Venue meets criteria	<input type="checkbox"/> Yes <input type="checkbox"/> No
Notified that permit is owned by the City of Austin	<input type="checkbox"/> Yes <input type="checkbox"/> No

#### RECORD OF FACTS:

The Allan House is a restored mansion in downtown. It is used for weddings and events.

#### RECORD OF MITIGATION:

At our direction, the owner had (4) 30 foot rolls of Acoustifence material professionally installed along his west and east fence line. This required the construction of a secure metal framework from which to hang the very heavy material. He has stated that he is willing to continue working with the city and his neighbors in order to achieve and maintain non-disruptive sound levels for his events.

The band or DJ must set up at the midpoint of the west fence line, facing east. Speaker orientation is to be east facing and any speakers are to be positioned no higher than 5 feet, at least one foot below the top of the Acoustifence material. No Sub Woofers using speakers larger than 15" are to be used at any time.

TIME OF AMBIENT NOISE: 3:45 PM

PHOTO OF VENUE TAKEN AND ATTACHED: Yes
