Additional Backup Information

This contract is for the purchase of 3,600 21-gallon residential garbage carts, including lid graphics, for the Austin Resource Recovery Department (ARR).

The garbage carts are to be issued for the ARR Pay-As-You-Throw Program, which requires ARR customers to use a City-issued cart for the removal of residential garbage. The introduction of 21-gallon garbage carts at a lower monthly rate than the existing 32-, 64- and 96-gallon carts will advance the City's Zero Waste goals by encouraging customers to generate less waste and increase diversion of collected materials from landfills and incinerators. The purchase of 21-gallon garbage carts is necessary to provide ARR with a sufficient supply readily available to issue to customers upon request. The 21 gallon residential carts make/brand are required in order to remain consistent with appearance and durability, (as well as interchangeable parts), of what is currently being issued to the citizens of Austin. The 21-gallon size carts will be a new size/option available to customers in Austin.
