This project is a construction (relocation) of water lines and facilities within the State's contract to widen State Highway (SH) 71 West from west of Arroyo Canyon to west of Southwest Parkway.

The City's improvements consist of the replacement and relocation of 3,600 linear feet of existing 6-inch ductile iron (DI) waterline with a 12-inch DI waterline and the installation of six new fire hydrants, eight new service lines, a new 2-inch air release valve and other appurtenances and incidentals. All construction dates are dependent upon TxDOT letting and is tentatively scheduled for January 2010.
