CASE: C14-2008-0150 808 Nueces Street

ADDRESS: 808 Nueces Street

APPLICANT: Stephen Adler

NEIGHBORHOOD PLAN AREA: None

T.I.A.: No

WATERSHED: Shoal Creek

ZONING FROM: GO – General Office

ZONING TO: DMU – Downtown Mixed Use

P. C. DATE: 08-26-2008

AREA: .13 acres

AGENT: Holford Group (Charles Dunn)

CAPITOL VIEW: Yes

HILL COUNTRY ROADWAY: No

DESIRED DEVELOPMENT ZONE: Yes

SUMMARY STAFF RECOMMENDATION:

Staff recommends DMU-CO, Downtown Mixed Use-Conditional Overlay. The Conditional Overlay would make a bail bond services use, cocktail lounge use, or liquor sales use a conditional use; and prohibit pawn shop services use.

PLANNING COMMISSION RECOMMENDATION:

The motion to approve staff’s recommendation for DMU-CO district zoning with the condition of GO district height limit; was approved by Commissioner Mandy Dealey’s motion, Commissioner Saundra Kirk second the motion on a vote of 7-0. Commissioners Perla Cavazos and Paula Hui were absent.

DEPARTMENT COMMENTS:

The Downtown Mixed Use (DMU) district is the designation for a use located on the periphery of an area that has a CBD designation. A DMU district designation may be applied to a development that includes any combination of office retail, commercial, and residential uses and that is compatible with the downtown area. A DMU district use with an intermediate density may be used as a transition between the downtown area and surrounding districts. A DMU district is suitable for an area to which the central business district may expand. The subject tract is located in and amongst various zoning districts, including DMU, GO, LO and MF-4. The most recent surrounding case histories were requests to the DMU zoning district. It should be noted that this property lies within the Criminal Justice Overlay subdistrict (§ 25-2-650). In the criminal justice center overlay district a bail bond services use, cocktail lounge use, or liquor sales use that would otherwise be a permitted use is a conditional use; and a pawn shop services use is prohibited.

Austin High School

SITE PLAN:

1. This project is within the Criminal Justice Overlay subdistrict (§ 25-2-650). In the criminal justice center overlay district: (1) a bail bond services use, cocktail lounge use, or liquor sales use that would otherwise be a permitted use is a conditional use; and (2) a pawn shop services use is prohibited.

2. A small portion of this site is within the Capitol View Corridor. Maximum height allowed within the corridor is strictly enforced. For any new development, an application for a Capitol View Corridor Height Determination must be submitted to Intake prior to site plan review; for more information, contact the Development Assistance Center at 974-6370.
3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

4. There appears to be a residential unit within 540 ft. of this site, and therefore would be subject to compatibility standards.
   - No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
   - No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.

   - In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection. Additional design regulations will be enforced at the time a site plan is submitted.

ENVIRONMENTAL:

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Shoal Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

2. Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.

3. This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.

4. According to flood plain maps, there is no flood plain within the project area.

5. At this time, site-specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

6. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

TRANSPORTATION:

1. No additional right-of-way is needed at this time.

2. A traffic impact analysis was not required for this case because the traffic generated by the proposed zoning does not exceed the threshold of 2,000 vehicle trips per day. [LDC, 25-6-113]
