**Boards and Commission Action:** Recommended by the Electric Utility Commission.

---

This contract is for the purchase of Living Disaster Recovery Planning Software (LDRPS) Enterprise Web Version 10, implementation/data migration, hosting services, maintenance, and training for Austin Energy (AE).

The purchase consists of:

\$56,001 for a one time purchase of a software license upgrade,  
\$15,540 per year for four years of annual software maintenance, and  
\$30,000 per year for four years of annual site hosting of Sungard's Disaster Recovery Site

AE's current version of this software is a LAN version, and while it continues to be maintained, it will no longer be enhanced by the vendor as of January 2009. All AE business and IT recovery planning documents, of which there are 50 plus, are built and maintained using this software. This version upgrade acquisition and implementation will allow for an unlimited user, web-based, hosted solution and immediate access to recovery planning information from any internet connection in the event of an impact to the business or corporate data centers.

SunGard Availability Services LP is the sole producer of LDRPS Business Continuity Planning Software and the sole provider of support and maintenance services. This product was designed and developed by SunGard and is sold and supported from its corporate headquarters with no available distributors.

This contract will allow AE to continue to efficiently and effectively mitigate and/or minimize the impact from potential threats to critical services through planning and testing.
