(C) This subsection applies to a multifamily residential use.

- (1) Each building must achieve at least a one star rating under the Austin Green Building program.

- 1 (2) All ground floor dwelling units must be:
- 2 (a) adaptable for use by a person with a disability; and
- 3 (b) accessible by a person with a disability from the on-site parking and
- 4 common facility, if any.
- 5 (3) At least 10 percent of the dwelling units must be accessible for a person

- 10 (a) at least 25 percent of the site's dwelling units are located on the
- 11 ground floor; or
- 12 (b) for a site with fewer than 20 dwelling units, at least five percent of
- 13 the site's dwelling units are located on the ground floor.
- 14 (6) A parking space must be leased separately from a dwelling unit.

- 26 (1) the only building on the site has 6,000 or fewer square feet of gross floor
- 27 area, and the building was constructed before September 13, 2004; and
- 28 (2) the parking area is screened from the street by an eight foot tall solid
- 29 wall.

1 (H) This subsection prescribes requirements for the ground floor of a building,
2 including a parking garage.

3 (1) The ground floor must include occupant space along not less than 75
4 percent of the net length of street frontage. Net length of street frontage
5 is calculated by determining the cumulative length of the building at
6 ground level adjacent to each street other than an alley, and then
7 deducting the cumulative length of driveways, exit stairs, elevators, and
8 utility equipment space.

9 (2) For a site with frontage on more than one street, driveways, exit stairs
10 and elevators must be located on a street that runs north and south,
11 unless the director of the Neighborhood Planning and Zoning
12 Department determines that those features cannot reasonably be located
13 along that street because of topographical conditions.

14 (3) The ground floor of a building may not be more than five feet higher or
15 lower than an adjacent public street sidewalk. This does not apply to the
16 ground floor adjacent to an alley.

17 (4) The minimum distance between the finished ground floor of the building
18 and the structural portion of the ceiling is 10 feet.

19 (5) The minimum depth of occupant space is 18 feet, measured from the
20 outside face of the front exterior wall to the outside face of the rear
21 interior wall.

22 (I) Off-site temporary construction staging is allowed within 500 feet of the
23 construction site. The director may allow a staging area to be located more
24 than 500 feet from the construction site if the director determines that a closer
25 staging area is not reasonably available and that the location does not
26 adversely affect public health or safety.

27 (J) A hotel/motel use is treated as a local use under this division if it meets the
28 following requirements:

29 (1) The hotel-motel use must be located on property that:

33 and Martin Luther King Jr. Blvd.

1 (2) The maximum height must be no greater than 85 feet, unless a greater
2 height is allowed under Appendix C (*University Neighborhood Overlay*
3 *District Boundaries, Subdistrict Boundaries, and Height Limits*) of this
4 chapter.

5 (3) If a new hotel-motel use includes, shares, or incorporates adjacent
6 existing property, then both the new hotel-motel use and the adjacent
7 property must be:

8 (a) included in a single site plan; and

9 (b) compliant with the streetscape requirements in Section 25-2-760
10 (*Streetscape Improvements*).

11 (4) The hotel-motel use must comply with the affordability requirements for
12 multi-family housing under Section 25-2-765 (*Affordable Housing*),
13 with each square foot of net rentable floor area counted towards the fee
14 provided for under subsection (B) of that section.

22 Appendix C (*University Neighborhood Overlay District Boundaries,*
23 *Subdistrict Boundaries, And Height Limits*) if:

24 (a) [~~1~~] the structure is located in an area for which the maximum height
25 is at least 50 feet; and
