

ZONING CHANGE REVIEW SHEET

CASE: C14-2008-0148 – 1410 West Ben White Blvd.

P.C. DATE: September 23, 2008

C.C. DATE: October 23, 2008 (Postponed)
November 6, 2008
January 15, 2009

ADDRESS: 1410 West Ben White Boulevard **AREA:** 0.41 acres

OWNER/APPLICANT: Cothron Partnership No. 2 LTD (Olen Cothron)

AGENT: The Austin Company (Peter von Wupperfeld)

ZONING FROM: GR

ZONING TO: CS

SUMMARY STAFF RECOMMENDATION:

Staff recommends approval of the applicant's request to rezone the subject property to CS-CO (Commercial Services – Conditional Overlay) zoning to allow the district zoning to conform to the existing uses. The conditional overlay will limit the allowable vehicle trips per day to 2000.

PLANNING COMMISSION RECOMMENDATION: Approved on consent, all 3 readings
9/23/2008 (8-0, Hui absent).

CITY COUNCIL FIRST READING: October 23, 2009 The public hearing was closed and the first reading of the ordinance for general commercial services-conditional overlay (CS-CO) combining district zoning with the following prohibited uses was approved on Council Member Morrison's motion, Council Member Leffingwell's second on a 7-0 vote. The conditional overlay set a trip limitation of 2,000 trips per day. The prohibited uses are as follows: Agricultural, bail bond services, campground, carriage stable, commercial blood plasma center, consumer convenience services, drop-off recycling, funeral services, hotel-motel, kennels, marina, monument retail sales, pawn shop services, scrap and salvage services, service station, stable, automotive sales, automotive washing, cocktail lounge, exterminating services, outdoor entertainment, outdoor sports and recreation, restaurant (general) and veterinary services.

DEPARTMENT COMMENTS:

The property is currently developed with a truck rental business and zoned GR (Community Commercial). There are single family houses to the north and office, commercial and retail uses to the east and west. The property has frontage on Ben White Boulevard. The applicant would like to rezone the property to CS (Commercial Services) zoning to allow for equipment sales on the property.

ISSUES:

The South Lamar Neighborhood Association is currently in negotiation with the applicant to include prohibited uses on the property as an additional conditional overlay.

The auto repair in the rear of the property is a non-conforming use with the rental business in the front under the current GR (Community Commercial) zoning. The zoning change will allow the property to comply with its existing uses of equipment sales and truck rental with CS (Commercial Services) zoning.

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

The staff is recommending a 2,000 trip limit to the base district zoning, which is incorporated into the ordinance.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	GR	Truck Rental
<i>North</i>	SF-3	Single Family
<i>South</i>	GR-V, CS-V	Restaurants, Automotives Repair, Commercial Services
<i>East</i>	CS	Tile Company, Plumbing Company
<i>West</i>	GR, CS-1	Auto Parts, Billiards

AREA STUDY: South Lamar Planning Area

C14-03-0088 1704 Fort View	From SF-3 to CS (Vehicle Storage)	7/15/03 APVD CS-CO (7-1, CH-NO)	9/25/03 APVD CS-CO (7-0) W/O REQUIRING ZAP REC OF R.C.; ALL 3 RDGS
C14P-75-054	Permit for Tire Storage	N/A	11/11/75 APVD Permit for Tire Storage

BASIS FOR RECOMMENDATION

1. *Granting of the request should result in an equal treatment of similarly situated properties, and the rezoning should be consistent with the policies and principles adopted by the City Council or Planning Commission.*

The property is surrounded by commercial services and community commercial zoning categories and is adjacent to a major highway.

2. *Zoning should promote the policy of locating retail and more intensive zoning near the intersections of arterial roadways or at the intersections of arterials and major collectors.*

The property takes immediate access to the service road of a major US highway, where more intense uses are appropriate. CS zoning provides an appropriate use alongside this major thoroughfare.

EXISTING CONDITIONS

ENVIRONMENTAL

Impervious Cover

Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.

Note: The most restrictive impervious cover limit applies.

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the West Bouldin Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.

This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 s.f. cumulative is exceeded, and detention for the two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.

According to flood plain maps, there is no flood plain within the project area.

At this time, site-specific information is unavailable regarding existing trees and other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Water and Wastewater

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing the water and wastewater utility improvements, offsite main extensions, system upgrades, utility relocations and or abandonments required. The water and wastewater plan must be in accordance with the City of Austin utility design criteria. The water and wastewater utility plan must be reviewed and approved by the Austin Water Utility. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program if available.

TRANSPORTATION:

Name	ROW	Pavement	Class	Sidewalk?	Bus Route?	Bike Route?
Ben White Blvd	350	MAD 6	Arterial	Yes; both sides	328	Priority 2

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

Right of Way

No additional right-of-way is needed at this time.

SITE PLAN

The site is subject to compatibility standards. Along the northern property line, the following standards apply:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.

- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- No parking or driveways are allowed within 25 feet of the property line
- A landscape area at least 15 feet in width is required along the property line if tract is zoned MF-3, MF-4, MF-5, MH, NO, or LO.
- A landscape area at least 25 feet in width is required along the property line if the tract is zoned LR, GO, GR, L, CS, CS-1, or CH.

Additional design regulations will be enforced at the time a site plan is submitted.
