5. A 25-foot wide heavily vegetated buffer shall be provided and maintained along the property lines that run along the adjacent residential areas of the Property. Improvements permitted within the buffer zone are limited to landscaping, screening, underground utility and drainage improvements or those improvements that may be otherwise required by the City of Austin or specifically authorized in this covenant. Within the buffer Class I trees shall be planted 20 feet on center, with modifications permitted to accommodate improvements as defined in this paragraph. A tree may be omitted where existing trees remain.
6. Sidewalks and streetscapes shall be built to the standards set forth in *Subchapter E: Design Standards and Mixed Use of the City Code*.
7. Twenty-five percent of the total number of roof surfaces in the project shall be covered with live vegetation. 17. All residential and commercial development shall comply with Austin Energy Green Building Program for a minimum two-star rating. Certification shall be met as specified by the version of the rating system current at the time of design.
18. If any person or entity shall violate or attempt to violate this agreement and covenant, it shall be lawful for the City of Austin to prosecute proceedings at law or in equity against such person or entity violating or attempting to violate such agreement or covenant, to prevent the person or entity from such actions, and to collect damages for such actions.

21. This agreement may be modified, amended, or terminated only by joint action of both (a) a majority of the members of the City Council of the City of Austin, and (b) by the owner(s) of the Property subject to the modification, amendment or termination at the time of such modification, amendment or termination.
