That the development be restricted to 17,193 vehicle trips per day.

DEPARTMENT COMMENTS:

This Restrictive Covenant was executed in conjunction with a zone change request with case number C14-06-0071. There was also a companion zoning case, C14-06-0069 for adjacent properties that the applicant owns. The purpose of the zone change request was to utilize the CURE overlay for the subject properties. The staff recommendation was to approve the zone change request with the stipulation that the applicant enter into a Restrictive Covenant (RC) on the property.

The RC had three parts to it – 1. That the applicant participate in the City of Austin Great Streets program for any new development on the property. 2. That the applicant submit an Access Study to the Transportation Review section of Watershed Protection & Development Review Department for any proposed project on the property and 3. That the development be restricted to 14,221 vehicle trips per day. The RC was agreed to by the applicant and a single RC was executed that covered both zoning cases, C14-06-0069 & C14-06-0071.
