Subject fly tower

Ok The deal is that the original proposal, rather than the planning commission proposal, is agreed with the following additional items of the agreement

- 1 Staff, neighborhood, and zach will work to define public theater in a way that will ensure that no other city property can take advantage of the added height and no other governmental entities can
- 2 Allowed fly tower height is either 80' or the height established by a conditional use permit
- 3 Language will be added by council making clear that this ordinance does not set a precedent for any other uses to get additional height
- 4 Zach agrees to engage in dialog with the neighborhood through the rest of construction, and
- 5 Zach agrees that its intent is to provide parking for the theater without encroaching on parkland and, if off site, within structures or on surface lots that are in compliance with the base zoning district site development regulations for the site on which they are located

Council will approve on first reading and the item will be brought back to the council at the next meeting

Jeff Jack will present the agreement and I will acknowledge that zach agrees.
