Amend 2 Contract  
Summary**

**For More Information** Sydney Ceder, Sr Buyer, 974-2035

**Purchasing Language** Contract Amendment

**MBE/WBE** This contract was awarded in compliance with Chapter 2-9D of the City Code (Minority-Owned and Women-Owned Business Enterprise Procurement Program). No subcontracting opportunities were identified, therefore, no goals were established for this solicitation.

A DNA lab supply contract was established with Applied BioSystems for an annual amount not to exceed \$39,863.85, with two 12-month extension options effective May 15, 2006. The Austin Police Department DNA Laboratory currently utilizes the contract for the supply of DNA consumable supplies for the Applied Biosystems equipment used for the analysis and quantification of DNA. Due to the success of the DNA backlog initiative, the authorized amount under the contract will not provide for the sufficient purchase of supplies required to meet the workload of the DNA lab through the remainder of the contract term or for future extension options. Amendment No 2 is to increase expenditure of these supplies to the current term and the two extension options due to the continuously increasing caseload.

The Applied BioSystems test kits purchased under the contract have been validated and licensed for use on the Applied BioSystems equipment. Utilization of any other manufacturer's consumables, such as test kits and reagents/solutions, would require an extensive validation process before the DNA lab could certify any test results.
