Unencumbered Balance:	2,055,439.72
Amount of This Action:	(208,816.00)
Remaining Balance:	<u>1,846,623.72</u>

ANALYSIS / ADDITIONAL INFORMATION:

The City of Austin is improving the storm drain system to minimize localized flooding in the Dawson neighborhood. The original storm drain system was constructed in the 1940s and is not adequate to convey larger storms. Residents have expressed concerns about the flooding for many years. This acquisition is one of many needed to complete the project.

The design plans for the East Bouldin – Euclid – Wilson Storm Drain Improvements Project require the acquisition of a 1,140 square foot tract of land for a storm sewer easement, a 9,378 square foot tract of land for an access easement, and a 3,805 square foot tract of land for a temporary work space, staging and material storage site easement across the property located at 130 Cumberland Road, Austin, Travis County, Texas.

An independent third party appraisal has established the fair-market value of the proposed easements, damages and cost to cure to be \$208,816.
