Neighborhood Planning & Zoning

Upper Boggy Creek Neighborhood Planning Team

Minutes from May 29, 2007 Special Meeting

In attendance, Voting Members:

Jay Velgos (WWD1); Brad Roseman (D2); Kathy Bolstorff (D2); Leslie Lawson (WWD1); Bo McCarver (BL); Girard Kinney (CW); Wade McElroy (CW); Johnnie M. Overton (BL); Isaiah Tibbs (WWD1); Lavon Marshall (RWHC); Ora Houston (BL); Edna Parra (RWHC); Ken Ronsonette (D2); Michael Bray (CW)

AGENDA

- 1. Read and approve minutes from May 15, 2007 Meeting
- 2. Verify Neighborhood Representation
- 3. Discuss Vertical Mixed Use preferences for each of the UBC subdistricts and record decisions for reporting to the City of Austin Motion to Endorse Each Subdistrict's VMU Recommendations. Vote: 14 For; 0 Against
- 4. Discuss and decide on UBC-wide preference for economic threshold on affordable housing: 60 percent, 70 percent, or 80 percent Median Household Income.

Motion to Recommend Planning Area-Wide Affordable Housing for MHI at 60 percent. Vote: 10 For; 4 Against; 1 Abstain

- 5. New Business: None
- 6. Adjourn at 8:10 pm

From: Jay Velgos <i velgos@austin.rr.com>

Greetingsl

Sorry for the late reminder of this meeting...

WHAT: Upper Boggy Creek Neighborhood Planning Team Special Meeting

WHEN: Tuesday, May 29 - 6:30 - 8 pm

WHERE: Kieberg Hail at St. George's Church (4301 N. I-35 at Ardenwood Road)

As we discussed two weeks ago, the Upper Boggy Creek Neighborhood Planning Team will convene a SPECIAL MEETING to finalize our decisions regarding the properties in our area that we wish to opt in or out of the Vertical Mixed Use Ordinance.

I am hopeful this will be a short meeting. All that's required is that the VMU representatives from each of the neighborhoods be ready with their lists.

ALSO ...

Here's my latest roster of UBC Representatives from each of the neighborhoods. Please let me know if I've left anyone off. (You should be able to see everyone's e-mail addresses in the TO field of this message.)

Delwood 2
Kathy Bolstorff - Homeowner
Robyn Hembree - Homeowner
Brad Roseman - Business Owner
Desiny Villarreal- Homeowner / alternate

Wilshire Wood/Delwood 1 Leslie Lawson - Homeowner Jay Velgos - Homeowner Isalah Tibbs - Business Owner

Cherrywood
Amy Brotman - Homeowner
Dorothy Wade - Homeowner
Wade McEiroy - Business Owner
Tom Wald - Renter
Michael Bray - Homeowner Alternate
Girard Kinney - Business/Homeowner Alternate

Blackland
Ora Houston - Homeowner
Johnnie Overton - Homeowner
Evoila Givan - Renter
Arellio Torres, Business Representative
Bo McCarver - Alternate Business Representative/Homeowner

Rogers-Washington/Holy Cross Billy Thogerson - Homeowner Lavon Marshall - Homeowner Tammy Carter - Renter Bonnie Cullum - Business Owner

See you tomorrowl

- Jay Velgos Chair, Upper Boggy Creek Neighborhood Planning Team RECEIVED

JUN 0 4 2007

VERTICAL MIXED USE OPT-IN FORM

Neighborhood Planning & Zc

This form was prepared for the Cherrywood Neighborhood (a Subdistrict of the Upper Boggy Creek (UBC) Neighborhood Planning Area). It includes all properties within the Cherrywood Subdistrict, as well as the area within the large trapezoid formed by Manor Road, IH35E Frontage Road, Dean Keaton and La Fayette, which is not within the boundaries of UBC, but which is within the boundaries of the Cherrywood Neighborhood Association.

SPECIAL REQUEST FROM CHERRYWOOD SUBDISTRICT

Because we anticipate that some, if not all, of the other four subdistricts that comprise UBC will take advantage of the opportunity to amend their plans over the 45 day amendment period, and because Cherrywood does NOT plan to amend its plan, we hereby request that Council consider and accept our recommendations regarding VMU for our subdistrict ONLY out of sequence and as soon as possible. Because we understand that one possible obstacle to doing this is the fact that the entire UBC Planning Area must agree upon the Affordable Housing %of MFI, UBC has agreed NOT to amend its recommendation of 60% of MFI which we assume removes this obstacle.

ACCEPTING ALL DEVELOPMENT INCENTIVES

For ALL VMU properties, Cherrywood recommends OPT-IN to all development incentives (Dimensional Standards, Parking Reductions for commercial uses, Ground Floor Uses in NO, LO and GO districts, and all VMU related standards.

TRAPEZOID FORMED BY MANOR ROAD, IH35E, DEAN KEATON & LA FAYETTE

OPT-IN:

Manor Road (north side only): 1114 – 1820 IH35E: 2329-2601 Dean Keaton (south side): 1201-1309 La Fayette (west side): 2304-2314

CHERRYWOOD NEIGHBORHOOD SUBDISTRICT

VMU OVERLAY DISTRICT PROPERTIES

Manor Road (north side only): 1900 – 4021

(We accept all commercially zoned properties fronting on the North side of Manor Road as being within the VMU overlay)

Airport Blvd (west side only): 3712-3750, 4020-4300

(We accept all commercially zoned properties fronting on the west side of Airport Blvd as being within the VMU overlay)

JUN 0 4 ZUU1

IH35E:

OPT-IN:

2901-4021

Neighborhood Planning & Zonli

E38th½ (north side only):

1204-1406 (all properties from IH35 to the RR tracks)

Additionally, there are several properties that front on Manor Road and IH35 which have addresses on side streets (E.33th Larry Lane & Randolph). Where these properties are oriented to these major streets, we intend for them to have the VMU designation

MF PROPERTIES:

Note that there are several properties that are zoned MF that front on the north side of Manor Road (2504 – 2604 & 2700-2706), as well as properties which have addresses sid streets, but which front on Manor Road and IH35 (E32nd, Walnut, Larry Land & Randolph). Cherrywood is working with the Planning Commission subcommittee to rezone these properties to a commercial zoning mixed-use designation (CS-MU, LO-MU, etc.) so that they can receive the VMU designation. The Cherrywood Subdistrict requests that these properties be approved by Council to receive the VMU designation, pending a zoning change that would make them eligible. Thus, we want ALL properties that front on Manor Road and IH35E, both commercial and MF, to have the VMU designation.

AFFORDABLE HOUSING

Cherrywood supports the UBC decision to recommend 60% MFI for the affordable housing threshold, and although it is not anticipated, we would support any amendment to that decision that may arise in order not to delay the VMU designations within our subdistrict.

OVERVIEW OF VERTICAL MIXED USE (VMU) AND THE VMU OPT-IN/OPT-OUT PROCESS

WHAT IS A VERTICAL MIXED USE BUILDING?

A vertical mixed use building contains a mix of residential and commercial uses. Typically, commercial uses (i.e. retail shops, restaurants, offices) are located on the ground floor, while residential units (condom iniums or apartments) are located on upper levels. B elow, are some examples of a vertical mixed use building:

WHAT IS THE VERTICAL MIXED USE (VMU) OVERLAY DISTRICT?

In an effort to encourage vertical mixed use buildings, the City Council established a vertical mixed use (VMU) overlay district. The district includes most commercially zoned and used properties along Core Transit Corridors and Future Core Transit Corridors as defined in the Commercial Design Standards. Core Transit Corridors include roadways that have or will have a sufficient population density, mix of uses, and transit facilities to encourage and support transit use. Examples include sections of South Congress Avenue, Riverside Drive, North and South Lamar Boulevard, and Guadalupe Street. Properties within this district have the additional option to develop a vertical mixed use building subject to specific design standards.

WHY VERTICAL MIXED USE BUILDINGS?

- · Encourages density on commercial corridors with higher levels of transit service
- · Focused on the creation of a high quality pedestrian and tran sit-supportive environment
- Consistent with Envision Central Texas (ECT) Preferred Scenario
- Provides a more sustainable development pattern

WHAT ARE THE STANDARDS FOR A BUILDING?

- Must have a mix of uses
- Must have pedestrian-oriented spaces on the ground floor
- Must contain residential dwelling units
- Possibility for relaxed site development standards—some of which require a residential affordability component

WHAT ARE THE RELAXED SITE DEVELOPMENT STANDARDS?

<u>Dimensional Standards</u>

These dimensional standards listed below are a "package" and must be accepted or rejected as such in the opt-in/opt-out process.

- Setbacks—no minimum front, street side or interior side yard setbacks. A setback refers to how far a building must be placed from a particular property line.
- Floor to Area Ratio—no floor to area ratio (FAR) limit.

The floor area ratio (FAR) is the principal bulk regulation controlling the size of buildings. FAR is the ratio of total building floor area in relation to the area of its zoning I ot. Each zoning district has an FAR control which, when multiplied by the lot area of the zoning I ot, produces the maximum amount of floor area allowable in a building on the zoning lot.

For example, on a 10,000 square-foot zoning lot in a district with a maximum FAR of 1.0, the floor area of a building cannot exceed 10,000 square feet.

- Building Coverage—no building coverage limit. Most zoning districts place a percentage
 limit on the amount of a lot that may be covered by a building. This provision would not
 change the amount of impervious cover allowed on site. Impervious cover is anything that
 stops water from being absorbed into the ground and includes such things as buildings,
 driveways, and sidewalks.
- Minimum Site Area—no "minimum site area" requirements. Site area requirements limit the
 number of dwelling units on a site by requiring a certain am ount of square footage at a site
 for a specific type of multi-family unit (efficiency, one-bedroom, two-bedroom, etc.). For
 example, if a zoning district for a 10,000 square foot lot requires 2,500 square feet for each
 two-bedroom unit, then four two-bedroom units can be built on that lot.

Off-Street Parking Reduction

Minimum off-street parking for the commercial uses within a VMU building can be reduced to 60% of the normal Land Development Code requirements. Residential uses within a VMU building receive this parking reduction by right and cannot be changed thr ough this process. The parking reduction cannot be used in addition to any other parking red uction allowances

such as the one for properties within the Urban Core. Below are some typical uses and the amount of parking required.

- A small restaurant or bar, billiard parlor—one space per 100 sq/ft of floor space
- Convenience Store, bank, bowling alley, liquor store, barber shop, yoga studio, pet shop one space per 275 sq/ft of floor space
- Fumiture or carpet store—one space per 500 sq/ft of floor space

Additional Ground Floor Commercial Uses in Office Districts

If approved through the opt-in/opt-out process, the following commercial uses will be allowed in a VMU building in an office zoning district (NO, LO, GO):

- Consumer convenience services (all ows private postal boxes, safety deposit boxes, and ATMs)
- Food Sales (allows grocery stores, delicatessens, meat markets, retail bakeries, and candy shops),
- General Retail Sales Convenience and General (all ows a full range of retail establishments)
- Restaurants Limited and General (without drive-thrus).

Zoning use information can be found starting on page 45 of the following document: http://www.ci.austin.tx.us/zoning/downloads/np_quide.pdf.

WHAT IS THE OPT-IN/OPT-OUT PROCESS?

The City Council established a one-time process whereby neighborhoods provided recommendations on the location and the developm ent characteristics of Vertical Mixed Use (VMU) buildings. Application materials were sent to each registered neighborhood planning team, or neighborhood association if there was not an established planning team.

The Neighborhood Planning & Zoning Department is currently in the process of reviewing the application submittals and forwarding the neighborhood recommendations to Planning Commission and City Council. The Planning Commission reviews the neighborhood requests and forwards a recommendation to City Council. After considering the Neighborhood's and Planning Commission's recommendations, the City Council makes a decision on the vertical mixed use application.

WHAT TYPES OF RECOMMENDATIONS CAN BE MADE BY THE NEIGHBORHOOD?

- Amend the boundaries of the vertical mixed use overlay district to remove a property from the overlay district. If a property is removed from the overlay district, a vertical mixed use building is not permitted on the property.
- Allow for the vertical mixed use building option on properties outside of the VMU Overlay. A
 neighborhood can recommend to opt-in a commercially zoned property with any of the
 relaxed dimensional standards.
- VMU Overlay District Opt-Out—the neighborhood can recommend to remove some or all of the relaxed site development standards to the VMU eligible properties within the overlay district.

4) Affordability Level—If VMU Buildings are approved through the opt-in/opt-out process and take advantage of the dimensional and/or parking exemptions they are subject to certain affordability requirements.

Owner-Occupied Units—Five percent of residential units shall be affordable for households earning no more than 80 percent of the current Median Family Income (MFI). Five percent of the residential units shall be affordable for hou seholds earning no more than 100 percent of the MFI. The affordability period is 99 years.

Rental Units—Ten percent of the residential units shall be affordable for households earning no more than 80 percent of the current MFI. As part of the opt-in/opt-out process, a neighborhood association or neighborhood planning team may request that the affordable rental units be available for renters earning a lower percentage of the median family income. This percentage can range from 80% to as low as 60 percent of the median family income. The affordability period is 40 years.

OTHER FREQUENTLY ASKED QUESTIONS:

DO I HAVE TO BUILD A VERTICAL MIXED USE BUILDING IF I GET REZONED THROUGH THE OPT-IN/OPT-OUT PROCESS?

The vertical mixed use combining district adds an additional development *option* to a property. Any property owner that gets their pro perty rezoned through the opt-in/opt-out process to add the vertical mixed use building "V" combining district will still have the right to (re)develop under their existing base zoning district.

HOW HIGH CAN A VERTICAL MIXED USE BUILDING BE BUILT?

A vertical mixed use building cannot be built any higher than the base zoning district. For example, if your zoning is GR-V (community commercial-vertical mixed use building-combining district), the height limit would be 60 feet which is permitted under GR zoning.

IF THERE IS NO MINIMUM FRONT, STREET SIDE OR INTERIOR SIDE YARD SETBACKS CAN A VMU BUILDING BE BUILT RIGHT ON MY PROPERTY LINE?

The City of Austin requires compatibility standards to help minimize negative impacts between low-intensity and high-intensity uses. Any lot zoned for condominium, multifamily, office, commercial, or industrial uses must comply with compatibility standards if it is adjacent to, across the street from, or within 540 feet of a single-family zoning district or use.

HOW WILL I KNOW IF/WHEN A VERTICAL MIXED USE BUILDING IS BEING CONSTRUCTED?

Any property owner/developer who chooses to construct a vertical mixed use building must submit a site plan to the City. Filing of a site plan requires a notice of application be sent to all property owners and registered neighborhoo d organizations within 300 feet of the site via US Mail.

WHAT CAN I DO IF I DO NOT AGREE WITH THE NEIGHBORHOOD RECOMMENDATION?

The Opt-In/Opt-Out process includes two public hearings, first at Planning Commission and then at City Council. If you do not agree with the neighborhood recommendations you can submit a public comment form or email the zoning case manager with your comments. All comments will be forwarded to both Planning Commission and City Council. There is also an opportunity to attend the public hearings and state your comments directly to the Commissioners and City Council members.

HOW CAN I GET A VMU BUILDING ON MY PROPERTY IF I AM NOT IN THE OVERLAY DISTRICT?

Any property owner can apply for a re zoning of their property to add the vertical mixed use building "V" combining district. The Planning Commission reviews the applicant's request and forwards a recommendation to City Council.

IF THERE IS NOT A MINIMUM BUILDING COVERAGE REQUIREMENT, ARE THERE ANY OTHER LIMITATIONS ON BUILDING COVERAGE ON A LOT?

The City's impervious cover limits and compatibility standards will still apply.

WHERE CAN I FIND MORE INFORMATION ABOUT THE COMMERCIAL DESIGN STANDARDS AND VMU?
