**Planning and Development Review
RECOMMENDATION FOR COUNCIL ACTION****Item No. 12**

Subject: Approve an ordinance amending City Code, Section 9-2-30, relating to decibel limits for outdoor music, and declaring an emergency. **For More Information:** Clara Hilling, 974-2686; Sylvia Arzola, 974-6448.

Prior Council Action: February 10, 2011 - Council approved the Temporary Events and Outdoor Music Ordinance.

On February 10, 2011, the City Council approved Ordinance No. 20110210-029 relating to temporary events and outdoor music. The approved ordinance inadvertently included the requirement that decibel limits be measured from the source of the sound equipment, rather than at the property line.

This action will correct the error, thus allowing staff and venue operators to measure decibel limits at the property line in accordance with existing practice.
