Re: AUMF Proposed Designated Smoking Areas

Hello Sara,

This is Homer Hill with the Austin Urban Music Festival, and I am submitting our plan concerning the new smoking ordinance for parks and other public places, our specific location is Town Lake Auditorium Shores located at 920 W. Riverside on March 30th & 31st. Below are the listings of where and what we plan to do to create designated smoking areas.

- There will be two designated smoking on the Shores.

**Area 1** will be located on the farthest Northeastern corner of the festival grounds. The area will be enclosed by bicycle racks and signage will be placed on the racks informing the public that the space is for smokers only. Within the area will be urns and seating to accommodate 50 visitors at any given time.

**Area 2** will be located on the farthest Northwestern corner of the festival grounds. The area will be enclosed by bicycle racks and signage will be placed on the racks informing the public that the space is for smokers only. Within the area will be urns and seating to accommodate 50 visitors at any given time.

Signage will be placed on the exterior fencing and messages will be announced from the stage about the ordinance and the smoking areas.

This smoking plan should not affect the neighborhood in anyway, and the smoking areas are away from festival activities. The festival grounds are at least a 1/2 mile away from any neighborhoods or homes. We will also have our clean up crews to monitor the urns and the immediate grounds surrounding the area.
