

ZONING CHANGE REVIEW SHEET

CASE: C14-2011-0044 (Roxie Business Park)

ZAP DATE: June 7, 2011

ADDRESS: 12307 Roxie Drive

OWNER/APPLICANT: Rogers & Reichle, Inc. (Kevin Reichle)

ZONING FROM: I-RR

TO: LI

AREA: 1.41 acres

SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant LI-CO (Limited Industrial-Conditional Overlay District) zoning. The conditional overlay would limit the site to uses that generate no more than 2,000 vehicle trips per day and prohibit the Basic Industry, Recycling Center, and Resource Extraction uses.

ZONING & PLATTING COMMISSION RECOMMENDATION:

6/07/11: Approved staff's recommendation of LI-CO zoning by consent (5-0, G. Bourgeois-absent); P. Seager-1st, D. Tiemann-2nd.

DEPARTMENT COMMENTS:

The property in question is currently developed with industrial, office and warehouse uses (Roxie Drive Business Park- All Star Heating & Air, Bartz Paint & Drywall, King of the Dent, Hammerhead Bikes, Capital Screen, Centex Electric, Inc., Triumph Graphic Supply, Flynn Company, Maluski Woodworking, Texas Solar Source). The applicant is requesting permanent zoning to bring the existing uses into conformance with the City of Austin Land Development Code use regulations.

The staff is recommending LI-CO zoning for this property because the site is located within an industrial park surrounded by office, commercial, warehouse distribution, light manufacturing and construction sales and services uses. The site meets the intent of the LI district as it allows for a commercial service use or limited manufacturing use generally located on a moderately-sized site. The property takes access to a collector roadway that is located off of two major arterials, Pond Springs Road and U.S. Highway 183 North.

The applicant agrees with the staff's recommendation.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	I-RR	Office/Industrial/Warehouse uses(Roxie Drive Business Park- All Star Heating & Air, Bartz Paint & Drywall, King of the Dent, Hammerhead Bikes, Capital Screen, Centex Electric, Inc., Triumph Graphic Supply, Flynn Company)
<i>North</i>	I-RR	Pet Services (Cat Hospital of Austin)
<i>South</i>	CS-CO	Custom Manufacturing use (Becks Signs & Designs), Office/Warehouse/Distribution use
<i>East</i>	I-RR, CS-CO	Administrative Business Office (CPA Services), Monument Sales (Southwest Marble and Granite Works)

<i>West</i>	LI-CO	Office/Warehouse (Morrison Supply Co.- Plumbing and Air Conditioning Supply)

STAFF RECOMMENDATION

The staff's recommendation is to grant LI-CO (Limited Industrial-Conditional Overlay District) zoning. The conditional overlay would limit the site to uses that generate no more than 2,000 vehicle trips per day and prohibit the Basic Industry, Recycling Center, and Resource Extraction uses.

BASIS FOR RECOMMENDATION

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

Limited industrial service (LI) district is the designation for a commercial service use or limited manufacturing use generally located on a moderately-sized site.

2. *The proposed zoning should promote consistency and orderly planning.*

LI-CO zoning would be consistent with the surrounding commercial and industrial uses located to the north, south, east, and west of the site. The property in question is located within an industrial park adjacent to CS-CO and LI-CO district zoning and takes access to a collector roadway that is located off of two major arterials, Pond Springs Road and U.S. Highway 183 North.

3. *Zoning should allow for reasonable use of the property.*

LI-CO zoning will allow the applicant to bring the existing warehouse/distribution use on the property into conformance with the City of Austin Land Development Code. The proposed zoning is consistent with existing development in this area of the city.

EXISTING CONDITIONS

Site Characteristics

The site under consideration is developed with office/industrial/warehouse uses (Roxie Drive Business Park- All Star Heating & Air, Bartz Paint & Drywall, Legacy Custom Decks, Hammerhead Bikes, Capital Screen, Centex Electric, Inc., Triumph Graphic Supply, Flynn Company, Maluski Woodworking, Texas Solar Source). The lots to the east are developed with an administrative business office use (CPA Services) and a monument sales use (Southwest Marble and Granite Works). To the west, there is a restaurant supply company (Milstead Warehouse). The property to the north, across Roxie Drive, is developed with a veterinary clinic that fronts onto Pond Springs Road. The tracts of land to the south contain a custom manufacturing use (Becks Signs & Designs) and an office/warehouse/distribution use.

Environmental

The site is located over the North Edwards Aquifer Recharge Zone. It is in the Desired Development Zone. The site is in the Lake Creek Watershed, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code.

According to flood plain maps there is no floodplain within or adjacent to the project boundary.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Some trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment on this site will be subject to the following water quality control requirements:

- Structural controls: Sedimentation and filtration basins with increased capture volume and 2 year detention.

At this time, no information has been provided as to whether this property has any pre-existing approvals that preempt current water quality or Code requirements.

Impervious Cover

The maximum impervious cover allowed by the LI zoning district would be 80%. However, because the watershed impervious cover is more restrictive than the zoning district's allowable impervious cover, the impervious cover is limited by the watershed regulations.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>
Single-Family Residential (min. lot size 5750 sq. ft.)	45%	50%
One or Two Family Residential (lot size < 5750 sq. ft.)	55%	60%
Multifamily Residential	60%	65%
Commercial	65%	70%

In the Water Quality Transition Zones, impervious cover is limited to 30%.

Site Plan

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program if available.

Transportation

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Daily Traffic
Roxie Drive	70'	30'	Collector	Not Available

No additional right-of-way is needed at this time.

A traffic impact analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 2,000 vehicle trips per day [LDC, 25-6-117].

There are no existing sidewalks along Roxie Drive.

According to the Austin 2009 Bicycle Plan Update approved by Austin City Council in June, 2009, a bicycle facility is not identified on Roxie Drive.

Capital Metro bus service is not available within 1/4 mile of this property.

Water and Wastewater

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. All water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.
