Recommended by the Commission contingent that a quarterly update on a program level is received
SUBJECT: from Public Works that includes the water & wastewater participation dollars.

The Water and Wastewater Commission recommends authorization to the Public Works Department to accelerate delivery of the **2006 Bond Proposition 1 Projects**. Dennis Crabill, Public Works Program Consultant, will brief the Water and Wastewater Commission on the 2006 Bond Proposition 1 projects and seek a one-time approval for Austin Water Utility participation in all projects included in the program. This will create efficiency in the process and support the acceleration of the projects. If Austin Water Utility participation in any particular project varies significantly from what is presented, separate approval will be sought for that project.
