### Additional Backup Information

This contract will provide management and disposal of hazardous and Class 1 non-hazardous and universal waste for the Austin Water Utility (AWU). In the course of treating water and wastewater, the City generates hazardous wastes that require special management, transportation, and treatment or disposal. Additionally, during rehabilitation projects, the AWU has soils contaminated with wastewater. The City requires a contractor to make all preparations for disposal of the wastes as needed by the City including but not limited to preparing manifests, loading the wastes onto the transport vehicles, transporting the wastes, storing the wastes, disposing of the wastes and documenting disposal activities.

This contract was competitively bid and awarded in 2009, in an amount of \$100,000 for the initial 24-month contract. The recommended council action is to approve an administrative increase in the amount of \$50,000 for the first extension option and approve two additional 12-month extension options for a final contract value of \$250,000.
