The City of Austin is upgrading its wastewater collection system as mandated by the U.S. Environmental Protection Agency's Administrative Order, received April 29, 1999.

In response to this order, the City has assembled the Austin Clean Water Program to plan, design, and construct sustainable wastewater collection system improvements that will result in a collection system free from Sanitary Sewer Overflows.

The design plans for the Govalle SSO - West 5th and 6th Street Wastewater Improvement Project, a portion of the Austin Clean Water Program, require acquisition of a temporary working space easement on the property located at 1412 West 6th Street, Austin, Texas. The City has attempted to purchase the needed temporary working space easement. However, the parties have been unable to agree on an appropriate price. The Law Department is requesting authorization to file an action in eminent domain on behalf of the City of Austin.
