working relationship with the Chambers that they will fulfill the following commitments: (1) Produce a plan of action by January 19, 1984. Acting City Attorney Jonathan Davis recommended "that Council move to amend Section 11-4-18 of the Code of the City of Austin to delete Paragraph (d) relating to one parade per year limitation, that the ordinance Section 11-4-19 modification by the City Manager be included so that the Manager can be authorized to modify the route time and manner of conduct of parade and can take into consideration the number of parades the applicant has received permits for that same year and to clean up the definition of parade in 11-4-2 to make it more explicit about what we are talking about".

Prior to the vote, Mr. Peterson, Assistant Director, Electric Utility, said a good part of the gas search has been done and it requires gas be sold to Valero. In the past two years Valero has taken very little of the gas. The amendment was proposed by Coastal States with money being transferred to a trust fund and the customer will benefit. Austin will gain \$50,000 with no detriment to customers.

NOTICE OF INTENTION TO ADOPT
A CONCURRENT ORDINANCE

The Council, on Councilmember Spaeth's motion, Mayor Mullen's second, adopted a resolution authorizing the issuance and publication of a "Notice of Intention to Adopt a Concurrent Ordinance" pursuant to Tex. Rev. Civ. Stat. Ann. Art. 1435a, relating to the creation of a Municipal Power Agency. (5-2 Vote, Councilmembers Shipman and Duncan voted No.)

Council also approved holding a Special Called Meeting on December 26, 1983 at 10:00 a.m.

Prior to the vote, Mr. Ed Aghjayan, Director of Utilities, stated: "I would like to make a number of points in terms of benefits of reserving our option at this time to establish such an agency. One is an agency so formed can issue its own tax exempt financing, raise funds for existing or future construction of power plants or transmission or distribution systems. An agency of this type put together by two or more cities can also sell 25% of the output of such a facility to investor owned utilities which result in savings to both investor owned utilities and rate payers of such cities. The question in front of you is for consideration of reserving our option.

"An investor owned utility, as an example, is Houston Lighting and Power, owned by shareholders and stock holders, and to build the vast kind of capital intensive power generation projects that is required these days in the electric industry, financing a raise by investor owned utilities is taxable financing in contrast to the type of financing cities like Austin and San Antonio raise, which is tax exempt. There is generally about a 3% point difference in the financing when both entities are involved, with obviously the lower rate being with tax exempt financing.Under the current law there is a window saying if such an agency is formed by the end of the year such an agency can be done provided it is done by both entities, meaning parties in a joint action agency when there is two or more. In this case, Austin's consideration would have to be completed by the end of December. You can still form a joint action agency later on but voter approval for that kind of entity would be required."

After lengthy discussion the vote was taken.

ITEM POSTPONED

The request of Dr. Pat Gordon and Mr. Ed Padgett for approval of a building permit to construct a concrete bulkhead and backfill along the shoreline of Lots 1 through 6, Scenic Cove was postponed.

REQUEST FOR ZONING HEARING

The Council, on Councilmember Shipman's motion, Councilmember Rose's second, approved the request of Mr. Jerry Harris for Planning Commission to consider plat of Granada Oaks (C8-83-91) a 68 acre/49 lot subdivision filed on October 26, 1983 and scheduled to be heard by the Planning Commission on December 13, 1983, in lieu of delaying further processing until January 13, 1984. (6-0 Vote, Mayor Mullen was out of the room.)

CITY POLICY ON MUD'S DISCUSSED

Mr. Ed Wendler Sr. appeared before Council to discuss action on possible revision of the consent agreements for the South Central Austin Growth Corridor Municipal Utility District No. 1; and action on possible revision of the consent agreements for the Maple Run at Austin Municipal Utility District No. 1 in order to conform with the new City policy. As a representative of Nash Phillips Copus he said "with the approval of the Circle C districts I think there is an inequity that exists that I would like to address. I would like you to approve creation of the South Austin Municipal Utility District No. 1 and direct staff and applicant to get together and make necessary reformation of contracts and documents in order to permit this district to have bonding authority for drainage of 70% which is the full state maximum and that we change the annexation date in it which are now at 4 years for annexation and actual calculation of off-set at 7 years and change that to same as preceding district in order to bring equity to the situation. The districts all came in at the same time and we spent many weeks negotiating the whole package and when we were through we thought that was it. We think we are entitled to these same things."

(Action on ordinance approving the creation of the South Austin Municipal Utility District No. 1 listed under ordinances on agenda.)

Motion

The Council, on Councilmember Rose's motion, Councilmember Spaeth's second, waived the requirement for three readings and finally passed an ordinance approving the creation of the South Austin Municipal Utility District No. 1 and direct staff to work with the applicant on all three MUD's (South Central, Maple Run and South Austin Municipal) and come back next week with language in both areas (bonding authority for drainage of 70% and annexation date to 10 years). (7-0 Vote)
