

ZONING CHANGE REVIEW SHEET

CASE: C14-2010-0178 (ABBA Wig Salon)

P.C. DATE: December 14, 2010

ADDRESS: 1105 Kramer Lane

OWNER/APPLICANT: Araceli & Mario Franco

ZONING FROM: NO-NP

TO: GO-MU-NP

AREA: 0.4316 acres

SUMMARY STAFF RECOMMENDATION:

The staff recommends GO-MU-CO-NP, General Office-Mixed Use-Conditional Overlay-Neighborhood Plan District, zoning. The conditional overlay would limit the development intensity for the site to less than 2,000 vehicle trips per day, would permit Personal Services as the only 'GO' district use and permit all other 'NO' district uses, and would limit the property to 'NO' district site development standards.

PLANNING COMMISSION RECOMMENDATION:

12/14/10: Approved the staff's recommendation of GO-MU-NP zoning, with addition condition to limit the size of the proposed sign on the property to 4 ft. x 4 ft. through a public restrictive covenant that will be signed prior to 3rd reading of the case at City Council (6-0, Reddy, Chimenti, and Hernandez-absent); Dealey-1st, Kirk-2nd.

DEPARTMENT COMMENTS:

The property in question is developed with an office use. The applicants are requesting GO-MU-NP zoning so that can redevelop the existing structure for a hair salon (Personal Services use) and residence.

The staff recommends GO-MU-CO-NP zoning at this location because the site under consideration meets the intent of the GO and MU zoning districts. The property fronts onto a collector street and is located adjacent to existing GO-MU-CO-NP zoning to the east and W/LO-CO zoning to the north. There is a hair salon to the east and office/warehouse uses to the north of this site, across Kramer Lane. The staff is recommending a conditional overlay for this site to reflect the same conditions that were placed on the adjacent lot to the east, 1101 Kramer Lane, in zoning case C14-06-0030. In addition, the neighborhood planning staff is recommending a proposed FLUM change from Office to Office/Mixed Use for this site in related case, NPA-2010-0007.01.

The applicant agrees with the staff's recommendation.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	NO-NP	Office
<i>North</i>	W/LO-CO, DR	Office/Warehouse (Alternative Business Services), Primary School (Mc Bee Elementary School)
<i>South</i>	SF-2-NP	Single-Family Residences
<i>East</i>	GO-MU-CO-NP	Personal Services (L.A. Salon)
<i>West</i>	SF-2-NP	Single-Family Residence

STAFF RECOMMENDATION

The staff recommends GO-MU-CO-NP, General Office-Mixed Use-Conditional Overlay-Neighborhood Plan District, zoning. The conditional overlay would limit the development intensity for the site to less than 2,000 vehicle trips per day, would permit Personal Services as the only 'GR' district use and permit all other 'NO' district uses, and would limit the property to 'NO' district site development standards.

BASIS FOR RECOMMENDATION

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

General office (GO) district is the designation for an office or commercial use that serves community and city-wide needs. A building in a GO district may contain one or more different uses.

The purpose of a mixed use (MU) combining district is to allow office, retail, commercial, and residential uses to be combined in a single development.

2. *The proposed zoning should promote consistency and orderly planning.*

The proposed zoning will promote consistency and orderly planning because the property in question is located adjacent to existing GO-MU-CO-NP zoning to the east and W/LO-CO zoning to the north. There is a hair salon to the east and office/warehouse uses to the north of this site, across Kramer Lane.

3. *The proposed zoning should allow for a reasonable use of the property.*

The proposed GO-MU-CO-NP district zoning would allow the applicant to redevelop the site to allow for a Personal Services use and a variety of office or civic uses, as well a residence. The property meets the minimum size requirements for the zoning district and fronts onto a collector street, Kramer Lane.

EXISTING CONDITIONS

Site Characteristics

The site under consideration is developed with an office use. The properties to the north, across Kramer Lane are developed with an office/warehouse use (Alternative Business Solutions) and a primary elementary school (McBee Elementary). To the east of the site, there is a personal services use (L.A. Salon) and a small apartment complex. To the west, there is a single-family residence with a paved parking area and shed. The lots to the south are developed with single-family residences.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Little Walnut Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

This site is required to provide on-site structural water quality controls (or payment in lieu of) for all development and/or redevelopment when 5,000 sq. ft. cumulative is exceeded, and detention for the

two-year storm. At this time, no information has been provided as to whether this property has any pre-existing approvals which would preempt current water quality or Code requirements.

According to flood plain maps, there is no flood plain within the project area.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Impervious Cover

The maximum impervious cover allowed by the GO zoning district would be 80%.

The site is located in the Little Walnut Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Impervious cover is not limited in this watershed class; therefore the zoning district impervious cover limits will apply.

Site Plan Comments/ Compatibility

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

The site is subject to compatibility standards. Along all property lines adjacent to single family, either in use or per zoning, the following standards will apply with any future development:

- No structure may be built within 25 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- No parking or driveways are allowed within 25 feet of the property line.
- A landscape area is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- Additional design regulations will be enforced at the time a site plan is submitted.

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site

stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program if available.

Transportation

No additional right-of-way is needed at this time.

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day. [LDC, 25-6-117]

Existing Street Characteristics:

Name	ROW	Pavement	Class	Sidewalk?	Bus Route?	Bike Route?
Kramer Lane	60'	40'	Collector	Yes	No	Yes

Water and Wastewater

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:

www.ci.austin.tx.us/development

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.
