STAFF RECOMMENDATION

The Staff recommends approval of the rezoning from SF-3-NCCD to NO-H-NCCD. All provisions Ordinance No. 020131-20 shall remain in place with the exception of the following modification:

The following uses shall be prohibited on the site:

- Day care services (limited);
- Day care services (general); and
- Day care services (commercial).
- The site shall be limited to less than 2,000 vehicle trips per day.

The recommendation is based on the following considerations:

- 1.) The requested zoning classification is compatible with existing commercial and residential land uses in the area;
- 2.) The recommended prohibited uses will encourage the compatibility of land uses within the Residential District of the NCCD; and
- 3.) All other conditions of Ordinance No. 020131-20 shall remain applicable to the site.

BASIS FOR RECOMMENDATION

- 1. Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.*

The proposed rezoning will promote a compatible mix of land uses within the designated residential district of the NCCD and will preserve the residential character of the established residential district.

- 2. The proposed zoning should promote consistency and orderly planning.*

The proposed rezoning will be consistent with the permitted, conditional and prohibited land uses as listed in the NCCD ordinance.

EXISTING CONDITIONS

Site Characteristics

The subject rezoning area consists of a 0.137 acre (5,967.72 square feet) property zoned SF-3 – NCCD developed with a duplex structure. On January 31, 2002, the property was rezoned from SF-3 to SF-3-NCCD by Ordinance No. 020131-20 (Please see Attachment “A”). The site lies within the Residential District of the Hyde Park NCCD. Access to the property is via West 51st Street. A concurrent historic overlay case is in effect under case C14H-2007-0011.

On May 21, 2007, the Historic Landmark Commisison (HLC) initiated a rezoning case on the property requesting to implement an historic overlay on the property and on January 28, 2008, the HLC unanimously recommended historic zoning on the property. The site lies within the Hyde Park National Register Historic District.

Transportation

1. No additional right-of-way is needed at this time.

2. A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

Environmental

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Waller Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
2. Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.
3. This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.
4. According to flood plain maps, there is no flood plain within the project area.
5. At this time, site-specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features.
6. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Water and Wastewater

1. The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing the water and wastewater utility improvements, offsite main extensions, system upgrades, utility relocation, an abandonment. The water and wastewater plan must be in accordance with the City of Austin utility design criteria. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Site Plan and Compatibility Standards:

1. Site plans will be required for any new development other than single-family or duplex residential.
2. This site is in a National Register Historic District, and review by the Historic landmark commission is required.

3. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Compatibility Standards

- a. The site is subject to compatibility standards. Along the South, East, and North property lines, the following standards apply:
- b. No structure may be built within 25 feet of the property line.
- c. No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- d. No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- e. For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- f. An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- g. No parking or driveways are allowed within 25 feet of the property line.
- h. A landscape area at least 15 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

Additional design regulations will be enforced at the time a site plan is submitted.

Re: 511 West 41st Street

Dear Mr. Rousselin:

At Hyde Park's September General HPNA meeting, Catherine Moore, Karen McGraw, Mike Rhodes and Michael Little presented the plans for the Willie Kocurek law office project. The following document titled, "Proposal to Rezone 511 W. 41st Street" was distributed to association members. The need to change the zoning for this property was also discussed. A motion was made to support historic zoning as well as to change the zoning on this property to neighborhood office (NO-H-NCCD). The motion passed 24 to one to accept the whole proposal as written in the following document.

The HPNA appreciates your careful consideration of this property and we hope you will join us in helping to preserve this unique piece of history.

If I can provide any other information to you, please let me know.

Best Regards,

Elaine Meenehan
President, Hyde Park Neighborhood Association

The intent of this re-zoning is to preserve by rehabilitating* or reconstructing* the two buildings on the site in substantially their existing configuration as proposed to the HPNA General membership on September 10, 2007 in order to preserve their historic presence and character. Allowance may be made for adequate structural considerations and new code requirements as approved by the Historic Landmarks Commission via the Certificate of Appropriateness process.

The intent regarding uses is that the East building be used for residential use only.

The occupancy limit for residential uses shall be no more than 2 unrelated adults in the East building and no more than 3 unrelated adults in the West building.

Parking is intended to be as currently configured with 5 spaces in the back yard. Parking will accommodate office use of the West building and Residential use of the East building. HPNA will support this parking plan and allow for the zoning to accommodate this reduced parking ratio.

Should the buildings not be recommended for "H" zoning by the historic Landmarks Commission, further assurances of the configuration, rehabilitation and restoration of the buildings will be documented via a Restrictive Covenant with HPNA. This will involve additional meetings of the HPNA membership as well as the Hyde Park Planning Team.

It is understood that the applicant may need to permit the construction work via a residential permit. HPNA will not oppose that as long as there is a restrictive Covenant to require the commercial use as outlined above.

Signage, sidewalks, lighting and landscaping shall be as required by the City of Austin via a Commercial Site Plan or by Restrictive Covenant with HPNA based upon plans presented to HPNA on September 10, 2007.

The Owner(s) of the property will agree to apply to list the property as contributing in the Hyde Park National Register District within 18 months.

Existing materials that reflect the historic character of the buildings will consist of at minimum the two westernmost front windows of the West building and the windows and screen doors of the East building.

Impervious Cover, Building Cover will not exceed existing conditions except that the building FAR may be slightly greater to accommodate a loft for the East building as presented on September 10, 2007.

The owners intend to direct drainage away from adjacent property by reducing impervious cover and directing runoff away from those properties.

Two-family use will be a permitted use under the current lot size in the existing buildings or a reconstruction of the existing buildings as presented on September 10, 2007.
