Boards and Commission Action: To be reviewed by Planning Commission on January 30, 2007.

Prior Council Action: 8/31/06 - The City Council adopted Subchapter E. Design Standards and Mixed Use 12/14/06 - The City Council directed the City Manager to initiate amendments to Subchapter E (Design Standards and Mixed Use)

On December 14, 2006, the City Council directed the City Manager to initiate amendments to Subchapter E Design Standards and Mixed Use to clarify the applicability of opt-in and opt-out provisions to commercially zoned properties with residential uses, and to enable vertical mixed-use applications taking advantage of the bonuses and requirements in Section 4 3.3 and 4.3.4 to proceed before the completion of the 145-day opt-in/opt-out process

The amendments consist of three proposed changes to Section 4 3 Vertical Mixed Use Buildings of Subchapter E

Amend Section 4 3 2 to add a new section applicable to sites located in the Vertical Mixed Use Overlay District that are used exclusively for a residential use, specifying the procedures by which a vertical mixed use building may be developed.

Amend Section 4 3 5 to add a new section to provide that a neighborhood planning team or neighborhood association team may request and the Council may approve an amendment to the Vertical Mixed Use Overlay District to remove specific properties from the overlay district. Properties removed from the VMU Overlay District are not eligible to develop as a vertical mixed use building. Amend Section 4.3.5 to add a new section to provide that an applicant for a vertical mixed use building may request that Council establish the applicability of the dimensional standards, parking reductions, ground floor uses, and affordability standards in Section 4.3 3 before the completion of the opt-in/opt-out process currently established in Section 4.3.5 B A request will only be considered if the applicant has a zoning, site plan, or building permit application on file at the time that the request is made. The applicable neighborhood planning team or neighborhood association team will provide a recommendation to Council. The amendment also establishes notice, public hearing, and other procedural requirements that are applicable to a request.
