

## SECOND / THIRD READINGS SUMMARY SHEET

ZONING CASE NUMBER: C14-06-0124 Ardent 2

REQUEST:

Approve second/third readings of an ordinance amending Chapter 25-2 of the Austin City Code by rezoning property locally known as 1500 South Lamar Blvd (West Bouldin Creek Watershed) from general commercial services (CS) and multifamily residence (medium density) (MF-3) zoning to general community commercial-mixed use-conditional overlay (GR-MU-CO) combining district zoning.

DEPARTMENT COMMENTS:

1 of 2 cases on the site of the Stonegate apartments.

Questions regarding affordable housing that were raised by Council at first reading will be addressed in a separate memo.

APPLICANT: Ocean Stone SC, L.L.C. (Robert S. Peek Jr)

AGENT: Drenner, & Golden Stuart Wolff, SSP (Michele Rogerson)

DATE OF FIRST READING: First reading approved on November 16, 2006. Vote: 7-0.

PLANNING COMMISSION ACTION: September 26, 2006: Approved staff's recommendation of GR-MU-CO

CITY COUNCIL ACTION:

ORDINANCE NUMBER:

ASSIGNED STAFF: Robert Heil, 974-2330. e-mail: robert.heil@ci.austin.tx.us

## **ZONING CHANGE REVIEW SHEET**

**CASE:** C14-06-0123 and C14-06-0124 Ardent

**PC Date:** September 26, 2006

*Note: These two cases are very closely related, and a single zoning review sheet was prepared to facilitate discussion.*

**ADDRESS:** 1500 South Lamar Blvd (C14-06-0123)  
1418 South Lamar Blvd (C14-06-0124)

<b><u>AREA:</u></b>	C14-06-0123	1.551 acres
	C14-06-0124	1.755 acres
	<b>Total:</b>	<b>3.306 acres</b>

**OWNER/APPLICANT:** Ocean Stone SC, L.L.C. (Robert S. Peek Jr)

**AGENT:** Drenner, & Golden Stuart Wolff, SSP (Michelle Rogerson)

**ZONING FROM:** C14-06-0123 GR and CS  
C14-06-0124 MF-3 and CS

**ZONING TO:** GR-MU-CO

### **STAFF RECOMMENDATION:**

Staff recommends approval of GR-MU-CO in both cases. The conditional for both cases would limit daily vehicle trips to no more than 2000 per day collectively over the existing trips, and prohibit the following uses on both tracts:

Automotive Rentals	Indoor Sports and Recreation
Automotive Repair Services	Outdoor Sports and Recreation
Automotive Sales	Pawn Shop Services
Automotive Washing (of any type)	Service Station
Bail Bond Services	Local Utility Services
Commercial Off-Street Parking	Theater
Drop-Off Recycling Collection Facility	Telecommunication Tower – 1
Exterminating Services	Residential Treatment
Funeral Services	

The applicant agrees with the propose conditions.

### **PLANNING COMMISSION RECOMMENDATION:**

**September 26, 2006:** Approved staff's recommendation of GR-MU-CO (7-0).

**DEPARTMENT COMMENTS:**

The two tracts together consist of 3.3 acres developed as apartments and zoned a mix of general commercial services (CS), community commercial (GR) and multifamily residence (medium density) (MF-3). It is the request of the applicant to rezone both tracts to community commercial – mixed use – conditional overlay (GR-MU-CO). The conditions of the overlay are detailed above in the staff recommendation.

Staff supports the zoning request to community commercial – mixed use – conditional overlay (GR-MU-CO).

These two tracts are separated by Cinco Street, and it is the intent of the applicant to vacate Cinco Street, and develop the entire property together with a mix of multi-family and retail uses. However, as the two tracts are currently separated by a public right-of-way and as such, separate zoning applications were required.

The cases were submitted in May of 2006, but the applicant requested that they not be scheduled for public hearing at Planning Commission until they had time to meet with the neighborhood and discuss the proposal.

**EXISTING ZONING AND LAND USES:**

	<b>ZONING</b>	<b>LAND USES</b>
<i>Site</i>	GR, CS and MF-3	Apartments
<i>North</i>	CS	Auto Parts Sales
<i>South</i>	GR and CS	Apartments, Restaurant and Auto Repair
<i>East</i>	CS, CS-1	Retail, Pool Hall, Convenience Storage
<i>West</i>	GR and MF-3	Apartments

**AREA STUDY:** The property is within the proposed South Lamar Neighborhood Planning Area which began meeting in the Fall of 2005.

**TIA:** A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 additional vehicle trips per day, collectively. [LDC, 25-6-117]

**WATERSHED:** West Bouldin Creek

**DESIRED DEVELOPMENT ZONE:** Yes

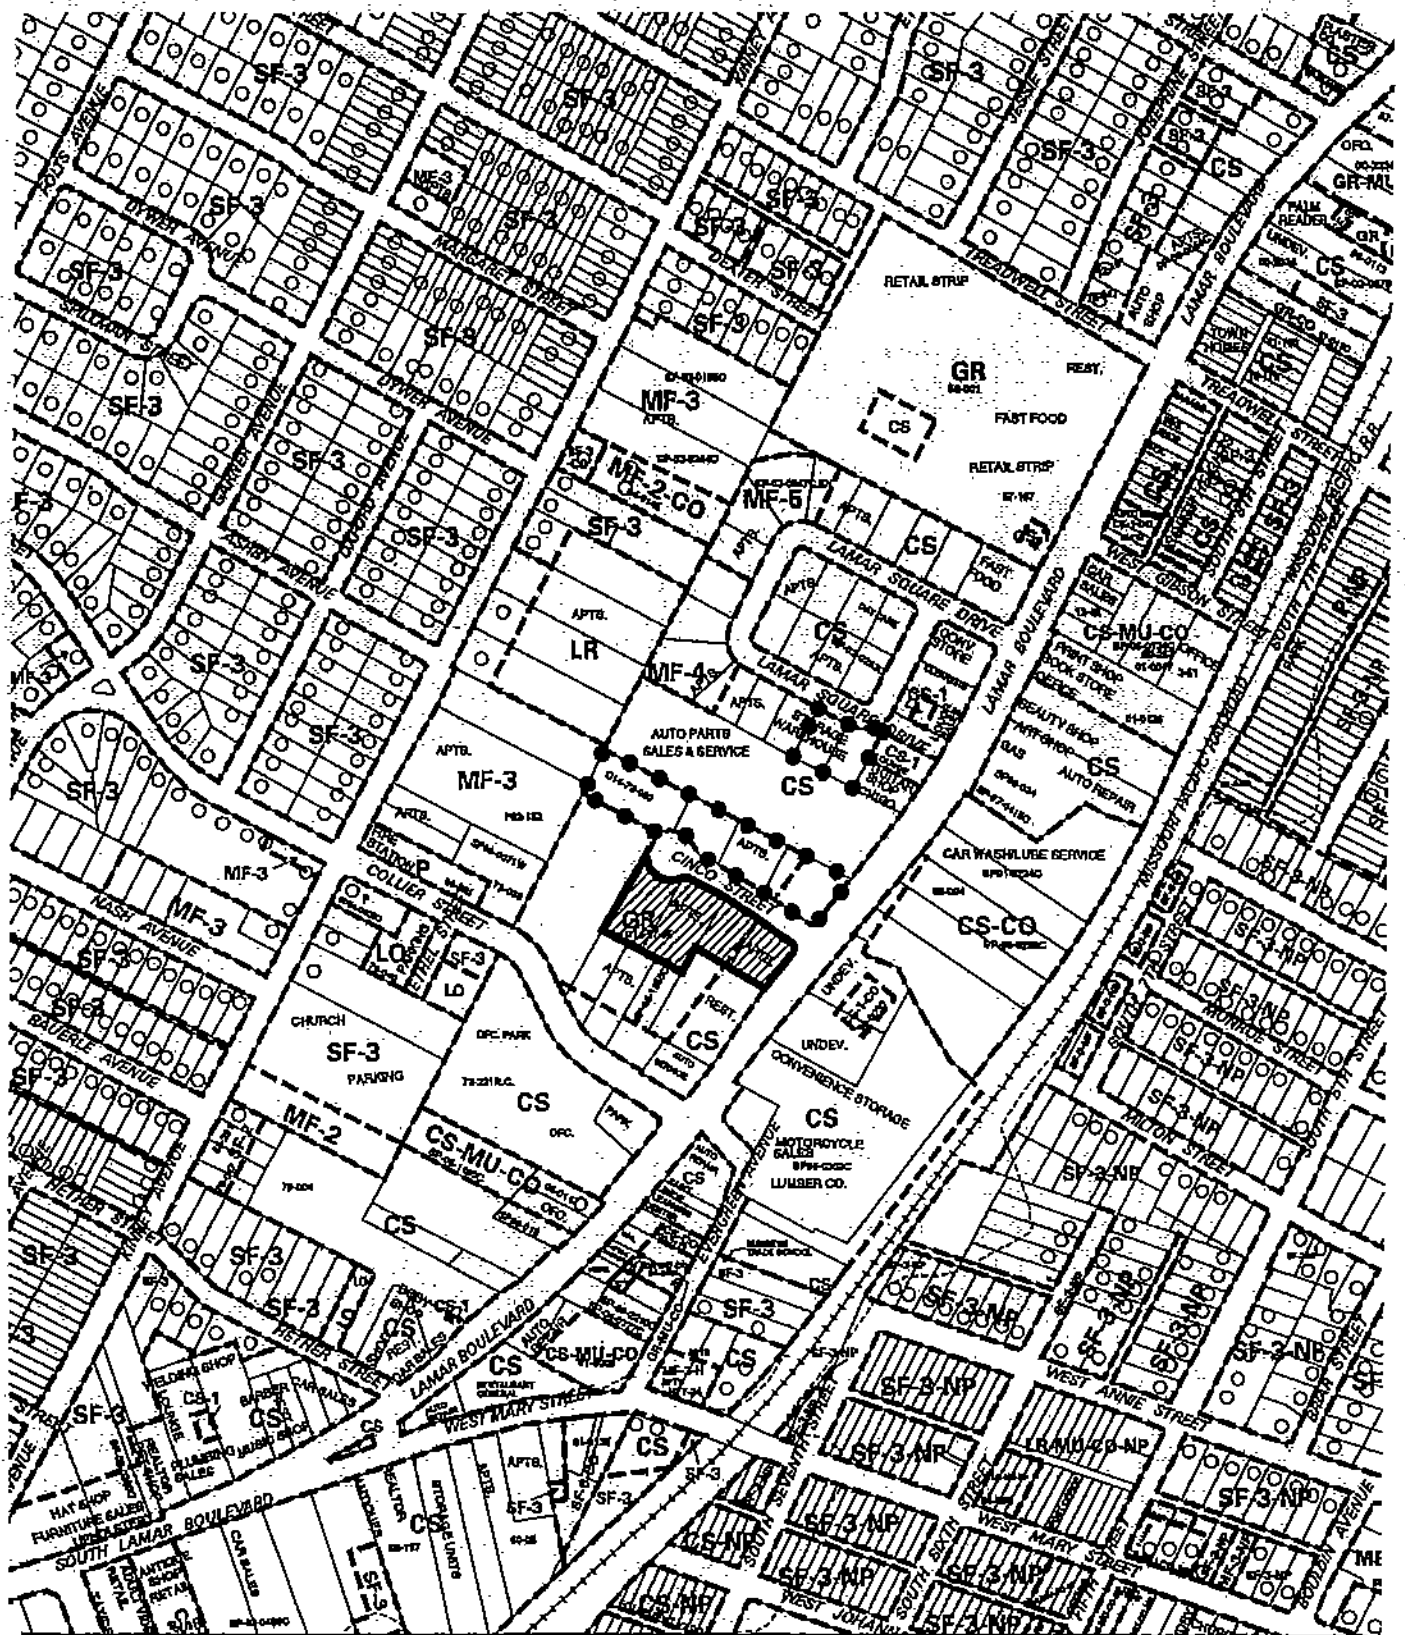

**CAPITOL VIEW CORRIDOR:** No

**HILL COUNTRY ROADWAY:** No

C14-06-0124 Ardent 2 of 2  
1418 South Lamar Blvd  
From CS and MF-3 to GR-MU-CO

C14-06-0123 Ardent 1 of 2  
1500 South Lamar Blvd  
From GR and CS to GR-MU-CO

--	--	--	-------------------------------------	---

## **SUMMARY STAFF RECOMMENDATION**

Staff recommends approval of GR-MU-CO in both cases. The conditional for both cases would limit daily vehicle trips to no more than 2000 additional trips per day collectively, and prohibit the following uses on both tracts:

Automotive Rentals	Indoor Sports and Recreation
Automotive Repair Services	Outdoor Sports and Recreation
Automotive Sales	Pawn Shop Services
Automotive Washing (of any type)	Service Station
Bail Bond Services	Local Utility Services
Commercial Off-Street Parking	Theater
Drop-Off Recycling Collection Facility	Telecommunication Tower – 1
Exterminating Services	Residential Treatment
Funeral Services	

## **BASIS FOR LAND USE RECOMMENDATION (ZONING PRINCIPLES)**

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

Community commercial (GR) district is the designation for an office or other commercial use that serves neighborhood and community needs and that generally is accessible from major traffic ways. The purpose of the mixed use (MU) combining district is to allow office, retail, commercial and residential uses to be combined in a single development.

2. *Zoning changes should promote compatibility with adjacent and nearby uses.*

Community commercial-mixed use is compatible with the surrounding mix of multi-family and intense commercial uses, and is appropriate along an arterial roadway like Lamar Blvd.

## **Transportation**

No additional right-of-way is needed at this time.

For case C14-06-0123, the trip generation under the requested zoning is estimated to be 8,260 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics).

For case C14-06-0124, the trip generation under the requested zoning is estimated to be 8,949 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics).

The proposed uses (220 apartments and 10,000sf of specialty retail) will generate approximately 2,268 vehicle trips per day.

A traffic impact analysis was waived for this case because the overall increase in vehicle trips will be less than 2,000 per day beyond what currently exists on the property. If the zoning is granted, development for this both tracts should collectively be limited through a conditional overlay to less than 2,000 additional vehicle trips per day.

**Existing Street Characteristics:**

Name	ROW	Pavement	Classification	Sidewalks	Bus Rte	Bike Rte
Lamar Blvd	84'	67'	Arterial	No	Yes	No
Cinco Street	60'	44'	Collector	North side	No	No

**Environmental**

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the West Bouldin Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.

This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.

According to flood plain maps, there is no flood plain within the project area.

At this time, the property is developed with an apartment complex and there do not appear to be any significant environmental features.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

**Water and Wastewater**

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing the water and wastewater utility improvements, offsite main extension, system upgrades, utility adjustments, and utility relocation. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility.

C14-06-0123 and C14-06-0124

The plan must be in accordance with the City design criteria. The water and wastewater utility construction must be inspected by the City. The landowner must pay the associated and applicable City fees.

RE: Ardent/South Lamar Rezoning Applications; 1.5513 and 1.755 acres (3.3063 acres total) located at 1418-1500 South Lamar Boulevard ("Property"); Proposed Rezoning from CS, General Commercial Services District zoning, GR, Community Commercial District zoning and MF-3, Multifamily Residence Medium Density District zoning to CS-MU, General Commercial Services – Mixed Use Combining District zoning.

Dear Greg:

As representatives of the prospective purchaser of the above stated Property, we respectfully submit the enclosed rezoning application packets. The project is titled Ardent/South Lamar. The Property is currently divided by Cinco Street, which requires the filing of two separate applications, as the lots are not contiguous. Please note that it is intended that Cinco Street be vacated. The Property is located within the pending South Lamar Combined Neighborhood Plan area. At this time, the Property is developed with an existing multifamily apartment complex. The prospective purchaser intends to develop the Property with a mixed-use development consisting of multifamily and retail uses.

A Traffic Impact Analysis ("TIA") has been waived per the enclosed TIA Determination Worksheet completed by Emily Barron. As indicated, the project does not generate more than 2,000 vehicle trips above the existing traffic generated on the Property today (25-8-26). As such, the site is limited to 2,000 vehicle trips per day over the existing conditions.

The Property is within the boundaries of the pending South Lamar Combined Neighborhood Plan area. At this time the Future Land Use Map (FLUM) is still in progress. We have and will continue to meet with representatives of the neighborhood and City neighborhood planning staff to discuss the proposed project with regard to the proposed future land use for this Property. The Property is located along a central urban corridor (Lamar Boulevard), which currently hosts a mix of uses from residential, to commercial, office and industrial. The proposed rezoning of the Property from CS, GR and MF-3 to CS-MU and project is proposed to be a mix of uses intended to complement future mixed-use development anticipated for this corridor.

Mr. Greg Guernsey  
May 31, 2006  
Page 2

The zoning and land uses established along the west side of South Lamar are a mix of CS, CS-1, GR, MF-2-5, and SF-3 including heavy commercial, office and residential uses. The zoning and land uses established to the east of South Lamar consist of a mix of CS, CS-MU, GR-MU and SF-3 including heavy commercial, office and residential uses. Copies of the existing zoning ordinances for the Property are enclosed for your review.

The Property consists of a total of 3.3063 acres made up of Lots 1-8 of the Cinco Subdivision at South Lamar. A copy of the subdivision plat is enclosed for your review. There are no pending or approved site plans at this time.

Please let me know if you or your team members require additional information or have any questions. Thank you for your time and attention to this project.

Very truly yours,

Michele Rogerson Allen

RE: Amended Requests for Ardent/South Lamar Rezoning Applications; C14-06-0123 and C14-06-0124 located at 1418-1500 South Lamar Boulevard ("Property"); Proposed Amendment to Rezone from CS, General Commercial Services District zoning, GR, Community Commercial District zoning and MF-3, Multifamily Residence Medium Density District zoning to GR-MU, Community Commercial Services - Mixed Use Combining District zoning.

Dear Greg:

As representatives of the prospective purchaser of the above stated Property, we respectfully submit a request to amend the rezoning requests for the above-mentioned applications. The request originally submitted on May 31, 2006 was for rezoning to CS-MU. After further inspection of the proposed development for this Property, it was decided that downzoning to GR-MU would accomplish the same goals.

My understanding from Robert Heil, Case Manager, is that the amended request is still in line with the previous staff recommendation for this Property. In addition, the proposed development is still intended to be a mixed-use project, which is also still in line with the proposed goals of the pending South Lamar Combined Neighborhood Plan.

Please let me know if you or your team members require additional information or have any questions. Thank you for your time and attention to this project.

Very truly yours,  

Michele M. Rogerson
