

THE FOLLOWING IS A LIST OF MOBILITY NEEDS IDENTIFIED BY THE COMMUNITY. THE CITY MANAGER'S DRAFT RECOMMENDED 2010 TRANSPORTATION BOND PACKAGE WILL INCLUDE SOME PROJECTS IDENTIFIED HERE. THE DRAFT RECOMMENDATION WILL BE RELEASED JUNE 14, 2010.

The ASMP master database consists of "Gaps" in the regional mobility network as identified by the citizens of the community, the City of Austin, and our local/regional agency partners. Also included are planned projects from across the region, including various plans (i.e., master plans, CIPs, etc.) by the City, Capital Metro, and CAMPO. All gaps indicated in this list were scored and evaluated on their merits. As a bond package is developed, all types of projects could be funded as money becomes available. Some of the gaps have aggregated comments to include reoccurring gap comments.

**Metadata with descriptions of each field and the values contained within can be found at the end of this list.*

Key to Abbreviations: ATD-Austin Transportation Department; CAMPO-Capital Area Metropolitan Planning Organization; CIP-Capital Improvement Plan/Program; COA-City of Austin; NCD-Neighborhood Connectivity Division; NPD-Neighborhood Planning Division; PWD-Public Works Department; TTI-Texas Transportation Institute

ROW	ID	TYPE	SPECIAL PROJECT NAME	STREET 1	STREET 2	EXTENT	COMMENT	ZIP	COMMENT SOURCE	JURISDICTION	PRIORITY	SCORE
1	5985	Multi-modal		Lavaca St	Guadalupe St	Corridor	Relocation of Utilities in the Lavaca/Guadalupe Corridor - Within 18-24 months, Capital Metro will launch service of its new rapid bus service which will use Guadalupe and Lavaca to serve downtown. Utilities should be moved before start of service so future work doesn't interfere with bus operation.	78701	Neighborhood	COA	A	92.08
2	1041	Bicycle	Bicycle Boulevard	Nueces St/Rio Grande		3rd St to MLK	Needs to be transformed to a bicycle boulevard.	78701	Citizen	COA	A	91.15
3	592	Traffic	IH 35 Corridor	IH 35		Slaughter to US 183	Congestion on I35. What causes everyone slowing down crossing the river. I35 bx 38th & river during rush hour and all I35; entry ramps n. of CC dangerous; also on-ramp north of 32nd st. IH-35 at Cesar Chavez entrance ramp/exit ramp to 6-12th St - Creates bottleneck for northbound motorists on IH35. Close or re-design it. I can't get from my house in Windsor Park to anywhere. If the Metro ever gets working, 3/4 of potential users of the Highland Mall stop will never use it because they have to trudge through an intersection of homeless people, missing sidewalks, impassable St crossings, and general contempt for anyone not in a car. Reconstruction of IH 35 as per MIS plans.Widen outside curb lane, add signage and shared lane markings; off-street facility needs to added along north bound IH-35 frontage road to connect to 32nd street. Construct Texas U-Turns/Widen bridge Widen frontage road approaches. longer ramps on I35 near UT. safety issue on I35 lower deck. sb I35 needs st. johns exit when apd moves there. walkways along txdot roads-Because of a lack of sidewalks and signs, when on Waller and trying to go southbound to Riverside, people actually ju	78701/78702	Citizen	TxDOT	A	91.10
4	1739	Multi-modal	Riverside Corridor	Riverside Dr		IH35 to SH71	Riverside (I35 to HW71) Separated Bike Path East riverside corridor plan in TAG review calls for a separated bicycle lane.	78741	COA-PWD NCD	COA	A	90.58
5	2096	Roadway	3rd St Recon. / Lance Armstrong Bikeway	3rd St		Nueces to Trinity	From Nueces to Trinity- Design, Lance Armstrong Bikeway LAB. LAB 3rd (Shoal Creek to Trinity) Bike Lanes Kevin Sweat is heading up the design for the reconstruction of 3rd. .	78701	COA-CIP	COA	A	85.58

6	316	Multi-modal		Manchaca Rd			Add Manchaca bike lanes. Need bus pullouts all along Manchaca as well as left turn lanes. Park & Ride or train depot in Manchaca to relieve traffic on Brodie, S. 1st, IH35.	78704/78745/78748	Citizen	COA	A	85.48
7	5080	Bicycle		Braker Ln		Jollyville Rd to Metric Blvd	Narrow median to widen pavement width and install bike lane. Braker (Kramer to Burnet) Lane Diet Road is 36' on each side of the median. Braker (183 to Jollyville) Lane Diet Road is 27' wide on each side of the median. Braker (MOPAC to 183) Lane Diet Road is 36' on each side of the median.	78759/78758	COA-PWD NCD	COA-PWD	A	85.48
8	1801	Roadway	FM 969/Martin Luther King Jr Blvd Corridor Study	MLK Blvd Corridor		US 183 to Webberville	Expand to 4 lane divided major arterial Corridor Study	78724/78725	CAMPO	COA	A	84.98
9	510	Transit	Access to Downtown/Urban Rail	Guadalupe/Lavaca Downtown Loop		#REF!	Downtown circulation and access	78719	Citizen	COA	A	83.42
10	602	Multi-modal	Walnut Creek Hike and Bike Trail				use Little Walnut Creek as hike/bike trail to connect Red Line stop at Kramer nh	78752/78753/78754/78758	Citizen	COA	A	82.93
11	2075	Multi-modal	Boardwalk Trail at Lady Bird Lake	Boardwalk Trl	Lady Bird Lake Trl	Austin American-Statesman to Lakeshore Park	From Austin American-Statesman to Lakeshore Park- Design. Lady Bird Lake Boardwalk proposed that would be a 12' hike and bike trail filling the gap on the SE section of Lady Bird Lake Improves pedestrian and bicyclist safety by eliminating on-street portion of the trail; Adds to the usefulness of the trail as a transportation asset as well as a recreational asset	78704/78741	COA-CIP	COA	A	82.27
12	5979	Great Streets		Sabine St/6th St Pedestrian Promenade			Sabine Street/6th St Pedestrian Promenade — Because of the relationship between E. 6th, Sabine and the emerging Waller Creek District, the two streets should be designed together. Design and Construction of Sabine Street Pedestrian Promenade - In conjunction with the East 6th Street design and construction and with the city's investment in Waller Creek	78701	Neighborhood	COA	A	82.27
13	5982	Great Streets		E 2nd St		Convention Center to Water Treatment Site	Construction of East 2nd Street Great Streets Improvement - East 2nd Street is "shovel ready" and would complete the very successful work already completed on 2nd Street west of Congress Avenue. This would complete an important link from the Convention Center to the Green Water Treatment redevelopment site.	78701	Neighborhood	COA	A	82.27

**Austin Strategic Mobility Plan
List of Community Needs
Identified as of June 1st, 2010**

14	2344	Multi-modal	Airport Blvd Corridor	Airport Blvd			There is much community interest in the transformation of Airport Boulevard from a fast-moving highway to a multi-modal urban street. In coordination with representatives of the Wilshire/Delwood I and Delwood II neighborhoods, we would strongly encourage and support: The introduction of bike lanes on the street, as per the City's own Bike Plan; Exploration of narrower vehicular travel lanes (e.g., 11-feet, as part of the bike lane improvement) for traffic calming purposes; Sidewalks along both sides of the street leading to the Mueller Greenway system; and Improved crosswalks and longer "green time" for pedestrians at the Aldrich Street intersection, and consideration of a new pedestrian crossing at Schieffer Street.	78721/78722/78723/78702			A	81.88
15	387	Roadway	Mopac Corridor	Mopac Corridor	US 183		Mopac access from LBlake to US 183 esp at rush hour. ROW constraints. Mopac & lake Austin: delay to enter Mopac Conduct a study to close ramps. Construct Texas U-Turns. Install noise walls	78703	Citizen	TxDOT	A	80.25
16	512	Transit	Access to Downtown/Urban Rail	Muelller to Downtown Rail			rail connecting downtown to Mueller	78723	Citizen	COA	A	79.70
17	262	Bicycle		Guadalupe St		45th St to Downtown	Pedestrian capacity project approx. .3 mi to enhance pedestrian facilities in area adjacent to UT Austin. Stripe bike lane in both directions; some areas require parking removal, while some can accommodate parking; Some areas will require road widening.	78705	Citizen	COA	A	79.55
18	308	Bicycle		IH 35	4th St		Improve bike xing IH35 & 4th. bike lane gap 4th st w. of IH35.	78702	Citizen	TxDOT	A	79.25
19	884	Bicycle	"Y" at Oak Hill	US 290		SH 71 to Mopac	US 290 needs continuous sidewalks in this area. Also, trails along Williamson Creek and Gaines Creek can serve as transportation corridors for bicycles and pedestrians, so they don't have to use US 290. The highway is the main transportation corridor from Oak Hill to the rest of Austin. we need more bike/ped infrastructure here because I see folks walking and biking along the highway and frontage roads, which are congested with vehicles.	78749	Citizen	TxDOT	A	79.12
20	517	Transit	Access to Downtown/Urban Rail	Airport (ABIA) to Downtown Rail		#REF!	Rail between ABIA and downtown	78741	Citizen	COA	A	78.95
21	2079	Pedestrian		Johnston Ter		Govalle/ Johnston Terrace	Create safe routes to school especially for the kids from Johnston Terrace that walk to Allan Elementary.	78702/78721	COA-PDR NPD	COA-ATD	A	78.23
22	247	Bicycle		IH 35	Trails		ped/bike bridge under I35-connect north and south trails along LBL	78741	Citizen	TxDOT	A	77.90
23	1077	Bicycle	Barton Creek Overpass	Mopac		Southwest Pkwy to Bee Caves Rd	Keep extending that sidewalk and bike lanes South along Mopac. We need a pedestrian and bike bridge across Barton Creek along MoPac.	78746	Citizen	TxDOT	A	76.90

**Austin Strategic Mobility Plan
List of Community Needs
Identified as of June 1st, 2010**

24	1155	Traffic	US 183 Corridor	US 183		US 290 to ABIA	It's really ridiculous that I can't drive down 183 from NW Austin directly to the airport without going through numerous stoplights, a tight bridge and merge over the Colorado River, and then more stoplights. Can't we find a more "express" way to the airport? I'd be willing to pay a fairly sizable toll if there was a direct road from near the 183/290 intersection to the airport - something that would allow me to skip all the lights and the bridge. EB on 51st needs dual right turns onto sib 183.	78721/78723/78724/78725	Citizen	TxDOT	A	76.63
25	2330	Roadway	7th St Conversion	7th St		IH-35 to Guadalupe Street	Improves usability of Downtown grid and reduces confusion for motorists; I would propose that the City work with TXDOT to consider one of two things: 1) Convert the RH/through lane to Through only and convert the RH-only lane to RH/Through. The latter change would require eliminating the parking lane in the 700 block of the frontage road. The goal would be to disperse the Through traffic over the two lanes to shorten the queue. Those drivers who would turn right onto 8th would not usually be at the front of the queue, so would not be able to turn right on red. However, they would also no longer be making dangerous maneuvers to get to that lane. A potential problem with that solution is that if the current volume of traffic that actually does get to make that turn on red is very high, keeping them in that lane during the red time might simply result in long queues in both lanes, doing nothing to improve the safety for exiting traffic. So as a complement or an alternate: 2) Change 9th St to two-way traffic (and install some channelizing device to prevent exiting traffic from trying to make the t	78701	Downtown Austin Alliance		A	76.58
26	1713	Bicycle		McNeil Rd		Parmer to McNeil Merriltown	McNeil Dr (Parmer to McNeil Merriltown) Bike Lanes Has a 27' wide boulevard section and 60' wide undivided section that both could accommodate bike lanes	78727	COA-PWD NCD	Travis County	A	75.77
27	1125	Multi-modal		SH 360	US 183		Bicycle and pedestrian access are poor. A cyclist connecting between the Mesa bike route and the Jollyville bike route must dismount several times. We need improved connectivity through better bike lanes/trails on both sides of 360 at this intersection.	78759	Citizen	TxDOT	A	75.52
28	5049	Traffic		Manor Rd			Manor Road defines the southeasterly edge of the Mueller neighborhood. It is currently operating in a four-lane configuration with no sidewalks and no bike lanes. The protracted curve of the road and the lack of any stops along its length have raised issues of concern related to traffic speeds and safety for bikes and pedestrians. Road diet with striping for a bike lane and signage.	78723	Neighborhood	COA	A	74.53
29	1521	Traffic		5th St	Pleasant Valley Rd		NB / SB LT Lanes.	78702	COA-ATD Signals	COA	A	74.23
30	1503	Traffic		7th St	Pleasant Valley Rd		Add SBRT.	78702	COA-ATD Signals	COA	A	74.02
