As Medical Director, he will also perform the duties of the Health Authority as described in State statutes (i.e., quarantine, required reporting of infectious diseases, birth and death records), City ordinance, and County regulations.

This RCA requests City Council to approve the appointment of Dr. Philip Huang as Health Authority for the two-year term commencing April 7, 2008 and ending April 6, 2010. With the approval of David Lurie, HHSD Director, Dr. Philip Huang has designated Dr. Linda Dooley, Dr. Edward M. Racht, and Dr. Duke Kimbrough, each individually, as Alternate Health Authority.

Under state law (Health and Safety Code Section 121.029), the Health Authority may delegate any power or duty imposed on the health authority to a properly qualified physician to act while the health authority is absent or incapacitated. The physician designated by the health authority must:

- Meet license and residence requirements;
- Be appointed as a designee in the same manner as the Health Authority; and
- File the Oath of Office, executed by a duly appointed Notary Public, with the Texas Department of Health

The delegation is effective during the term of the Health Authority making the delegation; the Health Authority is responsible for the acts of the physician to whom the powers have been delegated; and the entity that appoints the Health Authority must have procedures in place to prevent duplication of authority

and provide notice to the HHSD Director when authority is transferred. HHSD has had a "Delegation of Back-Up Health Authority" in effect since July 1, 2000.
