Additional Backup Information

Section 25-1-540, Managed Growth Agreements, of the City Land Development Code states that an applicant may request the City Council to enter into a Managed Growth Agreement for planning and developing large projects, long term projects or any project which has special benefits in the public interest. The agreement may extend the expiration date for the project completion.

This action will authorize negotiation and execution of a Managed Growth Agreement with River Place Pointe LP, Pacifica Riverplace LP, and United Heritage Credit Union for River Place Center site plan located at 10815 Ranch Road 2222, and consisting of 22.84 acres. The site plan consists of six phases with five buildings, including medical/administrative offices, hotel, financial services, and restaurant uses, with parking and other associated improvements. Utility mains, driveways, and a water quality facility have been completed, and one building is currently under construction.

The applicant's request will extend the site plan expiration date five years to October 3, 2016. Staff has evaluated the proposal with respect to §25-1-540 and recommends approval of the Managed Growth Agreement because it meets

the code requirements for large, long term projects.
