A proposal renaming an isolated portion of AUTUMN BAY DR. has been initiated by the Developer to provide continuity of the street name. The Right of Way for AUTUMN BAY DR. was originally dedicated in two separate pieces of two separate phases of the subdivision. Subsequent re-working of an intersection made it impossible for the two pieces of the street to connect. Instead, this portion will connect with a different street, BRECKENRIDGE DR.

The property owner agrees with this proposal. Staff has determined this request to be consistent with the City's Codes and Policies and recommends approval of the ordinance.
