Oak Springs

Oak Spring 1. Located at the base of a former rock trough. This may be the historic location where farmers washed their produce before taking it to market. (Rosewood Neighborhood Plan) WPDRD staff Scott Hiers in photo.

10/30/2007

Oak Springs

This live oak, No. 1801, is 58-inches in diameter. It is located on the bank of the natural channel where it can maximize interception of spring flow and channel flow.

your vote, your bonds, your future!

10/30/2007

Open Space Acquisition

Oak Springs

Wetland area between spring 1 and spring 2. Spring 2 is at the feet of Scott Hiers on the right side of the photo. Hydromulch from 2004 unauthorized clearing is visible in the foreground.
