An amendment to the Ground Transportation Supplemental Vehicle regulation is necessary to allow charter and shuttle services the option to request permission to operate supplemental vehicles. This option is currently only available to limousine services.

Supplemental Vehicles are needed for special events, special service requests, or to temporarily replace vehicles undergoing repairs. The Supplemental Vehicle permit is valid for a period of five days. The limousine, charter, shuttle and taxi companies were given the opportunity to comment on this proposed amendment. None of the companies have expressed opposition, and those who commented were in support of this amendment.

The Public Works Department recommends approval of this amendment.
