Additional Backup Information

Austin Energy is seeking approval of this budget amendment to provide additional appropriations and related funding sources for decommissioning the Holly Street Power Plant.

Holly Street Power Plant – Austin Energy (AE) owns a 570 megawatt (MW) natural gas fired power plant, known as Holly Street Power Plant (Holly), which began operations between 1960 and 1974. Holly is sited in a neighborhood near downtown on Lady Bird Lake in Austin, Texas. Resolutions to close Holly were approved by Council in July 2002 and November 2003. In accordance with these resolutions, power production operations ceased at Holly Units 1 and 2 in October 2004 and Units 3 and 4 in September 2007. The plant's final decommissioning work or deconstruction is to begin in mid 2011.

Appropriation – Austin Energy is seeking authorization to amend the Fiscal Year 2010-2011 Austin Energy Capital

Budget of Ordinance No. 20100913-003 to increase appropriations by \$5,500,000 for the Holly Street Power Plant decommissioning costs. This budget amendment is related to another Council agenda item that requests authorization to negotiate and execute a contract to provide services for the decommissioning of the Holly Street Power Plant.

Funding Source for the Appropriation - Austin Energy is also seeking authorization to amend the Fiscal Year 2010-2011 Austin Energy Operating Budget of Ordinance No. 20100913-002 to increase Non-Fuel Operations and Maintenance by \$5,500,000 for the Holly Street Power Plant decommissioning account and decrease the Austin Energy Operating Fund ending balance by \$5,500,000. This additional funding of the Holly Street Power Plant decommissioning account will add the funding sources needed for the additional appropriations.

With this amendment, Austin Energy is seeking authorization to use a portion of the Austin Energy Operating Fund ending fund balance as a funding resource. In prior years, Austin Energy has experienced positive operating results due to revenues higher than estimated and lower than anticipated operating expenditures, thus resulting in a positive ending balance. Although Fiscal Year 2010-2011 Austin Energy Operating Fund shows a deficiency of total available funds over total requirements, there is sufficient ending balance to fund this amendment.
