DEFINITIONS

Information includes any data about people, organizations, events, incidents, or objects, regardless of the medium in which it exists.

Intelligence is the product of an analytical process that provides an integrated perspective to disparate information about crime, crime trends, crime and security threats, and conditions associated with criminality.

Law includes any applicable local, state, tribal, territorial, or federal statute, ordinance, regulation, executive order, policy, or court rule, decision, or order, as construed by appropriate local, state, tribal, territorial, or federal officials or agencies.

Need to Know is established when, as a result of jurisdictional, organizational, or operational necessities, access to sensitive information or intelligence is necessary for the conduct of an individual's official duties as part of an organization that has a right to know the information in the performance of a law enforcement, homeland security, or counter-terrorism activity, such as to further an investigation or meet another law enforcement requirement.

Right to Know is established when, based on having legal authority or responsibility, or pursuant to an authorized agreement, an agency or organization is authorized to access sensitive information and intelligence in the performance of a law enforcement, homeland security, or counter-terrorism activity.

I. AUTHORITY

Authority for entering into this Agreement is found in the Interlocal Cooperation Act, Texas Government Code Chapter 791. This Agreement is not intended, and should not be construed, to create any right or benefit, substantive or procedural, enforceable at

II. PURPOSE

This Agreement establishes and outlines the intent of the Partner Agencies to centralize effort and co-locate. The Mission of the ARIC is to provide a centralized, comprehensive, multiagency criminal information and intelligence sharing network to enhance the operational effectiveness and efficiency of the law enforcement agencies involved in order to better protect the public. ARIC will provide real-time actionable criminal intelligence by utilizing technology to identify trends and patterns in criminal activity.
