

Hydrant Mounted Water Meter Permit Renewal

The permit is valid for **1 year** from installation and will automatically expire. If a renewal application and copy of the backflow prevention assembly (RPZ) inspection certificate is not received within seven (7) days of the date of this notification, Austin Water will remove the hydrant-mounted meter and close the account. If water is still needed, the customer must reapply for a hydrant water meter prior to this permit expiration. The City requires that an approved reduced pressure backflow prevention assembly (RPZ) be installed and certified by a State of Texas-licensed backflow prevention assembly tester (BPAT) registered with Austin Water prior to obtaining water from a fire hydrant-mounted meter. **Please attach a copy of the backflow prevention assembly (RPZ) inspection certificate with this renewal application.**

Applicant/Company Information

Signatory Requirements -

*This permit must be signed by an authorized representative of the Applicant as described herein. For a corporation, this permit shall be signed by a responsible corporate officer. A responsible corporate officer means a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy or decision-making functions for the corporation. For a partnership or sole proprietorship, this permit shall be signed by a general partner or the proprietor, respectively. **In signing, I certify that I am an authorized representative of the Applicant:***

Applicant Signature

Title

Date

Signature releases the City of Austin and applicant agrees to hold harmless and defend the City of Austin from any claims from any and all liability and losses for personal injury or property damage resulting from applicant's use of a fire hydrant. This form becomes the permit upon signature by the applicant and assignment of a billing account by Austin Water personnel. The permit holder must keep a copy of the permit in any vehicle used to withdraw the water. The permittee is liable for any damages to the City hydrant or infrastructure due to misuse or improper operation of the hydrant.

Applications may be submitted:
