MBE/WBE: This contract will be awarded in compliance with Chapter 2-9A of the City Code (Minority Owned and Women Owned Business Enterprise Procurement Program) by meeting the goals with 11.39% MBE and 45.01% WBE subcontractor participation.

The purpose of this project is to provide maintenance and repairs on approximately 45 lane miles of streets throughout the City of Austin. The work includes all necessary street preparation work including milling, crack sealing, HMAC surface replacement areas and HMAC level up, followed by the installation of an asphalt overlay. The streets identified as part of this project were in need of strengthening and smoothing as determined by the use of the Pavement Management Information System that assessed the existing condition of the streets including riding comfort. Along with the condition assessment, part of the identification process included coordination with the utilities for any planned work in the areas.

The contract allows 90 calendar days for completion of this project.
