A city must have budgeted for and provided a source of funds in order to enter into a contract. For the City to spend money today, but reimburse itself from the issuance of debt obligations in the future, state and federal law require the City to issue a reimbursement resolution. Failure to adopt a qualified declaration of official intent will prohibit the City from reimbursing the cost of this project with the proceeds of tax-exempt obligations.

The resolution must contain certain information to protect the tax-exempt status of the future debt issuance. The reimbursement resolution must be adopted not more than 60 days after the date that a project expenditure is made or incurred. The tax exempt obligations must be issued not later than 18 months after the date that the expenditure was made, or if later, the date that the project with respect to which the expenditure was made, is placed in service, but in no case, no more than three years after the date that a project expenditure subject to the reimbursement is paid.

This action expresses the City Council's intent to authorize reimbursement for costs included in the 2009-2010 Amended Capital Budget in the amount of \$350,000 in General Obligation Public Improvement Bonds for the Asian American Resource Center.
