**For More Information:** Drema Gross, 974-2787; Denise Avery, 972-0104

**Boards and Commission Action:** Recommended by the Water and Wastewater Commission and the Resource Management Commission.

---

Austin Water Utility requests authorization to issue a rebate in an amount not to exceed \$99,000 to ASSET PLUS for the purchase and installation of up to 495 1.28 gallon, high efficiency tank-type toilets (revised from the original application for 542 toilets based on pre-inspection results) at Trestles of Austin Apartments located at 1071 Clayton Lane Austin, TX 78723 in accordance with the City of Austin's Toilet Rebate Program guidelines. The rebate is for the cost of toilets and installation by a Texas licensed plumber up to a maximum of \$200 per toilet. The application for Trestles of Austin was received on September 28, 2009 prior to the suspension of the Multi-family and Commercial Toilet Rebate Program.

This program is designed to replace old large-capacity toilets with water efficient models. The replacement of these toilets is expected to save approximately an estimated 8,464 gallons per day, reducing demands on the Utility's treatment capacity and decreasing greenhouse gas equivalents by an estimated 7.63 metric tons per year.

Cost of Data:

1. Cost of This Item - \$99,000
2. Total Estimated Gallons Saved - 46,340,400 gallons over a 15 year lifetime
3. Cost Per Gallon Saved - \$2.14 per thousand gallons
