Additional Backup Information

On December 15, 2011, Council directed the City Manager to process a code amendment that developed a proposed ordinance that establishes requirements for the issuance, notification, and appeal of zoning use determinations; and requires that a use determination be made either concurrent with issuance of a development approval or as part of a pre-permitting review process that provides for public notice.

The proposed ordinance will more clearly define what a use determination is, when a use determination is made, and how a use determination is appealed. It includes a qualitative standard that addresses "unclassified" or novel land uses that don't clearly fit with any of the defined land use categories.
