Reconsider your decision on case # C16-2011-0010 as
I don't believe you had all information available

value, ruin an existing view, create more traffic
and I believe it is a safety concern ~~and~~ & lastly
I am almost certain it will diminish my privacy.
I do not know if this information was available to

Appreciate your time & hope this new information will
help you Reverse your decision for the variance.

RE: C16-2011-0010 2610 West 10th Street Austin Independent School District

Dear Ms. Benavidez:

On Monday, October 3 at the regularly scheduled meeting of the West Austin Neighborhood Group, we considered the above referenced matter. The Board unanimously voted to not oppose the variance requested with the caveat that the LED display be turned off by 9:00 PM except on evenings of special events held at O.Henry.

We believe that, generally, it would serve little purpose to leave the sign lit after 9:00 PM and would mitigate any adverse impact claimed by adjacent neighbors. We also considered placement of the sign in another location but we concurred with the applicant that its current location serves the highest number of students and parents based on the preferred traffic flow for the school.

As always, please let us know if you have any questions.

Sincerely,

August W. Harris III

If your variance request is for a reduction in setbacks or height limits, please contact Christine Esparza with the Electric Utility at 322-6112 before filing your application with this office to discuss your request. PUBLIC HEARING INFORMATION

Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During a public hearing, the board or commission may postpone or continue an application's hearing to a later date, or recommend approval or denial of the application. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

A board or commission's decision may be appealed by a person with standing to appeal, or an interested party that is identified as a person who can appeal the decision. The body holding a public hearing on an appeal will determine whether a person has standing to appeal the decision.

An interested party is defined as a person who is the applicant or record owner of the subject property, or who communicates an interest to a board or commission by:

- delivering a written statement to the board or commission before or during the public hearing that generally identifies the issues of concern (it may be delivered to the contact person listed on a notice); or
- appearing and speaking for the record at the public hearing; and:
- occupies a primary residence that is within 500 feet of the subject property or proposed development;
- is the record owner of property within 500 feet of the subject property or proposed development; or
- is an officer of an environmental or neighborhood organization that has an interest in or whose declared boundaries are within 500 feet of the subject property or proposed development.

A notice of appeal must be filed with the director of the responsible department no later than 10 days after the decision. An appeal form may be available from the responsible department.

For additional information on the City of Austin's land development process, visit our web site: www.ci.austin.tx.us/development.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the name of the board or commission, or Council; the scheduled date of the public hearing; the Case Number; and the contact person listed on the notice.
