## Additional Backup Information

This agreement is for the maintenance and repair parts for the Robicon Variable Frequency Drives (VFD) for the Airport's Central Plant. These VFDs are used to vary the motor speed for the buildings chilled water and heating hot water pumps which reduces the amount of electricity consumed to cool and heat the entire terminal facility.

This contract was issued as a sole source contract in 2007. Amendment No. 1 was issued in May, 2010 for the first extension option. This recommended Council action is to approve Amendment No. 2 for \$13,400 and the authorization to enter into the final option period for \$13,400 when appropriate, for a final contract value of \$80,400.
