destroy the feel of the bathhouse - it is so cool right now - just a bit dilapidated.	5/8/2018 10:39 AM
962	<b>Access to Amenities</b> That the bathhouse would be come closed in	5/8/2018 10:39 AM
963	<b>History/Architecture</b> Loss of historic architecture	5/8/2018 10:39 AM

1012	<b>Construction (duration)</b> <b>Costly</b> delay and costs increases. departures from the Feasibility Study recommendations by leaving the staff office in place since this would leave women's dressing area cramped and small. the original entrances need to be reopened, the rotunda area needs to be publicly accessible, and the Splash/Sheffield areas deserve a better location and setting with larger meeting, office, and programming areas.	5/8/2018 8:14 AM
1013	<b>Access to Amenities</b> I don't want the bathhouse to turn into a perfect Disneyworld. I still want it to keep its historical bones. It just needs some updating and maintenance.	5/3/2018 10:25 PM

1016	<b>Access to Amenities</b> I am concerned the bathhouse project can turn into yet another "Austin attraction" that will overwhelm the character and history of the springs. I would hope the project would focus on functionality for the existing users rather than try to create a huge attraction to outside visitors.	5/3/2018 5:29 PM
1017	<b>History/Architecture</b> I hope they will keep the historical feel of the bath house.	5/3/2018 3:12 PM
1018	<b>Access to Amenities</b> That you pay too much attention to parking. Public transportation or bicycles are the way to go. Please don't enclose the bathhouse.	5/3/2018 2:16 PM
1019	<b>History/Architecture</b> I'd love to see it maintain it's classic feel	5/3/2018 1:50 PM
1020	<b>Access to Amenities</b> <b>History/Architecture</b> what concerns me greatly is that in "updating" the facility that it will be one more version of disney-fying austin. that the character and openness of the bathhouse will be taken away. I can not count the number of times over the years that I have watched folks from out of town come into the bathhouse and be pleasantly surprised by the nature of the room - and I mean this in a literal sense. they are amazed that it is open to the elements and by the structure itself. I've seen folks take pictures of the space. not everything has to be shiny and new - to me, the pool experience is enhanced by the old feel of the bathhouse. please do not ruin this.	5/3/2018 8:43 AM
1021	<b>History/Architecture</b> I'm concerned that the current design work will disregard the detailed design recommendations from the Feasibility Study which represent a good compromise for improving the Barton Springs experience by restoring and rehabilitating the bathhouse while improving it to meet modern needs. Unfortunately, public processes at Barton Springs tend to give too much weight to loud, lone voices which oppose any changes to Barton Springs. The architect design team should understand that the "no change" position was provided as input to the Feasibility Study and was outweighed by significant public comments in support of the rehabilitation project. See <a href="http://austintexas.gov/sites/default/files/files/Parks/Planning_and_Development/Survey_Response_s.pdf">http://austintexas.gov/sites/default/files/files/Parks/Planning_and_Development/Survey_Response_s.pdf</a> and <a href="http://austintexas.gov/sites/default/files/files/Parks/Planning_and_Development/SurveyResults_11-02-15_withComments.pdf">http://austintexas.gov/sites/default/files/files/Parks/Planning_and_Development/SurveyResults_11-02-15_withComments.pdf</a> . There are also some advocates within city staff seeking to keep the staff office in its current location and size on the women's dressing area side. Staff's desire to have visual access to the pool was considered as input to the Feasibility Study and was outweighed by significant public comments in support of the rehabilitation project. It should be noted that the Feasibility Study recommendations would provide visual access to the pool from the smaller corner office area. In addition, keeping the office in its current size and location would prevent the women's dressing area from being restored and reopened to the original design, thereby impairing the interest of the public to have a restored and reopened women's dressing area. The Feasibility Study's compromise was to keep a smaller office area in the pool-side corner of the women's dressing area, thereby allowing the women's dressing area to be expanded back toward its original configuration.	5/1/2018 8:57 AM

## Barton Springs Bathhouse Rehabilitation

1024		The detailed design recommendations from the Feasibility Study represent a good compromise for improving the Barton Springs experience by restoring and rehabilitating the bathhouse while improving it to meet modern needs. The biggest concern is that lone voices are opposing the project and getting undue attention, even though their opposition was considered as input to the Feasibility Study and was outweighed by significant public comments in support of the rehabilitation project. Likewise, there are now voices seeking to keep the staff office in its current location and size on the women's dressing area side, but this would prevent the women's dressing area from being restored and reopened to the original design. Again, the design preference for keeping the staff office in place was considered as input to the Feasibility Study and was outweighed by significant public comments in support reopening the women's dressing area by significantly shrinking the office space as a compromise worked out in the Feasibility Study. In this case, the compromise was to keep a smaller office area in the pool-side corner of the women's dressing area, thereby allowing the women's dressing area to be expanded back toward its original configuration. Let's not reinvent the wheel, for Barton's sake.	4/28/2018 9:59 AM
1025	<b>Construction (duration)</b>	<b>History/Architecture</b> Poor materials, workmanship, and straying from original design.	4/27/2018 5:13 AM
1026	<b>Costly</b>	increased costs to enter	4/26/2018 4:06 PM
1027	<b>Costly</b>	Cost increases. Schedule delays. Rehashing of "no change" opinions that were already considered in the Feasibility Study, but far outweighed by popular support for the bathhouse rehab features with relocation of Sheffield to a new visitor center by the playscape and outside of the floodplain.	4/25/2018 9:59 PM
1028	<b>Access to Amenities</b>	<b>History/Architecture</b> The city and design team should not depart significantly from the Feasibility Study and its detailed recommendations for the bathhouse rehab since it provides a good outcome representing compromises between different public input ideas. City staff and designers should keep in mind that there was substantial public input and support for the Feasibility Study recommendations, as documented at <a href="http://austintexas.gov/page/bathhouse-zone-public-engagement">http://austintexas.gov/page/bathhouse-zone-public-engagement</a> . In particular, the Alternatives Survey Results ( <a href="http://austintexas.gov/sites/default/files/files/Parks/Planning_and_Development/Survey_Response_s.pdf">http://austintexas.gov/sites/default/files/files/Parks/Planning_and_Development/Survey_Response_s.pdf</a> ) confirms 67.9% approval for additional (automated) entrances to the pool, 88.4% approval for restoring the original 1940s dressing area AND providing modern changing/shower/toilet facilities, 73.6% approving a new environmental education center at the Rock Garden or playscape areas, and 94% approval for relocating the visitor center function outside of the bathhouse. Also, the highest ranking bathhouse improvements were improving pool access, restoring the rotunda, restoring the dressing rooms, and moving the Sheffield Center to a new facility. The possibility of closing the current pool entrance is a BIG negative in terms of creating an unnecessary fight with current swimmers. Keep the current entrance and add additional entrances by reopening the original men's and women's changing areas. The central rotunda space should include a significant, publicly accessible interpretive exhibit as part of that space, perhaps as part of the entrance experience. The rude and unjustified criticisms of Limbacher & Godfrey are a big concern. They are wonderful architects with great experience and deep devotion to Barton Springs, as witnessed by their willingness to participate in the public meetings, knowing how unfair and one-sided this public comment process is. Increased expenses eating into the 2012 bond funds for aspects of the project not directly related to the actual bathhouse rehabilitation (e.g., parking lot improvements, water line enhancements, etc.).	4/25/2018 9:51 PM

27	<b>dressing room</b> <b>open</b>	Lockers are flimsy. Thieves have the run of the place. We have all seen them hanging around. They break open the tops of the plastic lockers, so it is easy to plunder swimmers' wallets. The lockers are NEVER repaired or replaced. Get metal lockers, and post someone to keep an eye on things.	5/31/2018 11:09 AM

41		Just updating materials, finishes and plumbing using nicer, real materials, like stone and glass and stainless steel and making it nicer/cleaner ! Hire an architect to do the design	5/30/2018 10:26 PM
42	<b>bathroom stalls</b> <b>dressing room</b> <b>open</b> <b>Showers</b>	The same number of toilets but enlarged to the size of humans. More lockers and at least as large as those at Deep Eddy, those at BS are too small for modern back packs and bags. Keep the open design and natural features as are. You can ditch the little closet changing areas on the back wall, I've never seen them occupied even temporarily for any purpose. I'm not certain why they are there. Don't need more privacy or less space for anything except get rid of the dressing stalls, if that is what those are supposed to be. No amenities, that is waste of space and money. Showers are fine as is, keep most things unchanged, don't ruin the positive elements that already exist. Just the changes I've described.	5/30/2018 10:20 PM

48	<b>dressing room</b> <b>Showers</b>	I am concerned about the structural integrity and appearance of the concrete canopies over the benches in the men's locker room. Canopies over the shower heads, similar to those at deep eddy pool would be nice.	5/30/2018 8:00 PM

56	<b>bathroom stalls</b> <b>Showers</b> I would not create individual shower stalls for men as they would get dirty and require more money to be spent on maintenance. Leave it mostly like it is, like an outdoor shower at an old school beach house	5/30/2018 5:17 PM

99	<b>bathroom stalls</b>	There is far too many stalls in that there are already more than used privacy stalls.	5/19/2018 3:27 PM
100	<b>No improvements</b>	change nothing!	5/18/2018 6:19 PM
101	<b>bathroom stalls</b>	need assurance that the men's bathhouse would not be "improved"	5/17/2018 12:21 PM
102	<b>New amenities</b>	more water fountains	5/17/2018 1:25 AM
103	<b>bathroom stalls</b>	This list is full of things for which I see no need, even on a crowded day. The fact that there is such a list suggests that a worrying consumer mentality is taking hold. I will consequently feel obliged to follow this process with special scrutiny. I do not like to be suspicious, but this list would make someone suspect that a deeply flawed act of conspicuous waste is being proposed. Who, I wonder, stands to profit from such a program? Any usage study would show that the current facilities provided are more than are in use at any given time. No one ever waits for a toilet or for a shower.	5/16/2018 1:34 PM
104	<b>dressing room</b>	curtains on each dressing room, built-in hair dryers	5/16/2018 12:38 PM
105	<b>open</b>	This question is biased toward enforcing a more enclosed environment, and it reveals an intention to shame nakedness.	5/15/2018 1:55 PM
106	<b>bathroom stalls</b>	toilet stalls are now too small	5/15/2018 11:11 AM
107		Use it in some way better than just a building to stare at while waiting in line for 30 minutes to get into swim on a 100+ degree day.	5/15/2018 9:57 AM
108	<b>bathroom stalls</b> <b>dressing room</b> <b>Showers</b>	More of a straightforward explanation of the space, I think with some simple design elements you could direct people to understand where the shower space is, where the toilet space is, where the lockers are. This could be things like trees, small wooden flowerbeds, pathways, signage. Right now it sort of feels like a big naked room.	5/13/2018 11:31 AM
109	<b>New amenities</b>	Updating	5/13/2018 8:01 AM
110	<b>Architecture</b>	Keep integrity of the space yet make it more user friendly.	5/12/2018 4:31 PM

118	<b>New amenities</b>	Wet and dry areas	5/9/2018 3:04 PM
119	<b>dressing room</b>	Places to hang your items while dressing, using bathroom	5/9/2018 1:08 PM

124	<b>No improvements</b>	N/A	5/9/2018 10:30 AM
125	<b>No improvements</b>	I have no need for it	5/9/2018 8:26 AM
126	<b>dressing room</b> <b>open</b>	I love the open air, no roof elements of the dressing rooms. We love to sunbathe in there!	5/9/2018 8:23 AM
127	<b>No improvements</b>	Please do NOT turn this into a marketing campaign. The facilities have served well because of their basic, essential functionality. They do not need to serve everyone possible. Don't overthink this -- just improve the basic functionality that is there.	5/9/2018 8:08 AM
128	<b>Showers</b>	Someway to ensure that the showers in the dresser there for true Barton Springs patrons and not just vagrancy want to come in to get their shower there	5/9/2018 1:14 AM

143	<b>No improvements</b>	Nothing.	5/8/2018 6:16 PM
144	<b>Showers</b>	more hot showers and reconfiguring the current showers	5/8/2018 6:07 PM
145	<b>dressing room</b>	The space in the changing area needs to be used more efficiently. Sometimes an old structure (with its tiny cubicles) just has to be replaced. I say that as someone who has worked in the field of historic preservation.	5/8/2018 6:05 PM
146	<b>New amenities</b>	Segregated nude sunbathing for adults	5/8/2018 5:45 PM
147	<b>New amenities</b>	Landa Park-style baskets with an attendant	5/8/2018 5:45 PM
148	<b>New amenities</b>	As above, steam rooms, hot pools and massage treatment rooms a la Hot Springs.	5/8/2018 5:33 PM
149	<b>dressing room</b>	<b>open</b> Love the open/natural space. You have privacy, but still the open space. Increase lighting to and from the changing rooms - it is very dark in the early morning. Have a central locker space that is not secluded to reduce break-ins	5/8/2018 5:08 PM
150	<b>Showers</b>	more solar showers	5/8/2018 4:57 PM
151	<b>dressing room</b>	<b>open</b> <b>Showers</b> Open-air wheelchair accessible shower and dressing area.	5/8/2018 4:42 PM
152		nice TP	5/8/2018 4:25 PM
153	<b>No improvements</b>	Not much....like as is	5/8/2018 4:18 PM
154	<b>bathroom stalls</b>	Restrooms on the southside of the pool	5/8/2018 4:12 PM
155	<b>No improvements</b>	Nothing	5/8/2018 4:07 PM
156	<b>Maintenance</b>	Less smell of sewer gas	5/8/2018 4:01 PM
157	<b>No improvements</b>	None	5/8/2018 3:52 PM
158	<b>New amenities</b>	Steam sauna. If we're going to call this a bathhouse, why not consider the euro bathhouses and add a steam and/or dry sauna.	5/8/2018 3:35 PM
159	<b>bathroom stalls</b>	<b>open</b> Have doors on toilets open OUT!	5/8/2018 3:12 PM
160	<b>New amenities</b>	better parking as the lot fills up and the path to the springs can be made more pronounced and usable	5/8/2018 3:04 PM
161		Improvements that do not add to property taxes.	5/8/2018 2:48 PM
162	<b>New amenities</b>	the addition of steam room facility	5/8/2018 2:39 PM
163	<b>New amenities</b>	Rentable equipment like sunbrellas, cushy lounge chairs,	5/8/2018 2:27 PM
164	<b>Education</b>	More history of why it is such a special place and why it should never change.	5/8/2018 2:27 PM
165		I don't like the zip code question t the end...why does it matter where I live? is this targeting a specific area of town?	5/8/2018 2:26 PM
166	<b>Maintenance</b>	Cleaner public restrooms	5/8/2018 2:13 PM
167	<b>Maintenance</b>	less algae floating on the surface	5/8/2018 1:58 PM
168	<b>Education</b>	refresh the educational exhibit. Nice exhibits but way too dated and falling apart.	5/8/2018 1:28 PM
169	<b>bathroom stalls</b>	Not just rehabilitated but bigger individual toilet area. I'm thin but y'all and it's hard to maneuver in those tiny spaces.	5/8/2018 1:07 PM
170	<b>dressing room</b>	Dressing stalls with curtains or doors that actually close - one large breeze and everyone can see you behind those wimpy half curtains!	5/8/2018 1:04 PM
171	<b>Showers</b>	I don't need more showers, but definitely don't need less.	5/8/2018 1:01 PM
172	<b>bathroom stalls</b>	The toilet stalls are VERY small especially since the doors swing inward. These definitely need improvement, but I'm hoping you don't end up sacrificing the showers. Having warmer water in the showers would also be an improvement.	5/8/2018 12:58 PM
173	<b>bathroom stalls</b>	better lighting in covered areas, toilet areas	5/8/2018 12:43 PM
174	<b>open</b>	Let the sunshine in!	5/8/2018 12:38 PM

## Barton Springs Bathhouse Rehabilitation

175	<b>Showers</b>	More outdoor showers and benches outside improve the naturalist bathhouse ambiance	5/8/2018 12:31 PM
176	<b>dressing room</b> <b>Maintenance</b>	Just clean it up and make it usable. Last time I was there, the dressing rooms were full of city surplus junk--looked awful and blocked access.	5/8/2018 12:26 PM
177	<b>Showers</b>	More hot showers	5/8/2018 12:19 PM
178	<b>bathroom stalls</b> <b>open</b>	The stall doors need to open OUT instead of IN - it would make those stalls seem normal instead of being crowded and cramped.	5/8/2018 12:09 PM
179		Again, why must you insist that it isn't good enough for you? Just stay home already. One exception... if ADA needs aren't good, let's do that.	5/8/2018 12:06 PM

182	<b>dressing room</b>	maintain or enlarge green space in bathhouse dressing areas	5/8/2018 11:52 AM
