

SECOND / THIRD READINGS SUMMARY SHEET

ZONING CASE NUMBER: C14-2007-0014 – Webb Estates

REQUEST:

Conduct a public hearing and approve second/third readings of an ordinance amending Chapter 25-2 of the Austin City Code by rezoning property locally known as 4700 City Park Road, north of the intersection of City Park Road and Westminster Glen (Turtle Creek and West Bull Creek Watersheds) from development reserve (DR) district zoning to single-family residence-large lot – conditional overlay (SF-1-CO) combining district zoning with conditions.

DEPARTMENT COMMENTS:

The subject rezoning area consists of an undeveloped 167.49 acre site along City Park Road north of the intersection of Westminster Glen Avenue. The site was annexed on December 31, 1996. Applicant wishes to rezone the property to SF-1 to allow for the development of 76 single-family residences with access to City Park Road.

Portions of this site are located over the northern Edward's Aquifer Recharge Zone and divided by the Turkey Creek and West Bull Creek Watersheds. This site also lies within the drinking water protection zone. Under the current watershed regulations, development on this site will be subject to impervious cover limits for rural and suburban watershed regulations.

ISSUES:

A valid petition has been filed at 22.09% opposition.

OWNER/APPLICANT: 4914 City Park Road (Letha Webb) and James Boanerges

AGENT: Clark, Thomas & Winters, PC (John Joseph)

DATE OF FIRST READING: June 21, 2007

CITY COUNCIL HEARING DATE: August 9, 2007

CITY COUNCIL ACTION:

June 21, 2007:

The public hearing was held open and the first reading of the ordinance for single-family residence-large lot-conditional overlay (SF-1-CO) combining district zoning was approved with the following conditions on Council Member Leffingwell's motion, Council Member Martinez' second on a 6-0 vote. Mayor Wynn was off the dais. Staff will work on the conditions of the public restrictive covenant and bring forth on July 26, 2007.

The public restrictive covenant should include:

- 1.) limit impervious cover per lot;
- 2.) integrate pest management and educational plans with respect to the habitat land;
- 3.) narrowing lots to match the adjacent lots in Westminster Glen;
- 4.) impose RR rear yard setback requirements along Westminster Glen; and
- 5.) through subdivision process ensure that drainage does not adversely impact any adjacent property.

ASSIGNED STAFF: Jorge E. Rousselin , e-mail: jorge.rousselin@ci.austin.tx.us

SUMMARY ZONING AND PLATTING COMMISSION RECOMMENDATION:

May 15, 2007:

APPROVED SF-1-CO ZONING WITH CONDITIONS OF:

- MAXIMUM OF 76 SINGLE-FAMILY UNITS;
- 2000 VEHICLE TRIP LIMIT;
- SITE COMPLIES WITH IMPERVIOUS COVER;
- LOT RESTRICTIONS TO THE WATERSHED RULE ORDINANCE AND THE WATERSHED SUBURBAN ORDINANCE.

[K.JACKSON, J.PINNELLI 2ND] (6-3) B.BAKER, C.HAMMOND, J.MARTINEZ – NAY**ISSUES:**

A valid petition has been filed at 22.09% opposition.

SUMMARY STAFF RECOMMENDATION:

Staff offers a recommendation of SF-1-CO (Single-family residence – large lot – conditional overlay) district zoning. The conditional overlay shall address the following:

1. Limit the density to one (1) residential unit per two (2) acres of net site area for portions of the site within the Water Supply Rural Watershed;
2. Limit to 30% maximum impervious cover under portions of the site within the Water Supply Suburban Watershed;
3. Minimum one (1) acre lot area per lot; and
4. Limit the daily vehicle trips to less than 2,000 per day.

The Staff recommendation is based on the following considerations:

- 1.) The proposed land use will be compatible with the existing surrounding large lot single-family residential uses;
- 2.) The proposed change will diversify land uses in the area by encouraging density compatible to existing densities to the south and west;
- 3.) The proposed land use will not infringe on the residential character of the established neighborhood; and
- 4.) The recommended conditions shall address density environmental impacts to the surrounding area.

DEPARTMENT COMMENTS:

The subject rezoning area consists of an undeveloped 167.49 acre site along City Park Road north of the intersection of Westminster Glen Avenue. The site was annexed on December 31, 1996. Applicant wishes to rezone the property to SF-1 to allow for the development of 76 single-family residences with access to City Park Road.

Portions of this site are located over the northern Edward's Aquifer Recharge Zone and divided by the Turkey Creek and West Bull Creek Watersheds. This site also lies within the drinking water protection zone. Under the current watershed regulations, development on this site will be subject to impervious cover limits for rural and suburban watershed regulations.

STAFF RECOMMENDATION

Staff offers a recommendation of SF-1-CO (Single-family residence – large lot – conditional overlay) district zoning. The conditional overlay shall address the following:

1. Limit the density to one (1) residential unit per two (2) acres of net site area; and
2. Limit the daily vehicle trips to less than 2,000 per day.

The Staff recommendation is based on the following considerations:

- 1.) The proposed land use will be compatible with the existing surrounding large lot single-family residential uses;
- 2.) The proposed change will diversify land uses in the area by encouraging density compatible to existing densities to the south and west;
- 3.) The proposed land use will not infringe on the residential character of the established neighborhood; and
- 4.) The recommended conditions shall address density environmental impacts to the surrounding area.

BASIS FOR RECOMMENDATION

- 1. The proposed zoning should be consistent with the purpose statement of the district sought.*

Single-family residence large lot (SF-1) district is the designation for a low density single-family residential use on a lot that is a minimum of 10,000 square feet. An SF-1 district designation may be applied to a use on land with sloping terrain or environmental limitations that preclude standard lot size or to a use in an existing residential development on a lot that is 10,000 square feet or more.

The proposed rezoning meets the purpose statement of the district sought. The subject property exceeds 167 acres and will accommodate lots exceeding one acre.

- 2. Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.*

The proposed rezoning will integrate with existing, adjacent large lot residential uses.

EXISTING CONDITIONS

Site Characteristics

The subject rezoning area consists of an undeveloped 167.49 acre site along City Park Road north of the intersection of Westminster Glen Avenue. The site was annexed on December 31, 1996.

Transportation

1. No additional right-of-way is needed at this time.
2. The trip generation under the requested zoning is estimated to be 6,474 trips per day, assuming that the site develops to the maximum intensity allowed under the zoning classification (without consideration of setbacks, environmental constraints, or other site characteristics). However, the applicant is proposing a large lot subdivision comprised of 76

one-acre lots. The trip generation for this proposal is 808 vehicle trips per day, 63 of which will occur in the AM peak and 84 in the PM peak.

3. A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

Environmental

1. Portions of this site are located over the northern Edward's Aquifer Recharge Zone. The site is divided by the Turkey Creek and West Bull Creek Watersheds of the Colorado River Basin, which are classified as Water Supply Rural and Water Supply Suburban Watersheds, respectively, by Chapter 25-8 of the City's Land Development Code. This site is in the drinking water protection zone. Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

Water Supply Rural

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>	<i>Allowable Density</i>
One or Two Family Residential	n/a	n/a	1 unit/2 acres net site area
Multifamily Residential	20%	25%	n/a
Commercial	20%	25%	n/a

- Single family or duplex development within a Water Quality Transition Zone may not exceed a density of one unit per three acres, exclusive of land within a 100-year floodplain, and must have a minimum lot size of 2 acres.

Water Supply Suburban

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>
One or Two Family Residential	30%	40%
Multifamily Residential	40%	55%
Commercial	40%	55%

2. According to flood plain maps, there is no flood plain within site boundaries.
3. The site is located within the endangered species survey area and must comply with the requirements of Chapter 25-8 Endangered Species in conjunction with subdivision and/or site plan process.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. At this time, site specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

6. Under current watershed regulations, development or redevelopment on this site will be subject to providing structural sedimentation and filtration basins with increased capture volume and 2 year detention.
7. At this time, no information has been provided as to whether this property has any preexisting approvals which would preempt current water quality or Code requirements.

Water and Wastewater

1. The landowner intends to serve the site and each lot will be served by an onsite septic system and a connection to the River Place MUD water utility system.

Compatibility Standards

1. The site will not be subject to compatibility standards.

Public Restrictive Covenant

- 1.) RC to limit impervious cover per lot
- 2.) Integrated pest management & educational plans with respect to the habitat land
- 3.) Narrowing lots to match up with the adjacent lots in Westminster Glen
- 4.) Imposing RR rear yard set back requirements along Westminster Glen
- 5.) Through subdivision process ensure that drainage does not adversely impact any adjacent property.

Zoning & Platting Commission/City Council
Austin, Texas

Neighborhood Planning & Zoning

Ref: Webb Estates – 4914 City Park Road – Change Zoning from DR to SF1

Dear Commissioners/Council Members:

I want to share with you the history of the land I wish to zone SF1 and subdivide with 1 acre size lots and larger. Living in St. Louis, IL in 1920, Elmer Webb, an attorney, received 659 acres of land in Travis County known as the "James Cole Survey" in payment of a debt. After moving to Houston with their three children, their son William came to UT but had to leave to go to the war. When he returned the county had put a paved road thru the land to City Park making it convenient to drive up from Houston to camp out and hunt with his friends and family. He and his family moved to Austin in 1958. We met the neighbors and became friends with Buck Steiner and son Tommy (Steiner Ranch), Leonard East and his son Alvin (Riverplace), Katie Woolridge (Glenlake), and Lizzie Ringstaff (Long Canyon & Preserve). We would ride our horses over and have barbeques and help each other.

Margaret Webb Dreyer sold some land to Tom Wolfe, who developed the Woolridge property now called Glenlake, and her son Thorne, Betty Webb Foster and William Webb's widow, Letha Webb sold to Joseph Bogar which Steve Lauder developed now called Westminster Glen.

William Webb died in 1977 leaving two sons and an eleven year old daughter. I am now the 82 year old widow who battled breast cancer all last year and who would like to retire and sell this property for my children as did the other members of the Webb family.

I really tried to sell, but no one wanted to deal with Fish and Wildlife or the city so for five years my son-in-law, Mike Kanetzky and I have been working on this. Some people at Fish and Wildlife have retired and new ones would start all over.

I cannot believe that people who live on the beautiful land that we had sold previously would object to our selling this last portion when we gave almost half of the land for preserve and each lot is one acre or more and beautifully planned and very sensitive to the environment.

If it is not approved and we sell, someone else may come in and attempt multi-family or some other more dense development. I love this land and shudder at the thought.

Sincerely,

Letha Webb

Neighborhood Planning & Zoning

Dear Home Owner,

I am writing you to provide information regarding a proposed development near your home. The Letha Webb property at 4914 City Park Road has been in the family since 1920. Over the years we have run a Day Camp for children, riding stables, and a large barn for group meetings. In 1977 William Webb, my husband passed away leaving me with two sons and an 11 year old daughter to raise. Now at 82 years old, at times struggling to pay the taxes, it is my dream to develop my property like all the surrounding properties. I have loved and lived this property for 50 plus years and my vision is an environmentally friendly development with 1 acre size lots and larger with about 40 acres of preserve land, which will provide privacy to the new homeowners and also the existing neighborhood.

Our goal is to enhance the neighborhood, and leave a legacy, that my children and the neighbors can take pride.

If you have any questions regarding the development please call Mike Kanetzky at 512.577.8523.

Sincerely,

A handwritten signature in cursive script that reads "Letha Webb". The ink is dark and the signature is fluid.

Letha Webb

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

Neighborhood Planning & Zoning

Dear Patricia & Lindey,

I am writing you to provide information regarding a proposed development near your home. The Letha Webb property at 4914 City Park Road has been in the family since 1920. Over the years we have run a Day Camp for children, riding stables, and a large barn for group meetings. In 1977 William Webb, my husband passed away leaving me with two sons and an 11 year old daughter to raise. Now at 82 years old, at times struggling to pay the taxes, it is my dream to develop my property like all the surrounding properties. I have loved and lived this property for 50 plus years and my vision is an environmentally friendly development with 1 acre size lots and larger with about 40 acres of preserve land, which will provide privacy to the new homeowners and also the existing neighborhood.

Our goal is to enhance and take pride in the neighborhood, while leaving a legacy for my children and neighbors.

If you have any questions regarding the development please call Mike Kanetzky at 512.577.8523.

Sincerely,

Letha Webb

Letha Webb

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. Comments:

NO need to zone SF-1, Keep lots
I am ~~not~~ larger. Zone RR instead.
I am also concerned regarding there
being no Drivage Easements Along Westminster
Glen Phase 1 & 2. I DO not Believe it is possible
to Keep the rate of Turn off the same as it is
now, while Building Residences and A Flagpole lot
Drive way heading Downhill toward my property.
The only way to Keep the water Turnoff as it
currently is (which is already heavy) is to leave a greenbelt
in place between the 548 Division and Mrs. Wells had mentioned
If you use this form to comment, it may be returned to: she would DO in
City of Austin A letter to me.

Comments: Life were told by everyone, 3 years ago when moving here, that the land behind us was zoned at 15 acres as a perpetual greenbelt.

Austin should discontinue considering zone changes to protect the environment, quit expanding traffic and ruining wildlife habitats.

Please do not let Austin become another Houston.

Now at 82 years old, at times struggling to pay the taxes, it is my dream to develop my property like all the surrounding properties. I have loved and lived this property for 50 plus years and my vision is an environmentally friendly development with 1 acre size lots and larger with about 40 acres of preserve land, which will provide privacy to the new homeowners and also the existing neighborhood.

Our goal is to enhance and take pride in the neighborhood, while leaving a legacy for my children and neighbors.

If you have any questions regarding the development please call Mike Kanetzky at 512.577.8523.

Sincerely,

Letha Webb

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:

www.ci.austin.tx.us/development

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.

Comments: I am in favor only if the land is used for Residential. Any commercial usage would be problematic, i.e., noise, hazards, and environmental damage. The entire time I have lived in my home I could not utilize the preserved area. Now Austin City Government is destroying the peace and calm of our neighborhood. I strenuously object!

RECEIVED

MAY 30 2007

Neighborhood Planning & Zoning

Jorge,

I would like to officially request a delay of the zoning hearing for the Webb Estates in front of City Council, currently scheduled for June 7, 2007.

I am the neighborhood contact for the petition, I am the President of the Home Owner's Association which is most directly affected, and I am an immediately adjacent land owner.

I am leaving this morning for a three week trip. I am happy to provide an itinerary if needed.

I respectfully request that the City Council grant a postponement to allow me to continue to represent the 223 home owners in Westminster Glen who have great concern about this development.

I have copied Carol Lee, President of the Glen Lake Neighborhood Association. She has agreed to deliver the petition so the process of validation may proceed.

I ask for a delay at least until the June 21st council meeting, or to a date later in the calendar year. Since I do not return from my trip until the evening of June 20th, a postponement to more than the following day would be greatly appreciated.

Since I will be in a time zone that is 5 hours earlier, with spotty internet and cell phone coverage, please copy Carol Lee to ensure timely communication to interested parties.

Thank you for your consideration,

Linda V. Salomon

Re: Webb Estates City Park Road Zoning Request

Subject: Request Continuance of the Council Meeting to review Proposed Zoning

Dear Jorge,

We understand that there is opposition and that a postponement has been requested of the City Council meeting of June 7 to hear our zoning request.

The opposition requested a postponement of Planning Commission on our case and a postponement was granted. We have since passed Planning Commission with a 6 to 3 vote and we added additional restrictions to our request to alleviate the oppositions' concerns.

Our SF-1 limited to 1 acre size lots, with 30% total development impervious cover and restrictions to no more than 76 lots, is a reasonable request.

We respect the oppositions concerns and requests, and we have amended our zoning to assist, yet our circumstances are unique because our construction window is restricted to some degree during only the non-nesting period of the Golden Cheeked Warbler, August 1 to March 1. Therefore it is critical to our development to expedite permits where ever we can.

Please consider moving forward with hearing our case before Council on June 7, 2007.

Sincerely,

Letha Webb

Neighborhood Planning & Zoning

To whom it may concern:

We are writing to express our opinion on the proposed new Webb Estates development off of City Park Road. We want to make sure the development is built with the best interests of the land and homeowners in the surrounding area. We are very concerned about the look and feel of the properties that will be constructed in this area. We have a lot of preserve land in the area that we would like to see protected. And we are very concerned that a high density SF1 type neighborhood will lower the property values of all around. We do not want to see developers try to squeeze as many homes as possible on this particular tract of land, but to protect its natural beauty and make it a classy, high end development with acreage plus properties.

We are not anti-development; we just don't think the rules should be bent to allow the developers to make this area more densely developed than it would be if the normal rules were followed.

We support a zoning of rural residential (RR), with lots having a minimum of one acre, if not more. Larger setbacks for each property, minimum 40ft build lines from property lines and minimal basic improvements, like sewer.

We'd like to see the neighborhood have the look and feel of those such as Westminster Glen, Glenlake or Long Canyon.

We do not support SF1 in any form. We do not want to see this beautiful hill country, canyon land turned into a massive, high density "Plano, TX-like" community with a big city "concrete" feel. Frankly, that's one of the reasons we moved away from Plano and to the Austin area. Please take this into consideration before being a part of an effort to turn our beautiful, natural city into something like a Plano, TX.

Please look out for the best interests of our area and our city and do not grant any variances that would be to the detriment to this tract of land and all landowners surrounding it.

Thank you for your support in this matter!

Sincerely,

Paula & Rip Greenfield

Don Perryman
City of Austin
Neighborhood Planning & Zoning
One Texas Center
505 Barton Springs Road
Box 1088
Austin TX 78767

Dear Mr. Perryman,

Our ESD provides fire protection for the area that includes the proposed Webb Estates development. Our Board has three serious concerns about this proposal. First, there is not adequate fire flow in many of the hydrants at the higher elevations in the adjacent subdivisions of Westminster Glen and Glenlake, and after five years of working with the LCRA, this problem has not yet been corrected. Minimum adequate fire-flow is 1,000 gpm (National Fire Academy required fire flow formula attached), at 35 psi static, and 20 psi residual (State of Texas standard). Hydrants in these subdivisions have been tested regularly at various times of the day since 2002 with at least seven hydrants consistently failing to meet the minimum fire flow standard.

As you are no doubt aware the Texas Forest Service has designated the areas west of Austin, and along City Park Road in particular, as an area at high risk for devastating wildfires because of the wildland/urban interface (Texas Forest Service map attached). The areas of immediate concern besides Webb Estates include the City of Austin's Emma Long Metropolitan Park, the Balcones Habitat Reserve, Riverplace, Long Canyon, Westminster Glen, Glenlake, and residential areas in the Greenshores and Skishores areas.

The Webb Estates will obtain their water from the same gravity fed system that supplies both Westminster Glen and Glenlake, and Webb Estates homesites will sit at even higher elevations. If this water system is unable to supply adequate fire flow pressures to Westminster Glen and Glenlake, we do not see how it would be expected to supply acceptable fire flow to Webb Estates unless Riverplace/LCRA present a sound design that addresses this problem. The Board considers it unacceptable to extend inadequate fire flow into yet another subdivision, exposing those residents to life-threatening risks that are easily foreseeable and avoidable.

Second, we have grave concerns about the width and turning radius of the streets. As shown, they will not allow fire trucks adequate room to maneuver.

Third, the failure to include a second access road displays a lack of awareness or a disregard of safe subdivision design standards. The single access road for this proposed subdivision extends through an area designated at "extreme" (highest) wildfire risk.

The Board sees no reasons that these issues cannot be resolved and we look forward to assisting you in any way we can.

Sincerely yours,

Kevin Mac Donnell
President

28 June 2007

Urban-Wildland Interface Risk Model for the West Austin / Travis County Study Area

Low

Expect slow moving surface fuel fires only. Direct firefighting methods will easily contain these fires. Individual homes or structures are at minimal risk.

High

Expect high rates of fire spread in fine fuels and moderate rates of spread in woody species of vegetation. Direct firefighting is possible on flanks, indirect recommended on head fires. Trenching is probable with short range spotting very likely. Individual homes, groups of homes and tracts of habitat may be at risk.

Moderate

Expect moderate rates of spread in surface fuels and woody species of shrubbery. Some torching of individual trees may occur. Most fires can be easily contained through direct firefighting methods. Individual homes and isolated structures may be at risk.

Extreme

Expect extreme rates of fire spread and high-intensity fires rapidly reaching crown, involving all layers of fuels. Torchling and runs in crowns of trees is expected with long-range spotting probable. Indirect firefighting methods only. Entire neighborhoods and habitat may be at risk.

Study Area

Water

Hazard Maps are DESCRIPTIVE, not PREDICTIVE.
Maps offer a spatial analysis of interface risk in West Austin and Travis County.
Maps represent loss potential given the right combination of conditions: Weather, Fuel, & Topography

This data is from a study done several years ago by AFD, Tx Forest Service, & UT.

International Fire Plan, The U.S. Department of Interior and Agriculture, defines the Urban Wildland Interface as "the line, area, or zone where structures and other human development meet or intermingle with undeveloped wildland or vegetative fuels.

In recent years the explosive growth in the Wildland Urban Interface has put some communities and associated infrastructures at risk from Wildland Fires. The west side of Austin and Western Travis County are located in this Interface Area.

The Austin study uses the (NFDRS) National Fire Danger Rating System to rate the area shown on the map.

Rating by Colors

Green - Low Danger

Yellow - Moderate Danger

Orange - High Danger

Red - Extreme Danger

The area in question is rated High & Extreme based on the NFDRS modeling map.

(NFA) National Fire Academy Required Fire Flow formula

$L \times W$ divided by 3 x number of floors

30' x 80' foot house with one floor = 800GPM

If there are exposures add $\frac{1}{4}$ to $\frac{1}{2}$ the RFF making total = 1000GPM to 1200GPM

Subject: Webb Estates Documents
Importance: High

Greetings from NPZD!

Greg Guernsey has requested to know if the fire issues attached have or will be addressed. Please see attached letter from Travis County Emergency Services District #4. Please address these issues and let us know if they will be addressed at the time of subdivision or site plan. We need written confirmation. Also attached are the last 3 pages of the valid petition that were not included in the set I sent before.

Law has requested you address the following issues to complete the draft public RC:

Is there some way to identify who or what entity has title to the property and the person or entity with authority to sign on behalf of the owners? It looks like most of the property is in the name of K&W Webb Family Partnership, Ltd.; and possibly Letha Webb and Gary Webb as individuals. Maybe some other family members. The materials we received shows those people who are limited partners and who were assigned a partnership interest in the partnership; the partnership agreement should set out who has authority to sign on behalf of this partnership. We need a copy of that or the part that shows who manages or signs and if there are individual owners of portions of the property.

What is the status of the RC negotiations with the neighborhood?

Thanks!

Jorge E. Rousselin, Senior Urban Planner

Date: April 25, 2007
File Number: C14-2007-0014

Neighborhood Planning & Zoning

Location of Rezoning Request: City Park Road (proposed Webb Estates)

To: Austin City Council

We, the undersigned are owners of property directly adjacent to the proposed neighborhood of "Webb Estates", and would be affected by the requested zoning change described in the reference file. We do hereby protest against any change of the Land Development Code, which would zone the property to any classification other than Rural Residential (RR), and pray for relief from the Austin City Council.

We respectfully request that the SFI zoning request be denied in favor of RR.
