

ENVIRONMENTAL BOARD MOTION 021809-5-C

Date: February 18, 2009

Subject: Leiden Tract Wastewater Service Extension Request #2771

Motioned By: Phil Moncada

Seconded by: David Bezanson

Recommendation

The Environmental Board recommends disapproval **with conditions** to the Leiden Tract Wastewater Service Extension Request #2771

Board Conditions:

1. The Environmental Board recommends that the design of the sewage treatment system benefit reuse of effluent on site, and encourages that the City Council and Austin Water Utility contemplate a design on a high level of treatment.

Rationale

The letter dated October 17, 2008 from the Austin Water Utility denies the request for the service extension request. This site is not in the Desired Development Zone and is located in the Edwards Aquifer Recharge Zone.

Vote 6-0-0-1
