Travis County Emergency Services District Number 4 (TCESD #4) has developed a training program for firefighter certification for their department and other county fire departments. A class of twenty-three individuals began on October 15, 2007. This agreement will provide City funding in the amount of \$33,000 to provide salaries to the District trainees during their training. Additionally, TCESD #4 is acquiring additional funding from Travis County and funding from private sources. This agreement contributes to the City's social equity goals by providing recruit trainees and their families with opportunities and resources to be self-sufficient.

The training provided will qualify the recruits for Texas Commission on Fire Protection certification as firefighters.

The addition of these District trainees in providing initial firefighter certification training will improve fire response services in those areas where the District delivers these services to the City through a mutual aid agreement. This program also supports AFD's recruiting outreach efforts.
