A city must have budgeted for and provided a source of funds in order to enter into a contract. For the City to spend money today, but reimburse itself from the issuance of debt obligations in the future, state and federal law require the City to approve a reimbursement resolution. The resolution must contain certain information and protect the tax-exempt status of the future issuance. Failure to adopt a qualified declaration of official intent will prohibit the City from reimbursing the cost with the proceeds of tax-exempt obligations. Reimbursement bonds generally must be issued no later than 18 months after the later of, the date the expenditure was made, or the date that the project with respect to which the expenditure was made, is placed in service.

This action expresses the City Council's intent to authorize the reimbursement for costs associated with 2009-2010 Approved Capital Budget items for General Obligation debt, as described below:
