**Subject:** power substation

Dear Ms Harden

I am writing you to express my displeasure for considering the construction of a power substation adjacent to a property used by members of a minority community for education, religious services and social events. I have visited the place numerous times along with my family and will be very reluctant to do so should the city proceed with the proposed construction.

Why will the city not consider this construction closer to the Mueller development? Afterall, the residents of that area will benefit from this station.

I have never seen a power substation next to a church or a school.

Why place one next to a mosque and a school?

As a taxpayer citizen, I urge you to refrain from proceeding with this development.

Sincerly,

Yasmeen Manzur

**Subject:** Construction of power substation on Old Manor Road @ 51st. Street by Austin Energy.

To: Planning Commission

**Attention:** Joi Harden

**RE:** Construction of power sub station by Austin Energy at Old Manor Road / 51st. Street, Austin, TX

I protest against any construction on the property in reference which shall be in violation of understanding between City of Austin and Islamic center of Greater Austin. This property was transferred to City for the sole purpose of easement for drainage. If City feels there is no need of such drainage than the property be returned to previous owners i.e. Islamic center of Greater Austin, Austin, Tx.

MULLER AIRPORT PROJECT HAS MORE THAN ENOUGH LAND TO ACCOMMODATE CONSTRUCTION OF ELECTRIC SUB STATION.

MANOR @ 51ST. STREET IS NOT SUITED. I ALSO DON'T THINK CITY WOULD LIKE TO ADD SUCH AN UGLY CONSTRUCTION AT THE CORNER OF BUSY INTERSECTION.

Thanking

F.H.KHAN

**Subject:** Protest to Austin Energy re-zoning request of the lot at the Corner of Old Manor Rd and 51st Street

Attn: City of Austin Planning Commission

Frm: Amjad Odetallah

Hello,

This e-mail is to express my opposition to re-zoning the lot at the corner of Old Manor Rd and 51st street to build a power sub-station to support the Mueller development project. Please accept my complaint against the planned project on the following grounds:

- 1-The negative impact that a power station would have on the property value in our neighborhood and on the value of our own property. As well as the negative impact that it will have on the appearance of the neighborhood.
- 2-The safety and health hazards that a power substation may introduce to the student of the school across street from the planned power substation.
- 3-I strongly believe that if the Mueller development area needs a power station, then the Mueller development area should accommodate the project and not push it out to neighboring communities.
- 4-I believe that when my community was forced to sell the lot on the corner of Old Manor Rd and 51st street to the City of Austin, our community representatives were then told that this property will be used for drainage easement and would not be used for any project that may impose any health or safety hazards.

Kind Regards,

Amjad Odetallah

**Subject:** Oppose to power substation for Mueller development project

Dear Ms Joi Harden,

I am writing this letter to you in regard to re-zoning request from Austin Energy to build a power sub-station to support the Mueller development project at the corner of Old Manor Rd and 51st Street.

I am a long time Austin resident and absolutely and totally oppose to this request ... This power station will be too close to our children and they will be exposed to safety and health hazards posed by this ... We must put our children and family first, I am very concerned about potential health effects of the electric and magnetic fields (EMF) emanating from such substations.

If there is a need for building the power station then redeveloped Mueller site must accommodate this request and above listed property should not be an option.

Best Regards,

Syed I. Haiderzaidi

**Subject:** Support for ICGA stans against construction of a powr sub station

Hi Harden

Given the reasons provided by ICGA against the building of power sub stations near Manor Rd namely (specifically) below:

1. ICGA is very concerned about the safety and health hazards posed by the proposed substation
2. We are particularly concerned about potential health effects of the electric and magnetic fields (EMF) emanating from such substations

I would request you to reconsider the decision of building of a power sub station near the ICGA property.

Thanks  
Aashiq

**Subject:** electric power sub-station at Manor Rd and 51st Street

Hi Joi,

Hope you are doing good. My name is Syed and we are the residents of the beautiful City of Austin in Travis county TX. I got to know that City of Austin is considering to build an electric power sub-station near the intersection of Manor Rd and 51st street. We have our community center across the proposed site. We conduct our daily and weekly programs in the community center and more importantly we send out our little kids to school in that facility. In my humble opinion the site being considered for a power sub-station project right there is not appropriate. We strongly oppose this proposal and request City of Austin to look for a more appropriate place elsewhere. I hope you understand our concern and take this matter to the planning committee.

Thanks,

--Syed Afzal

**From:** Tahar Boukhria [REDACTED]  
**Sent:** Thursday, October 15, 2009 11:41 AM  
**To:** Harden, Joi

Dear Ms Harden,

It was brought to our attention that the Austin Energy is planning to build an electric substation at the corner of Manor Road and 51th Street. This property (0.5-0.75 acres) was originally purchased from the Islamic Center of greater Austin with the intent of keeping this area as drainage easement. As you may already know, there is a school operating in that land and a place of worship for thousands of citizens. The proposed substation so close to the school will have a potential hazard and health effects of the Electric and Magnetic fields emanating from such substations.

Would you please review this matter and keep this area safe for our children and honor the city commitment to keep this area a drainage easement.

If more information is required, please advise.

Thank you  
Tahar T Boukhria (512-2632712)

**Sent:** Thursday, October 15, 2009 3:24 PM  
**To:** Harden, Joi  
**Subject:** request to not build the power station

Dear Sir,

The City of Austin is considering a rezoning request from Austin Energy to build a high power substation for the Mueller development project at the corner of Old Manor Rd and 51<sup>st</sup> Street. Austin Peace Academy is situated right at the corner of 51<sup>st</sup> Street and Manor Road. My daughter along with some 200 students goes to this school. Building a power station close to a school may cause long term damage to the kids and the residents that are living in that area.

We hope and request the city council to move the substation to a different location considering the safety of these kids.

Regards,  
Tuhin Sarwar.

**Subject:** electric power sub-station

I am writing in opposition to the electric power sub-station that is considering being built across from our mosque and full-time school. I believe it will be harmful to our community members and request that you do not install the electric power substation across from the mosque on Manor Rd and 51st St. Thank you.

VALID PETITION

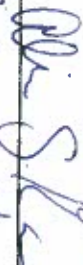

Date: October 16, 2009  
Case Number: C14-2008-0242

To: AUSTIN CITY COUNCIL

Address of Rezoning Request: 2403 E. 51<sup>st</sup> Street, Austin, TX 78723  
Property ID / Ref ID: 213848 / 02181916010000

We, the undersigned members of the Greater Austin community of 10,000 Muslims, do hereby protest against any change of the Land Development Code which would rezone the property to P-NP (Public District) from the currently zoned GR-NP (Community Commercial District). We are worship at and regularly visit the Islamic Center located at 5110 Manor Rd., Austin, TX, 78723, which is right across the street from the property being rezoned.

REASONS FOR PROTEST: The Austin Energy Mueller Substation proposed for this site should be accommodated on the redeveloped Mueller site rather than be located at the said address. The 51<sup>st</sup> Street Reclaimed Water tower and this substation would create a .25-mile frontage of utilities within a .5-mile stretch of E. 51<sup>st</sup> Street, a City of Austin (COA) designated Core Transit Corridor (CTC). Austin Energy does not propose to meet CTC sidewalk/landscape design, and plans to remove a number of protected trees. The "Utility" designation in the Windsor Park Neighborhood Plan was presumed to be drainage easement. COA staff never disputed this during the planning process.

Address of Rezoning Request: 2403 E. 51<sup>st</sup> Street, Austin, TX 78723  
Property ID / Ref ID: 213848 / 02181916010000

We, the undersigned members of the Greater Austin community of 10,000 Muslims, do hereby protest against any change of the Land Development Code which would rezone the property to P-NP (Public District) from the currently zoned GR-NP (Community Commercial District). We are worship at and regularly visit the Islamic Center located at 5110 Manor Rd., Austin, TX, 78723, which is right across the street from the property being rezoned.

REASONS FOR PROTEST: The Austin Energy Mueller Substation proposed for this site should be accommodated on the redeveloped Mueller site rather than be located at the said address. The 51<sup>st</sup> Street Reclaimed Water tower and this substation would create a .25-mile frontage of utilities within a .5-mile stretch of E. 51<sup>st</sup> Street, a City of Austin (COA) designated Core Transit Corridor (CTC). Austin Energy does not propose to meet CTC sidewalk/landscape design, and plans to remove a number of protected trees. The "Utility" designation in the Windsor Park Neighborhood Plan was presumed to be drainage easement. COA staff never disputed this during the planning process.

We are worship at and regularly visit the Islamic Center located at 5110 Manor Rd., Austin, TX, 78723, which is right across the street from the property being rezoned.

REASONS FOR PROTEST: The Austin Energy Mueller Substation proposed for this site should be accommodated on the redeveloped Mueller site rather than be located at the said address. The 51<sup>st</sup> Street Reclaimed Water tower and this substation would create a .25-mile frontage of utilities within a .5-mile stretch of E. 51<sup>st</sup> Street, a City of Austin (COA) designated Core Transit Corridor (CTC). Austin Energy does not propose to meet CTC sidewalk/landscape design, and plans to remove a number of protected trees. The "Utility" designation in the Windsor Park Neighborhood Plan was presumed to be drainage easement. COA staff never disputed this during the planning process.

We, the undersigned members of the Greater Austin Muslim community of 10,000 Muslims, do hereby protest against any change of the Land Development Code which would rezone the property to P-NP (Public District) from the currently zoned GR-NP (Community Commercial District).

REASONS FOR PROTEST: The Austin Energy Mueller Substation proposed for this site should be accommodated on the redeveloped Mueller site rather than be located at the said address. The 51<sup>st</sup> Street Reclaimed Water tower and this substation would create a .25-mile frontage of utilities within a .5-mile stretch of E. 51<sup>st</sup> Street, a City of Austin (COA) designated Core Transit Corridor (CTC). Austin Energy does not propose to meet CTC sidewalk/landscape design, and plans to remove a number of protected trees. The "Utility" designation in the Windsor Park Neighborhood Plan was presumed to be drainage easement. COA staff never disputed this during the planning process.

Address of Rezoning Request: 2403 E. 51<sup>st</sup> Street, Austin, TX 78723

Case Number: C14-2008-0242

Property ID / Ref ID: 213848 / 02181916010000

To: PLANNING COMMISSION AND AUSTIN CITY COUNCIL

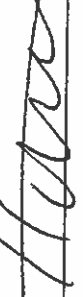

We, the undersigned owners of property affected by the requested zoning change described in the referenced file, do hereby protest against any change of the Land Development Code which would rezone the property to P-NP (Public District) from the currently zoned GR-NP (Community Commercial District).

REASONS FOR PROTEST: The Austin Energy Mueller Substation proposed for this site should be accommodated on the redeveloped Mueller site rather than be located in Windsor Park. The 51<sup>st</sup> Street Reclaimed Water tower and this substation would create a .25-mile frontage of utilities within a .5 -mile stretch of E. 51<sup>st</sup> Street, a City of Austin (COA) designated Core Transit Corridor (CTC). Austin Energy does not propose to meet CTC sidewalk/landscape design, and plans to remove a number of protected trees. The "Utility" designation in the Windsor Park Neighborhood Plan was presumed to be drainage easement. COA staff never disputed this during the planning process.
